IMPORTANT FROM JAPAN. American Cilizens refused the Privileges Guarantied to us by Stipulations in the

certain Portions of the Treaty. The San Francisco Daily HERALD, of Sept. 18

akodadi, the advantages we are to derive from enough to bring Japan to terms ? ur late periotiations with that Government through The affair may yet be satisfactorily arranged. Com. Perry, are about to turn out little better than however, as the Governors of Simoda and Hakodaperfect humber. The correspondence of the di are more agonts under the Emperor at Jeddo .-Ucraid being altogether too long for our paper, we An interview with the Emperor will probably bring all state the case in as few words as possible. about a satisfactory understanding.

It seems that the firm of Read & Dougherty, of oblela, ander the fall conviction that they were tified in so doing by the "treaty" referred to, A Honolulu on the 13th of Feb. last, with a full erat Conference of the church of the United Breth-

m, and bound for Hakodadi, for the purpose of ablishing a supply depot, for such American halo ships as might wish to winter at that place J. B. Lichtenthaler, P. C. Parker, R. Price. stead of Honolulu. Upon the passage the Curine E. Foote touched at Simoda or Niphon, a apanese island. Here she found the crew of the

een the Russians and the firm of Reed & Doughty for the charter of the C. E. Foote to remove ountry.

It is emisting that the Russian Admiral Pontlatine its object the perpetuity or extension of Slavery ; and just completed a treaty for the Russian Gov. nent, on precisely the same basis, and secur. extend it. the sume grants and privileges, as our own.-othe sume grants and privileges, as our own.-order to take the Russians heme, it was made incover to the authorities of Simoda that it was because y to land part of the cargo, and all of the assengers of the C. E. Foote, to await the return I the vessel from her voyage to Petropoloski, which I the vessel from her voyage to Petropolosici, which as expected to consume the better part of three months. The authorities of Simoda cheerfully and then every assistance in landing the ship's forces, and in providing suitable storage, and a avenient residence for the passengers. During of in the People. discord their store at Simula, which was abaut Resolved, That we believe the traffic in, and use time of their stay at Simoda, which was about enty-five days, Mr. Reed selected and pu chas-angraitade, fraught with untoid evils to the coan a cargo of Japan gools for San Francisco, con- try, and especially to the youth. ring their stey among these people Article 4th our cutire influence against it. the treaty, which says that our citizens "shall be is as in other countries, and not subject to such ska," was alleged to have been repeatedly vioed by the officials of Simoda. In all their walks were followed by from two to six officers; were aded off here, and headed off there, and under oser watch and more restrictions than the veriest low under arrest in our own country." Finding natives were very suspicious of them, and mhtful as to the real object of their mission and mporary residence among them, Reed & Doughty addressed a note to "His Excellency, the ernor of Simoda," setting forth the reason of ir detention, their determination to re-embark on the arrival of their vessel, the object of their ion to Hakodadi, and at the same time plainly d positively demanding the immunities and prives secured to them as American citizens by aty stipulations, lately ratified and sealed by the cutive of Japan. The Governor returned for swer, that as their temporary delay was unavoid-

not sell.

Com. Rogers informed the Governor that "Un- breaks it, and at other times violently agitate Treaty by Com. Perry---Ignorance of the Japanese Authorities in construing cle Sam" would be a party to interpreting the treaty one of those days.

There seems to be an excellent opening over nces us in possession of a very interesting cor- there for Uncle Sam to mix a little brimstone anoke spondence, which shows that, accepting the efficient along with the deuse cloud that has already settled terior of the earth. If this were a fact, all fal construction lately put upon our boasted trea- down upon the ocean from the heights of Schusto. parts of the earth would be subject to earthwith Japan by the authorities of Simoda and pol. Wonder if the Administration has got "plack"

For the Argus. The United Brethren in Christ, in Oregon. In accordance with an Act passed by the Genargo of ship chandlery, and such other articles as ren in Christ, at its session in May, 1853, the fel- ject to rot, and the attacks of worms, than shalling ships generally require, on heard of the lowing Ministers met in Linn Ca. O. T., Aug. 30, roline E. Foote, a schooner chartered by the 1855, and entered into an Annual Conference or- There must be some foundation for such ganization. Present ; T. J. Connor, J. Kenøyer, M. return of the C. E. Foote, provided she returned by the date already specified as the time she was exmeted by her owners. Otherwise they must leave on the first American ship that arrived. They ere also informed that they would be similarly treated at Hakodadi if they proceeded there.

to on account of the departure of their vessel to

ussia, they could be tolerated in Simoda until the

At this juncture Commodore Rogers, commander of the U. S. Exploring Expedition, on board the S. ship Vincennes, came into port. Reed & co. elicited his interference, and placed themselves ader his protection. He engaged to intercede ith the authorities at Hahodadi, whither he excted to precede the C. E. Foote, and endeavto secure to them the privileges which they claimed under the treaty.

Commodore Rovers immediately wrote to the Governor of Hakodadi, setting before him the whele case, and demanding in behalf of the Govnent of the United States, a proper recognition the authorities of Japan, of American rights and ivileges, as plainly defined by the solemn "comet" already entered into between the United states and the official authorities of the Islands. The Governor replied that those privileges were ouly secured to "temporary residents." A "temparary" residence was construed by him to mean a short period of from five to seven days, and could possibly be extended to more than a two or ee months' residence. He could not, therefore, torly contains an article on the much-mootsent to the landing of these people upon the ed point of lunar influence,-that is, the efores of the island at all, unless under the express feet of the moon's rays upon objects on this ulation that a definite time was to be fixed for earth. From the information presented, it spulation that a definite time was to be fixed for earth. From the line men have come to appears some scientific men have come to appears some scientific men have come to Equilation that a definite time was to be fixed for heir departure, and when the time arrived they rust leave without fall. The Captain entered into flengthy explanation of what we understood by a temporary" residence. He showed him that it influence whatever on the earth, while others as positively affirm that it does.— temporary" residence. He showed him that it emporary" residence. He showed him that if others as positively affirm that it does .appe of our citizens came to Japan for the purpose af studying their laws, eustons, arts, or religion, that ""hough this night require a period of many years, yet at the same time, he being a citizen c." The up of a studying their laws are time, he being a citizen c." The up of a studying their laws are time, he being a citizen c." The up of a studying their laws are time, he being a citizen c." The up of a studying their laws are time, he being a citizen c." The up of a studying their laws are time, he being a citizen c." The up of a studying their laws are time, he being a citizen c." The units might require a period of many years, yet at the same time, he being a citizen of the U.S., was a "temporary" resident of Japan, and under the existing treaty, our Government would hold them responsible for injuries and insults inflicted upon such of our citizens, whilst peacebly inflicted upon such of our citizens, whilst peachly or die of sickness when the tide is running complete style, cheap for each, or good trade would be in the tide is running da well to give me a call. My shop is situated on indicted upon such of our citizens, whilst peacebly remaining among them for temporary objects. He in. In south America the natives pay strict attention to the lumations in sowing in Japan carried along with it, as a consequence, their creats. It is pretty well settled now, by the way of Smith's bridge on the North Fork of a Japan carried along with it, as a consequence, their crops. It is pretty well settled now, e right of having houses for shelter, also of fuel, we believe, that fish and flesh decay more sthing and provisions, as no person could be ex- rapidly when exposed to the moon's rays eted to live without them. Also the right of our than when covered. The Indians always seels entering their ports for repairs, &e,, implied cover their fish from such influences. In ar right to demand, for a reasonable compensation, Brazil, the opinion prevails, that the moon's uch "ship stores" as it is necessary for them to snys falling upon infants will produce sickwe, and as the Japanese were not able to famish ness. In Siberia, the hunters are careful to diain cables and iron anchors," and many other secure their prey, containing musk bags, at articles indispensable to a ship, therefore we were full moon ; they declare they are as good T clearly entitled to establish suitable depots in their for nothing at new moon. But the most the orts for supplying our ships with them. The astounding influence attributed to the moon, ports for supporting our support of the moon, Governor porsisted, however, in the correctness of hisinterpretation of the term "temporary," and the C. E. Foote returned with her crew and carga... Reed & co. seen to be pretty well disgussed with the Japans. They say they could procure nothing field. Thus, it is assumed that the interior the Japans. They say they could procure nothing fluid. Thus it is assumed that the interior represented in the province line at Simoda, although there was of the earth is now in a fluid state, and septo-22

Destruction rides along its path ; The whirlwind breathes his scorehing breath, And carries high the terror death : The towering mountains stand on earth, Emblems of His unchanging truth ; The ocean, boundless in its might, Proclaims its maker INFINITE.

How dark most be that human eve, That looks on Nature's majesty, And gazing where her Maker trod, Sees not the footsteps of a Gon ! Or looking round upon the scene, On skies of blue, and fields of green, Thinks there is nothing beatcous here, But all is durk, and cold, and drear.

Oh ! blind indeed that soul must be, As all are blind who will not see : But all who will may read the page That Earth has spread from age to age: There's not a line but goes to prove The one great truth, that "Gon is Love ?" And when for ages more it's stood, It still will tell us Gop is goop. Ints Hunt, Sept. 10, '55. VIOLA.
