☞ Our Government, says the N. Y. *Herald*, having experienced great difficulties from the want of saltpetre during the Revolution, as well as in the war of 1812, has since been more provident for future contingencies, and Congress has for some twenty or thirty years past appropriated about $20,000 per annum for the purchase and storage of saltpetre, so that we might now probably stand a five or ten years' war even without entirely exhausting our supplies. This precaution was the more necessary, as the most prolific mines in the world, on the tributaries of the Ganges, in India, were under the control of England. As great as the resources of our country are known to be, yet so far they are found to be deficient in supplies of saltpetre and tin.—In case of war we can get on without the latter, but not without the former. To be equal with other nations we must have ample stores of saltpetre, the chief element in the composition of gunpowder.

DECREASE OF POPULATION.—Some facts are published which seem to indicate that the States of Ohio, Indiana, and Illinois, have not increased in population in all quarters. Thus, the Methodist Conference, recently held at Sandusky, Ohio, shows in its statistics a decrease of 355 members of the church in the bounds of that Conference, 510 probationers, and 4 local preachers, and the decrease is attributed to the emigration constantly going on to Iowa and the new Territories. A census of Peru, Illinois, just taken, also shows a decrease of 250 in the population of that town in the last two years.

PHYSICIANS.—The editor of the *American Medical Gazette* estimates that one physician is required for every 700 inhabitants. This would give over 30,000 in the nation. It is probable that the average life of a physician is not over thirty years, after he enters his profession. Hence it follows, by computation, that the waste, by deaths alone, is one thousand physicians a year.—But more are lost by change of business than by death, and this loss might be estimated, without exaggeration, at 300. We have, then, an actual loss of 1,300 physicians annually, which must be made up.—Again, the increase of population in the U. States is about 700,000 a year, which it requires an increase of 1,000 physicians to supply. There are therefore actually required *twenty-three hundred* new physicians in the United States yearly. To meet this, we have only 1,400 graduates from the schools, and about 300 foreigners, making in all 1,700, and leaving an actual deficiency of 600 a year, to be supplied by irregular practitioners.

Editorial Life in California.

A good picture and *life*-like, of a California editor, may be had in the perusal of the following from the *Alta California*:

"First, he gets up in the morning at ten o'clock; dresses himself, puts on his hat, in which are six or seven bullet-holes, and goes to a resturant for breakfast. After breakfast, starts for the office to look over the papers, and discovers that he is called scoundrel in one of them, a liar in another, and a puppy in another, ; he smiles at the pleasing prospect of having something to do; fills out and despatches three blank challenges, a ream or two of which he always keeps on hand, ready printed, to save time; commences writing a leader, when as the clock strikes eleven, a large man with a cowhide in one hand, a pistol in the other, and a bowie-knife in his belt; walks in and asks him if his name is ———; he answers by knocking the intruder down two pair of stairs with a chair.

"At 12 o'clock finds that his challenges have been accepted, and suddenly remembers that he has a little affair of that nature to settle at the beach that day at 3 o'clock; goes out and kills his man, then comes in and dines on stewed grizzly. Starts for the office, and while going there gets mixed up in a street row, and has the heel of his boot shot off by accident; laughs to think how beautifully it was done, arrives at his sanctum, and finds an "infernal machine" upon the table; knows what it is, and merely pitches it out of the window; writes an article on "moral reform," and then starts for the theater; is attacked at the corner of a dark alley by three men, kills two of them, and takes the other to the station house. Returning to the office at 11 o'clock at night, knocks down a man who tries to rob him, kills a dog with a paving-stone, gets run over by a cab, and has the tail of his coat slit with a thrust from a knife, and two bullet-holes put through his beaver as he steps within his own door; smiles at his escape; writes until two o'clock and then 'turns in,' with the happy consciousness of having two duels to fight the next day."

☞ The President has allowed Lieut. Gen. Scott back pay from May, 1847. Under this decision the pay and emoluments of the new grade amount to something upwards of $10,000.

OFFICIAL VOTE OF PENNSYLVANIA.—The Harrisburg Union contains the official vote for Plumer, Dem., and Nicholson, Fusion, but not the vote for the other candidates for Canal Commissioner. The totals stand as follows:

Plumer, - -	161,281
Nicholson, - -	149,745
Plumer's maj., -	11,536

The aggregate number of votes cast for the two candidates is 311,026, against 371,009 in 1854 for Governor, when Pollock had 204,008 and Bigler 167,001. In 42 counties, however, 12,577 votes were polled for Williamson, Henderson, Martin, and Cleaver. The scattering vote, therefore, exceeds Plumer's majority.

SCARCITY OF HORSES IN EUROPE.—A correspondent of the Spirit of the Times, writing from Paris under date of May 31, remarks on the state of the London horse market as follows: "Ladies' saddle horses are not to be had, neither are carriage horses, which will supprise you. In thirteen day's search I could not find a decent pair for sale at any price. If this war lasts another year, the Europeans will be importing horses from America, and it would be well worth the attention of our farmers and breeders to raise large horses, fit to draw a heavy carriage, or carry a heavy man.—Good saddle horses for gentlemen are still to be found by paying for them; a first rate one stands you $300." A Utica (N.Y) paper states that a gentleman is now in that city purchasing carriage and saddle horses for the Paris market.—*Wool Grower.*

☞ Gallegos, a Mexican, has been re-elected delegate to Congress from New Mexico, by a majority of 99 over Otero, another Mexican. The election is to be contested on the ground of illegality in some of the counties. The total number of votes cast was 13,729.

☞ The great comet of 1858, which was expected in 1848, and on account of whose non-appearance Sir John Herschel put crape on his telescope, M. Bomme, a distinguished German astronomer, finds not to be due till 1858. With immense labor he has gone over all the intricate calculations, and estimates that the comet would be retarded to that extent by the influence of the planets. The periods of its return have ranged from 289 to 293 years, and if it shall not return before 1858, its present period will be longer by 9 years than ever before.

☞ The following directions for restoring suspended animation in cases of supposed drowning, are sanctioned by the best authority:

"Convey the body to the nearest house or shelter, with the head raised; strip and rub it dry; wrap it in warm blankets, sufflate the lungs by closing the nostrils with thumb and finger, while you blow forcibly into the mouth, and then press on the chest with the hand; again blow into the mouth, and again press, and so on for ten minutes, or until the patient breathes naturally; keep the body warm, and the extremities also; continue to rub, and do not give up for an hour or more if there is the least reason to hope."

HEATHENDOM.—There are five hundred millions more of heathens than of Christians in the world. For this mighty mass, it was recently stated at an anniversary in Berlin, only fifteen hundred missionary stations exist, and only thirty-seven societies have been formed to promote their conversion.

☞ It is stated in the New York Commercial that a remittance of £10,000 in gold was received by the Africa to be employed in grain purchases in the United States for shipment to England. This is a significant fact.

☞ Brig. Gen. Hitchcock has resigned his commission in the U. S. Army. He is the one to whom Gen. Scott gave temporary leave of absence some time since, and respecting whom the correspondence took place between Gen. S. and the Secretary of War. The Secretary of War ordered the officer back to his post, whereupon he threw up his commission. Gen. Hitchcock entered the army in 1817, and was brevetted for his gallantry at the battle of Molino del Rey, in Mexico.

ENORMOUS WEALTH.—It is said the entire property of the Rothschilds amounts to the enormous sum of over one thousand millions of dollars, or an amount much larger than the entire valuation of New York city.

☞ The story of a man who had a nose so large that he couldn't blow it without the use of gunpowder, is said to be a hoax

☞ There are two reasons why we don't trust a man: one because we don't know him, and the other because we do.

☞ If you would properly erect the edifice of personal improvement, the foundation must be laid in moral purity.

COUNCIL GROUND,
WALLA-WALLA VALLEY, W. T.,
June 12, 1855.

AT A TREATY concluded with the Yakima Nation of Indians at the Council Ground in the Walla-walla Valley the 9th day of June, 1855, the land included within the following boundaries was ceded to the United States, to wit:

Commencing at Mt. Ranier, thence northerly along the main ridge of the Cascade mountains to the point where the northern tributary of the lake Chelan and the southern tributaries of the Methew river have their rise; thence south-easterly on the divide between the waters of lake Chelan and the Methew river to the Columbia river; thence crossing the Columbia, on a true east course, to a point whose longitude is one hundred and nineteen degrees and ten minutes—which two latter lines separate the above confederated tribes and bands of Indians from the Okainakane tribe of Indians; thence in a true south course to the forty-seventh parallel of latitude; thence east on the said parallel to the main Palouse river—which two latter lines of boundary seperate the above confederated tribes and bands from the Spokans; thence down the Palouse river to its junction with the Moh-ha-nesh-e or southern tributary of the same; thence in a south-easterly direction to the Snake river at the mouth of the Tucannon river, seperating the above confederated tribes from the Nez Perce tribe of Indians; thence down the Snake river to its junction with the Columbia river; thence up the Columbia river to the 'White Banks' below Priest's Rapids; thence westerly to a lake called "La Lac;" thence southerly to a point on the Yakima river called "Toh-mah-luke;" thence in a south-westerly direction to the Columbia river at the western extremity of the "Big Island," between the mouth of the Umatilla river and Butter creek—all which latter boundaries separate the above confederated tribes and bands from the Walla-walla, Cayuse and Umatilla tribes and bands of Indians—thence down the Columbia river to midway between the mouths of White Salmon and Wind rivers; thence along the divide between said rivers to the main ridge of the Cascade Mountains; and thence along said ridge to the place of beginning.

There is, however, reserved from the land above ceded, for the exclusive use and occupation of said confederated tribes and bands of Indians, the tract of land included within the following boundaries, to wit:

Commencing on the Yakima river at the mouth of the Attahnam river, thence westerly along said Attahnam river to the forks; thence along the southern tributary to the Cascade mountains; thence southerly along the main ridge of said mountains, passing south and east of Mt. Adams to the Spur whence flow the waters of the Kilkatat and Pisco rivers; thence along said divide to the divide separating the waters of the Satass river from those flowing into the Columbia river; thence along said divide to the main Yakima, eight miles below the mouth of the Satass river; and thence up the Yakima river to the place of beginning.

Also a tract of land not exceeding in quantity one township of six miles square, situated at the forks of the Pisquouse or Wenatshapam river, and known as the "Wenatshapam Fishery;" which said tract shall be surveyed and marked out whenever the President may direct.

By an express provision of the treaty, the country embraced in the cessions and not included in the reservation, is open to settlement, excepting that the Indians are secured in the possession of their buildings and improvements until removed to the reservation.

This notice is published for the information of the public, and the attention of citizens proposing to locate claims upon the ceded territory, is specially called to the above provision, and for further information they are requested to apply to sub-agent, A. J. Bolon.

Notice.
AT TREATIES concluded with the Nez Perce Tribe of Indians, and with the confederated tribes of the Walla-wallas, Cayuses, and Umatillas in the Walla-walla Valley at the Council Ground, there was ceded to the United States a tract of country having the following boundaries, viz:

By the Nez Perces, commencing at the source of the Woh-na-ne-she, or southern tributary of the Palouse river, thence down the river to the main Palouse; thence in a southerly direction to the Snake river at the mouth of the Tukannon river, thence up the Tukanon to its source in the Blue Mountains; thence southerly along the ridge of the Blue Mountains; thence to a point on Grand Ronde river, midway between the Grand Ronde and the mouth of the Woll-low-how river; thence along the divide between the waters of the Woll-low-how and Powder river; thence to the crossing of Snake river at the mouth of Powder river; thence to the Salmon river fifty miles above the place known as the "crossing of the Salmon river;" thence due North to the summit of Bitter Root Mountains; thence along the crest of the Bitter Root Mountains to the place of beginning.

By the Walla-wallas, Cayuses and Umatillas, the tract of land having the following boundaries, to wit:—

Commencing at the mouth of the Tukannon river, in Washington Territory, running thence up said river to its source; thence easterly along the summit of the Blue Mountains, and on the southern boundaries of the purchase made of the Nez Perce Indians, and easterly along that boundary to the western limits of the country claimed by the Shoshones or Snake Indians; thence southerly along that boundary (being the waters of Powder river) to the source of Powder river; thence to the head of Willow creek; thence down Willow creek to the Columbia river; thence up the channel of the Columbia river to the lower end of a large Island below the mouth of Umatilla river; thence northerly to a point on the Yakima river called Toh-nash-luke, thence to Se Lac; thence to the White Bank on the Columbia below Priest's Rapids; thence down the Columbia river to the junction of the C lumbia and Snake rivers; thence up the Snake river to the place of beginning. *Provided, however,* That so much of the country described above as is contained in the following boundaries shall be set apart as Indian Reservations for the Nez Perce Tribe, viz:

Commencing where the Moh-ha-na-she or southern tributary of the Palouse river flows from the spurs of the Bitter Root Mountains; thence down said tributaries to the mouth of Ti-na-par-up creek; thence southerly to the crossing of Snake river, ten miles below the mouth of the Alpowain river; thence to the source of the Alpowain river in the Blue Mountains; thence along the crest of the Blue Mountains; thence to the crossing of the Grand Ronde river, midway between the Grand Ronde and the mouth of the Woll-low-how river; thence along the divide between the waters of the Woll-low-how river and Powder river; thence to the crossing of Snake river, fifteen miles below the mouth of Powder river; thence to the Salmon river above the crossing; thence by the spurs of the Bitter Root Mountains to the place of beginning.

For the confederated tribes of Walla-wallas, Cayuses and Umatillas, viz—

Commencing in the middle of the channel of the Umatilla river, opposite the mouth of Wild Horse creek; thence up the middle of the channel of said creek to its source; thence southerly to a point in the Blue Mountains known as Lee's Encampment; thence in a line to the waters of Howtome creek; thence West to the divide of the Howtome and Birch creeks; thence northerly along said divide to a point due West of the South-west corner of William C. McKay's claim thence East along his line to the South-east corner; thence in a line to the place of beginning.

By an express provison of the Treaty, the country embraced in the cessions and not included in the Reservations is open to settlement, excepting that the Indians are secured in the possession of their buildings and implements till removed to the Reservations.

This notice is published for the benefit of the public.

The attention of the citizens proposing to locate claims upon the ceded Territory is especially called to the provisions protecting the Indians in the possession of their improvements—and for further information in reference to the Walla-walla, Cayuse and Umatilla Reservation, they are requested to apply to Agent, R. R. Thompson. To the Nez Perce Reservation, to Sub-Agent, W. H. Tappan.
