lous outsiders, however, apprehend danger to the German future from a dissolution of the Anglo-French alliance, and the not improbable coalition of Russia and France.

ENGLAND.—Parliament had assembled. The Queen's speech is quite meagre, and does not mention American affairs.

FRANCE.—Peace is looked upon as certain.

France and England do not slacken in their preparations for the continuance of the war.

THE CRIMEA.—The Russians continue to fire from the North forts. Prince Gortschakoff had handed over the command to Gen. Luders, and issued a new valedictory to the commanders in the Crimea. On the 9th of Jan. the Russians made an expedition over the ice to attack Kertsch, but Gen. Vivian being on the alert, they retired.

Kansas.

The nomination of Wilson Shannon as Governor of Kansas has been confirmed by the Senate, twelve Senators voting against the confirmation. He has been sent post haste to Kansas, with instructions to use all the means in his power to repress the disturbances there, and if necesary to call on the U. S. Troops to preserve order. There are about 1200 U. S. soldiers in that Territory to whom he can apply for aid.

The Lawrence correspondent of the St. Louis Democrat, under date of the 14th inst. says: "The Kickapoo Rangers threaten hostilities again at Easton saying that they will avenge Cook's death by killing the friends of the murdered Brown.—The Free State men are preparing for a conflict, but will only act on the defensive. Two mounted companies have left Lawrence for Easton, under command of Col. Dickey and Major Grover. A fight will probably occur."

Nicaragua.

Every thing was quiet in Nicaragua. An expedition was about to be organized and sent into Costa Rica, which latter State had refused to receive the Nicaraguan Minister.

Gen. Walker had about twelve hundred Americans under him, and more were arriving on every steamer.

The government of Nicaragua had attached the entire property of the Transit company, worth near a million of dollars, after having declared its charter forfeited. The government claims some $200,000 as due from the Company. A new charter has been granted to Edmund Randolph, and his associates.

On the 20th of January, whilst coming up on the river steamer, four miles below Castillo Rapids, Johnson Lyman, a notorious bully and leader of a gang of rowdies from the streets of New York, was shot and killed by Thos. BENTON CRAIG, a young Texan, belonging to the Rifle Battalion. The homicide was occasioned by a difficulty which originated on the *Star of the West* during the voyage from New York. No notice of the affair was taken by Gen. WALKER, he no doubt thinking it a cheap riddance of such a nuisance to the country.

☞ Apprehensions were felt in New York as to the safety of the steamer *Pacific* of the Collins line, which left Liverpool on the 23d January, and at latest dates had been out 34 days. She was reported to have put into the river Shannon, in Ireland, on account of the severity of the weather, but this was believed to have been unfounded.

Congressional Proceedings.

In the United States Senate, on the 20th Feb., the Central American question was debated by Messrs. Mason, Butler and Crittenden, and made the special order for Tuesday, 25th. Mr. Mason stated that all the maps of Central America now in use are of British origin, and that, in the present state of our relations with that region, it is important that a correct map be procured. Whereupon it was ordered that ten thousand copies of the map of Central America, prepared by the Coast Survey, be published for diffusion throughout the country. A bill was reported for the relief of the officers and soldiers who sustained loss by the wreck of the steamer *San Francisco*.

In the House, Mr. Mace, of Indiana, reported a bill to prevent the extension of slavery in the Territories north of 36 degrees 30 minutes. It created some sensation, but the subject was laid over, pending an appeal from a decision of the Speaker as to the regularity of its presentation. The House, on the 21st, after a farcical and somewhat protracted debate, elected Daniel Waldo to the chaplaincy. Mr. Waldo is of New York city, and is now in the 94th year of his age. He was a soldier in the Revolutionary War, and has served under the Banner of the Cross as a clergyman of the Congregational Church for more than 70 years.

☞ Among the recent files of English papers are some interesting statistics relative to the agriculture of England and France, from which it appears that in England, out of 50,000,000 acres cultivated, 10,000,000 are sown with wheat or other cereals; while in France 50,000,000 are cultivated for the latter purpose. The average growth of wheat per acre in England is four quarters or thirty-two bushels; in France one and three-fifths or nearly thirteen bushels. The produce of English land is about £3 4s; that of France about £1 12s per acre. The number of sheep is about the same in both countries, viz.—35,000,000, and the wool produced 60,000 tons; but owing to the difference in the average, there is something less than one and a half sheep per acre in England, and only about one-third of a sheep per acre in France. In France 4,000,000 of cattle are slaughtered annually, the average weight being 250 pounds; in England there is not that number slaughtered, but their average weight is about 600 pounds.

The produce of cotton appears to be rapidly increasing in India. The ship Com. Perry has lately arrived at Liverpool with the largest cargo (2,770 tons) ever shipped at Bombay for England. It included 8,321 bales of cotton, 1,076 bales of wool, 396 bales of hemp, 3,771 bags of seeds, and above 2,000 bales and bags of various articles used in tanning, dyeing, &c.; also 500 bags of saltpetre.

Farmers, Read This!

The advocates of a State Convention say the rate of taxation will not be increased, because real estate is to be taxed, and as so much more property will be assessed, the present rates will continue. In other words, more money of course must be raised, but as it comes from the farmers and claim-holders, who are least of all able to pay it, the owners of personal property will not feel it.

Now if the farmers of Oregon are willing to pay from 20 to 100 cents an acre increased taxes on their lands for the sake of a State government, it is their own business, but it will not suit

"ONE OF THEM."

Domestic Receipts.

TO MAKE BRILLIANT WHITEWASH.—Take clean lumps of well burnt lime, (say 5 or 6 quarts,) slack the same with hot water in a tub, (covered to keep in the steam) pass it in the fluid form through a fine sieve, add ¼ lb. of whiting or burnt alum, pulverized; one pound of good sugar: three pints of rice flour made into a thin and well boiled paste and one pound of clean glue, dissolved by first soaking it well and then putting it into a small kettle which should then be placed into a larger one filled with water and placed over a slow fire. Add five gallons of water to the whole mixture.—Apply with a painters brush. If put on the outside of a building, apply when warm, otherwise cold—one pint to the square yard. Coloring matter, such as Prussian-blue, red or yellow ochre, may be added to give any required shade.

TO MAKE TOMATO FIGS.—Take six lbs. sugar to 16 lbs fruit; scald and peal the fruit—cook over a slow fire (their own juice being sufficient without water) until the sugar penetrates and they are clarified; take out, spread on dishes flatten, and dry in the sun. Sprinkle a little syrup over them occasionally whilst drying, (concentrate the syrup, bottle for use) afterwards pack down in boxes, treating each layer with sugar. The pear shaped fruit is preferred.

TO PRESERVE EGGS.—Take one bushel of quick lime, 32 ounces of salt, 8 ounces cream of tartar, mix the same together with as much water as will reduce the same to that consistency, that an egg when put into it will swim.

TO MAKE CANDLES.—Steep the wicks in lime water and saltpetre, and dry them—The flame will be clear, and the tallow will not run.

Ferrin Hil, March 10, 1856.

"Skool Boy" has produced a satisfactory solution of the problem, provided the data furnished by the "organ" be correct. This of course cannot be, unless it has told the truth once through mistake. If it has 1200 subscribers in Oregon, Dr. Czapkay will probably have 900 "applications" in the next six months.

THE CALIFORNIA DESERT.—The great desert which lies beyond the Colorado, river in California, is a serious obstacle to travelers journeying by the overland route to California. The trail is strewed with the white bones of cattle and horses who have perished of thirst by the wayside.—The Secretary of War, in his report, states the interesting fact that the recent surveys prove this desert to be much lower than the Colorado river, so that by means of a judicious system of canals, the whole of the large tract might, in all probability, be converted from a dreary waste into a fertile and productive tract of country.—*Portfolio.*

SALTNESS OF THE MEDITERRANEAN.—The waters of the Mediterranean contain more salt than those of any other large open sea. They are sixteen times as salt as those of the Black Sea of Azoff. Being salter they are consequently more buoyant, and this is the reason that a vessel leaving Toulon or Marseilles for Sebastopol is obliged to take a less cargo than one which only goes to Constantinople. The Mediteranean sea is twice as salt as the Atlantic, and five times as salt as the Caspian. The water of the dead sea, and the Great Salt Lake of Utah, however, contains more salt than those of any other large seas.

SHIPMENT OF SPECIE.—A statement just issued by Mr. James Low, shows the shipments of specie from Great Britain to the East during the present year to have ammounted to the aggregate of £7,358,161—the proportions being £948,272 gold, £6,409,889 silver. This total is larger than on any former occasion—the heaviest amount in any previous year having been in 1853, when it was £5,593,867. Nearly the whole has been absorbed by the Indian and Chinese drain, which has now continued with little interruption for five years. The total shipments from 1851 to 1855 inclusive, have amounted to £22,625,687, or an average of £4,525,090 per annum. In addition to the sum sent from England during the past year, £1,767,470 have been dispatched from the Mediterranean ports.

Farm for Sale.

A FARM of 640 acres of land in Yamhill county, six miles west of Lafayette, is offered for sale. There are 80 acres in cultivation, and 150 acres in pasture—an orchard of 50 bearing apple trees. The place is well watered and timbered, and has two wells of excellent water, good buildings and out-houses. The land is as good as there is in Oregon or the world, and its location makes it as good a stock farm as there is in the Territory. Farming utensils and stock will be sold with the place, if desired. The claim is well stocked with cattle, horses, and hogs, and can be had on reasonable terms.

Sebastopol has Fallen!

AND CHARMAN & WARNER wish to inform the citizens of Oregon City and the public in general that they have just received a good assortment of *GROCERIES* suitable for this season of the year. Also, we have received a supply of fancy groceries, such as *Farina, Sugar Tapioca, Arrow Root*, and a variety of other such articles too numerous to mention.

We have a good assortment of *FANCY GOODS* for the holidays, such as raisins, dates, figs, bottled pie fruits, raspberry preserves, and a variety of other articles in this line, such as will suit the greatest epicure of the land. We have also on hand a good assortment of candies, and are receiving a supply nearly every steamer. So please give us a call; we will sell as cheap as any house in Oregon. Our motto is that a quick penny is better than a slow shilling.

We are now commencing to prepare in the Bakery for Christmas, and shall have a good assortment of cake. We shall also keep on hand a superior quality of butter crackers, Boston crackers, and also the sweet York crackers. Please give orders for the above in good time. Our prices shall be reasonable, and the goods made of the best materials in Oregon. nov24

Who Wants a Good Saddle?

THE subscriber, living five miles south-west of Lafayette, in Yamhill county, is now carrying on the business of Saddle Making in good earnest. He keeps constantly on hand the best saddles that can be manufactured with the materials at command in Oregon. Those wishing a genuine saddle warranted to fit on both sides, and rigged out in complete style, cheap for cash, or good trade would do well to give me a call. My shop is situated on Bakers Creek near where the road crosses it leading from Portland and Oregon City, "up country" by the way of Smith's bridge on the North Fork of Yamhill.

☞ I keep every thing in the saddlery line, as Bridles, Martingales, Halters, Lines, &c., &c.

Sept. 20-23tf. J. O. HENDERSON.
