Thirty Indians Killed!

An express reached here just before going to press, which brings important news from Rogue River. Gen. Lamerick during his late expedition to the Mendows, surprised and surrounded a party of about 300 Indians on Rogue River. One hundred of them were warriors, and the rest women and children. The whites numbered 250 men. About thirty Indian were killed. They fought for several hours, but finally gave way. One of the volunteers, Mr. Mercer, was wounded, (probably) mortall. Mr. Mc Harkness, Twogood's partner, was killed whilst carrying an express to Lamerick. The volunteers captured ten or twelve horses. The last heard from there, Lamerick was preparing to follow the Indians.

Terrible Riot. NEW YORK, March 6. South Carolina papers contain details of the recent terrible riot at Columbia College, on the night of the 17th ult. A party of students who had a grudge against the Chief of Police made a murderous assault opon him on the street, badly injuring him. One of the students had his skull split open-The chief was conveyed by some of his friends to the guard-house, upon which an attack was soon made by some 150 students, armed with knives, clubs, and pistols.-The chief was again badly beaten and stabhed, and was then thrown out of the second story window. The alarm bell was rung, and the citizens came together, when another conflict ensued. Six military companies were ordered out, and were after wards stationed as guards around the guardhouse and jail. One of the students has since died, and others are not expected to live. Bedell, the chief, is said also to be dead. The excitement was kept up till the 21st, when the students were still threatening revenge, and, being very active in procuring arms and ammunition, the Governor went to the college, and demanded their arms, threatening to fire upon them if they refused to deliver them up.-

Another account says : "The scene presented was such as Columbia never before sented was such as Columbia never before saw. Two hundred armed citizens, with guns loaded with ball catridges, opposed to more than one hundred entaged young men with rifles in their hands. The order was with rifles in their hands. The order was then to take min, and a fire would have given to take nim, and a fire would have

Scoutings

One of the most dangerous and hazardous feats in the war has come to our notice, although occurring some time ago. A few days after the last battle at White river, Dr. Geo. Suckley, U.S. A., battle at White river, Dr. Geo. Suckley, U.S. A., asked permission of Col. Casey, (then at Muckleshot.) to take about ten men and go on a scout in search of the Indian camp, which he thought could not be far off. The permission being granted, he took seven soldiers, Mr. Reilly, (former resident on Muskleshoot.) Y-a-mock. (Indian goide.) and also an Indian named Charley; Lieut. Fleming, 9th Infantry, volunteering to accompany them. The party scouted through the whole country between Muckleshot and Porter's, and arriving an the edge of Parter's, discovered the Indian camp close by of Porter's, discovered the Indian camp close by consisting of a large block-house, or structure of ogs, erected by the Indians, of eight or ten feet logs, erected by the indians, of eight or len ten-high, open at the top, and also about thirty lodges, containing in all, probably, 200 indians. After leisurely taking their observations, they prepared to return, but just at this time they saw two Indians advancing on horseback, whom they determined to take prisoners, but who became alarmed at a slight noise mised by the soldiers and returned.—
They now discovered their Indian, Charley, had run away from them and gone to the hostiles. It was miraculous that they succeeded in regaining camp, being seven miles distant, and in near prox-imity to so large a body of Indians, who knew their smalness of number. This camp was visited next morning by Col. Casey's command, but the Indianshad fled to the swamps, having been informed that they would be attacked by a "big gou" (howitzer,) through the treachery of the Indian.—Puget Sound Courier, April 25.

PEOPLE LEAVING THE TERRITORY.-Scarcely resell leaves our waters, but that carries away a large number of passengers, who are bidding a farewell to the territory. Families, in paricular, seem to have this mania to get away. The disastrous state of affairs throughout the country, is the only reason we can give to account for it; and without good assistance is received from Uncle San, by appropriations. appropriations, &c., and the war still continues, the population of the Territory will be exceedingly small

within the last few days, three vessels have left the lower part of the Sound, with forty-five persons the brig Merchantman having fifteen; the bark Madonna eighteen; and the brig Consort with twelve.—Puget Sound Courier, April 25.

Rumored Break up of the Conference-

It is deemed not improbable that the result of this new move of artful diplomatists of Russia may be the immediate breaking up of the confer-ence. A very grave hitch in the conference has

ence. A very grave hitch in the conference has already occurred.

Though the fifth point is the last of all, it had been agreed to take it np first. It was, accordingly, on the second meeting of the conference submitted for the consideration of the plenipotentiaries. No sooner had it been formally laid on the table than Count Orloff and Baron Brunow took objections to its being taken in to consideration, with a size to it being decided by the conference.

view to its being decided by the conference.

They proposed that it should be referred to congress of the representatives of all the crowned heads in Europe. If so referred, they piedge them-selves in the name of the Czar to abide by whatever decision that congress might come to.

This new and unexpected phase in the eastern

question had produced consternation in Paris and caused a further decline in the French funds. It has also no less surprised and alarmed our government. We were informed last night that Lord Cowley is expected in London to take the in structions of his government on the subject .- Lon don Morning Advertiser.

IMPORTANT TO PERSONS HAVING CORRESPOND-ENTS IN THE PACIFIC REGION.—Under the authority of Congress, the Post Office Department had iy of Congress, the Post Office Department had adopted, as an auxiliary to its operation, a plan of publishing the names of persons to whom letters have been sent to post offices in California and the Territores of Oregon and Washington. By this a letter can be sent to any post office in the Pacific region for a person whose location is utterly unknown beyond the mere fact that he is some where in California or the Territores of Oregon and Washington, yet, incredible as it may seem the Washington; yet, incredible as it may seem, the ultimate reception of the left or by the person for whom it is intended is rendered highly probable.

The necessary circular is being prepared, which, when completed, publicity will be given to the system by the Pear Office Diverting it. to enable tem by the Pest Office Department, to enable these who may be so disposed to avail themselves of its advantages. - Washington Union, Feb. 28.

The bill introduced in the United States Senate on the 6th of March, to provide for the con-struction of a railroad and a telegraph from the M seissippi River to the Pacific Occ construction thereof to Samuel Braman, C. K. Garrison, John C. Fall, Robert M.Cabe, George Read Riddle, Sidney S. Baxter, Alexander R. Boteler, Wm. Schouler, George Greece—and their associates.

ENGLISH FEELING AGAINST THE UNITED STATES -M. Gaille aber, the intelligent Paris correspondent of the New York Courrier des Etats Unis, says in a letter recently published in that journal: "It may be said with truth, that John Bull would take real pleasure in giving presumptu-ous Brether Jonathan a rough shake, if Mr. Bull did not stand so much in need of him! The desire for reageance yields to considerations of interest.— This desire breaks forth from time to time in journuls the most conservative.

DISCOVERY OF YET ANOTHER PLANET.-Only a month ago, we learn that M. Chacornac, at Paris, on the 12th of January, discovered a planet, the 38th between Mars and Jupiter, but yesterday the 38th between Mars and Jupiter, but yesterday the Director of the Observatory at Cambridge tecevised a circular letter from the celebrated Le Verner, in which the discovery of the 39th, on the 8th ult., was announced. In brilliancy it equals a star of the 8th or 9th magnitude. The 38th planet discovered by M. Chacorusc on the 12th of January, will bear the name of Leda.—Boston Traveler.

Domestic Receipts.

WHITEWASH FOR OUTHOUSES AND FENC-ES .- Take a clean barrel that will hold water. Put into it half a bushel of quicklime, and slack it by pouring over it boiling wa-ter sufficient to cover it four or five inches deep, and stirring it until slacked. When quite slacked dissolve it in water, and add two pounds of sulphate of zinc, which may be had at any of the druggists, and of common salt, and which in a few days will cause the whitewash to harden on the wood-work. Add sufficient water to bring it to the consistency of thick white-wash.

To make the above wash of a pleasant cream color, add 3 lbs. of yellow ochre. For fawn color, add four pounds umber, one pound Indian red; and one pound lamp-

For gray or stone color, add 4 lbs raw umber, and 2 lbs. jampblack.

The color must be put on with a common whitewash brush, and will be found much more durable than common white-

CUCUMBERS .- Who ever heard of cooking cucumbers, we hear our readers ex-claim. Try it; and then tell your neighbor how well a poor man may live in this country. Take the cucumber just as it begins to turn yellow, peel and slice it into salt water; drop it into cold water and boil until tender. Season with pepper-mix The students finally yielded, and quiet was with butter and fry. Few can tell it from

egg plant. Beers.-No knife should ever touch a beet previous to boiling. Rub the leaves

thrown themselves between, and called on them in old water, for the ease with which the college. Some of the students were vor. When taken from the pot, jet them drain, then poel and slice, butter, pepper and salt them, or pour good vinegar over them, which many prefer.

Coldslaw .- Cut a hard white head of cabbage in two, shave one half as fine as possible, and put it into a stewpan, with a bit of butter the size of an egg, one small teaspoonful of salt, and nearly as much pepper; add to it a wine glass of vinegar cover the stewpan, and set it over a gentle heat for five minutes; shake the stewpan about ; when heated through turn it into a dish, and serve as a salad.

FRENCH ROLLS FOR BREAKFAST .- One pint of flour, whites of three eggs, tablespoonful of butter, 2 large spoonfuls of fresh yeast : milk enough to make it a stiff dough. Let it rise over night.

NORTHERN PACIFIC RAILROAD COMPANY. in the Wisconsin Senace, on the 6th of March, a bill was introduced chartering the Northern Pacific Railroad Company. The Commissioners named are thirty-two in number; among them, A.W. Bull, Esq., of Michigan. The capital is to be \$100,000,-000, with power to increase to \$150,000,-000; and the route, from the head of Lake Superior to Puget's Sound, with branch to Columbia River.

DIFFUSION OF KNOWLEDGE .- A letter from Washington states that our government has sent the pamphlet containing the Crampton correspondence to each member of the British House of Lords and Commons -Boston Courier, March 7th.

Penions of Human Life .- M. Flourens says, that, according to Nature, the first youth is from twenty to thirty; the second youth from thirty to fury. The first manhood is from forty to fifty-five; the second manhood is from fifty-five to seventy, the second manhood is from fifty-five to seventy. The first period of old age is from seventy to eightythe the second from eighty-five onwards. The natural life of man, he philosophically proves, ought to carry him on till his hundredth year.— These periods, says M. Flourens, all shade insensibly into each other. They vary in length, also, in different individuals, and most men, now-a-days, become old and die while they ought still to have been in the period of early manhood.

WHEREAS, it has pleased Almighty God, saddenly to summon our Brother, JAMES Sinclair, a member of Multnomah Lodge, No. 1, F. & A. M., from the active scenes and associations of this mortal life, to the Lodge Eternal :

Resolved That we deeply, and sincerely lament that dispensation of Divine Providence, which, in the twinkling of an eye, has called away in the midst of his years and usefulness, one whose virtues as a man, whose benevolence as a friend, whose kindness as a husband and father, and whose excellence in all the qualities that make a true Mason, justly entitled him to our fraternal esteem and love.

Resolved, That we tender our earnest sympathies to those who were especially near and dear to him, now bereft of a husbind and a father, by the hands of a merciless and savage foe, and while we commend them to the God of the widow and the father of the orphan, we will not be unmindful of our duty to them as the objects

Died, at the residence of her won-in-law, Wm. McCaw, in Linn county, Oregon, April 16th, Mrs. JENNET FINDLEY, in the seventy-fifth year of her JENNET FINDLEY, in the seventy-fifth year of her age. The deceased was born in Westmoreland county, Penn., and about the age of 16 she mude public profession of the Christian faith, and has, honorbly to herself and the great cause, sustained that profession for the period of fifty-nine years.—And having thus sustained the honor of her Savior during her life, He did not forsake her in the hour of need; but during the protracted and painful sickness which closed her mortal career, He comforted her soul with strong faith and joyous hopes. Her end was treace.

Her end was peace.

Mrs. Findley left a numerous family of her descendants in Oregon. Eight of her descendants in this Territory preceded her to the grave, and some fifty-seven still survive, besides others who recide elsewhere. She had the singular felicity to expeelsewhere. She had the singular felicity to experience the reality of the promise, "to you and to your seed," in a remarkable degree. Out of the fifty-seven members of her family residing in this Territory, who have arrived at suitable age, only some half dozen have failed to become professors of the Christian faith, by connecting themselves with some branch of the church of God.

She cherished to her last moments an ardent concern for the pearse and prosperity of the church and a warm and steadfast attachment to her minister. She is gone, but her influence will be felt for
