The necessity believed that animal life existed in the blood. It is at least certain that

HEALTH DEPENDS

Upon the guart of that fluid. If the skin is in an un natural state, as in Secolula, Leproey, and all Ulcerou Diseases, it is evident that the vessels which ramify over surface of the body must be charged with disease blood; and if so, the whole volume of blood, venous an arterial, is imports. Before a cure can be effected three must be a partification of the vital stream. The great of ject, therefore, is to ascertain what remedies will set most irrectly apon the constituents of the blood when in the set of combination.
