MINNESOTA .- The delegates elected to the Convention for forming a Constitution for Minnesota, met at the capital of that Territory, on the 14th of July. The Democrats and Republicans formed separate conventions, and set about drafting suparate constitutions. The Democrats are in the minerity, but they question the regularity of some of the proceedings of the Republicans and hence the split.

GOV. MARCY IN A PRINTING OFFICE. Just two weeks before the death of Gov. Marcy, he was in the Rochester Union office, and visited the press room of the establishment. This was the first time be said, that he had ever seen a printing press at work! The Union observes; "When we consider that he had, from his youth up, been accustomed to write for the political press, and had always been more or less associated with the printing office, this circumstance seems very singular."

By this means, mathematicions have calculated at what depth solid rocks would be molted by the temperature. Some reckon it at thirty miles, some at fifty or sixty at the highest-or, perhaps a hundred miles. Upon boring down several thousand feet, warm water gushes up, and in some places the heat of the interior of the earth is used for heating houses and even large establishments. Earthquakes and volcanoes are also thought to show not only that the interior of the earth is liquid, but that the material is molton rock.

A YANKEE'S AUDRESS TO THE EXPECT-ED COMET .-- A correspondent of the Connersville Times thus addresses the Comet just before his expected advent last June : "What's he got against us? What have we done that he should directly or indirectly, in his Wandering Jew style of perambulating, trespass on our premises, and frighten Mr. Buchanan's people out of their senses? Why can't he pitch into one of his own size-say a North river steamboat, or lash his clongated fiery narrative against the seven wonders of the world and let us alone ! Mr. Comet, what is the use of acting in this way? Go along about your business! We are not ready to go yet, and if we were, we are not so absent minded as to forget to ask Gabriel to blow his horn. You know there's plenty of other planets. What are you foolin' round here for! Go to the Arctic regions and melt things, that Yankee enterprise may find Sir John without losing the 'pride of his soil.' Go to Jupiter-go home-go to l you old insinuating, good for nothing, dilatory, slothful, negligent, elongated, astronomical, out-of-the-way, municipal wanderer! Where's your eyes? Can't you see us? Do you want to run over a body? Now, Mr. Comet-don't!"
