THE BIRLE .- Dr. Hall, in his Journal of Health, for May, speaking of the importance of inhabiting houses in their structure and situation favorable to health, refors as follows to the Bible :-

"There is more sound, practical hygiene, on this subject of healthy houses, in the the hydraulic measure, because, next to hydramfourteenth chapter of Leviticus, from verse eters, he considers it the most effections":thirty-four, than in all the skulls of all the Knickerbacker.] bealth commissioners and common councils of all the cities of Christendom. Pivy it is that we do not read our Hible more, that great book which contains the leading principles of what is indisputably good, and useful, and true, in all that really pertains to human happiness; and pity it is that the Sunday newspaper, and the trashy weekly, and the enticing story book, for childhood and heavy age, on subjects pertaining to the world, and party preaching, and infidel peripatetic lectures, with their new-fangled crudities for human amelioration, and their theories for elevating the masses; pity it is, we say, that all these things so attract attention. The Bible, the best book of all, the wisest in all its theories, and in all its practices safe, has become a sealed book to the many, and any other volume on the center or side table is opened sooner than it."

ANTIMONY AND ITS ALLOYS .- This metal is white and brilliant, and is principally used in the arts for making printer's type. Three paris of lead and one of antimony is a good composition of type metal .-Sometimes a small quantity of tin is added, which, while it hardens the alloy, also makes it brittle, so does a small quantity of copper. When copper is mixed with antimony in excess it forms a regulus of a beautiful violet color, which by the old alchemists was denominated regulus of Venus. An amalgum of equal parts of antimony and lead, and the addition of 17 per cent. mercury can be rolled out into sheets rand used for sheating vessels. A mixture Just then, by a fortunite turn in his afaire, of 7 parts of antimony and 3 of iron, heat- He ceazed into his mouth the careless tale ed to whiteness in a crucible line with char.

He, finding that he tale was fast, squeecd

Terrible, while they rouled all over the iland. slightly magnetic, and gives off sparks when filed. The tarter emetic of pharmacy is formed of the tartrate of potash and the oxyes of antimony.

ANOTHER NEW IDEA .- The marvels of scionce are constantly multiplying. Heretofore the silkworms, after being carefully fed upon the leaves of the " morus multicaulis," or Chinese mulberry, have been tenderly nursed until they manufactured by digestion the choice material. But science has just taught us that we can chemically digest the mulberry leaf without the worm's assistance, and produce by the manipulations of art; and in increased quantities, the desired fabrie. This-if unexaggerated, says the Albany Knickerbocker-is one of the most important discoveries of the age, and leads us to believe the time will yet come that a cobbler can be so planted when he dies and a tree shall apring from his remains, bearing ready made boots on one limb and ladies' gaiters on the other.

Er Ladies, the following is said to be a certain process for cleaning silk; Pare and slice thin three washing Irish potatoes; miles an hour. He died in 1848, aged 67. pour on them a half pint of boiling water. and add an equal quantity of pure alchohol. Sponge the silk on the right side, and when half dry, iron on the wrong side .-The lightest colored silk may be cleansed eyes occasion-eyes that have become and brightened by this process, also cloth, scaled over with that leaden scal which velvet, or crape.

VERNONT .- Vermont is a model State, one among thirty-one, and very levely .-One of its Papers says of it :

There is but one city in this State, and not a soldier. We have no police; and not a murder has been committed in this State within the last ten years. We have no museums or crystal palaces; but we have homes, genuine homes, for which the father works, votes and talks-where the mother controls, educates, labors, and loveswhere she rears men, scholars and patriots.

65 Since the accecession of Alexander to the throne of Russin, and the termination of the Eastern war, a modification has been observed in the sentiments of Polish emigration in Paris toward the Russian Government, Many Poles, who played a part in the revolution of 1830, have accepted the terms of conciliation and rehabilitation offered by the Czar, and have left for St. Petersburg. Many of the leading families, however, and among them the Czartoryskis and Ponintowskis, refuse to accept the terms offered, and will undoubtedly, remain in France. But these are families who represent a principle, who represent all that remains of Polish royalty, and whose acceptation of Russian citizenship would be too serious a compromise.

NEWSPAPERS-P. O. DECISION .- The Postmaster General has recently decided that bona fide subscribers to weekly newspapers can receive the same free of postage if they reside in the county in which the paper is printed and published, even if the office to which the paper is sent is without the county, provided it is the office at which they receive their mail matter.

OF This is the way they go to law in Turkey. It's primitive and brief. Only two witnesses are allowed to testify. If they cannot establish the case, the judge orders it out of court. No lawyers are allowed to open their heads. The sentence is made known at the time by the Cadi .-The costs are paid by the party that gains the suit. If that was the way we did things here, -well wouldn't things go on about as smoothly as they do now? We only ask for information, you know.

OF A Minister once took the occasion to puff a doctor in a prayer at a funeral, thus wise: - 'And in thins infinite providence, ch! Lord, not all the care and skill. ful attention of her learned and experienced physician has been able to save our sister I are on a temperance mission! He lec-

[It must have been sheer easy on the part of Mr. C. Conkin Neppins that excluded the factorying stirring "pome" from the columns of "The Quog Litery Gem." We take an early occasion to do justice to the talents of the author, K. N. Pepper, Esq., who writes us that he " has chose

"BUAJECE : A COLLUSION BETWEEN A ALEGAITES STAIR : DETH OF THE ALEGAITES. There is an ilaud on a river lying, Which runs into Gautimaly, a warm country Lyng near the Tropicks; covered with sand; Hear and their a symptom of a Wiow, Hanging of its unite ragious line & branches Over the clear streme meandering far below. This was the Home of the now a lent Alegalter, When not in his other element confine'd: When not is in some remains at Hear he would set upon his egs as eep With I eye observant of the and other pasing Objecks; a while it kept a going on so; Fercles of dainger was the hopy Alegaiter! Wake! that dreme of Blis was too sweet for him I morning the son arose with unusocal spender, Which also did our Alegaiter, coming from th

water, His scale a-flinging of the rais of the son back To the fountain head which the originally spring But having had nothing to eat for some to Was slepy, and gaped, in a short time, widely, Unfoulding soon a weith of perl-white teeth. The rais of the son soon shet his sinister ey Because of there mutood spender and warmpth. The Evil Our (which I sed) was now come; idently a good chans for a water-Sna Of the large Specie, whiteh soon apeared Into the horison, near the bank where repose'd Calmly in slepe the Alegaiter before spoken of. About 60 foot was his Length (not the 'gaiter) And he was apectiently a well-proportioned S When he was all ushore he glared upon The iland with aproval, but was soon Astonished with the view and lost to wonder,

(from Wats)

It was a well-conduckted Afair: re noise Disturbed the harmony of the Seen, eccept Onct when a Wilow was simpled into by the realing Each of the combatence hadn't a mint for holering So the conflick was naterally fremenjuous! But soon, by grate fource, the tale was bit complete Ly of: but the eggertion was two much For his delicate Constituotion: he felt a compr Onto his chest, and generaly over his body When he cospres'd his brething, it was with grate Difficulty that he felt inspir'd again ener more. Of coarse this State must sufer a revoluction. So the Alegaster give but 1 yel, and egspire'd. The water-Snuik realed hisself off, & survey'd For say 10 minuts, the condition of His fo: then, wondering what made his tale hurt He sloty went off for to cool."

TOBACCO SMOKE AS A REMEDY .- The Louisiana Baptist recommends tobacco smoke as a highly valuable remedial agenin the treatment of flesh wounds, lockjaw etc, the smoke to be blown upon the affeeted part through a pipe-stem. Many persons are aware of the healing virtues of tobacco when applied moist to a wound.

CT A biography of George Stephenson "the father of the locomotive," in press in England. In 1825 people laughed when he said he could run his engine at the rate of ten miles an hour. In 1845 he saw hundreds run at a speed of fifty

05 Not all the pleasure that kind looks or that kind words give, or have given in life, can balance the pain that reproachful lifts not; how they pierce one by day time, and more dreadfully by nightthrough and through! Words slip and are forgotten; but looks, reproachful looks, frightened looks, make up all that is terrible in dreams.

OF There is as much wisdom in bear ing with other people's defects, as in being sensible of their good qualities; and we should make the follies of others rather a warning and an instruction to ourselves. than a subject of mirth and mockery of those that commit them.

65 A close analysis of the cause, manner, and instruments of our enjoyments. in this present world, is not always purticularly agreeable. Our most delicious and expensive perfumes are, notoriously, extracted from unutterable matiness-the bewiching music of Paganini is produced by scraping the tail of a horse upon the entrails of a cat-and pearls, so dearly bought, and highly valued, are the product of disease.

Successful Dog Training .- A hopeful youth, who was the owner of a young bull terrier, was one day training the animal in the art of being ferecious, and wanting some animated object to set the flog upon. his daddy. after considerable persuasion. consented to get down upon all fours and make fight with Mr. Bull. Young Amer ica began to urge on the dog--"sis-ter boy -- seize him," &c. ; at last the dog made "dip" and got a good hold upon the old man's proboseis, and get the dog off he couldnt. So be began to cry out with the pain caused by the fangs of the dog .-"Grin and bear it, old man!" shouted the young scapegrace. "Grin and bear it-

05 An English gentleman stepped up to give his testimony :- "There was a vast ewowd gittin' about him : hand one said the man was kill-d, hand another said the same; hand I hexclaimed, with a loud voice, . Hif the man is killed, why don't you stand back and give 'im a little hair ?' "

OF The very latest novelty in dress in Paris is crinoline sleeves. Now, then, stand off cutirely. It is said they are large enough to conceal a horse-laugh,

OF See here, my friend, are you drunk!" "To be sure I am, and have been for three years. You see, my brother and tures and I set a fright ful example !"
