To Oregonians in Bad Health.

Highly important to note the haggard, sallow, can decrous faces and wasted skeleton forms we meel. This is not confined in the old, but we see the young, able-hodied, and those in the prime of life, complain after being here some time of illness; some grow unnaturally fat suddenly; others waste and grow thin; they cannot localize or describe their disease, yet they feel universally unwell, mentally and physically; some have pains and weakness in the broad, limbs, or body; they feel a want of muscular and mental energy, a want of animation, and have fearful forebodings for the fature, poor appetite, nervous irritability, and sleeplessness; their skin is dry, and occasionally flushed and heated, thin, paliti, and yellow.

Now sudden deaths, biasey, and universal debility is too, too prevalent here; and who wonders, when combined with a climate like this, a dry ar impregnated with electricity and galvanism. We have many who have passed through sickness, whose life is intemperate and debauched, or have seen others who have been nearly doctored to death by quack mediciones, or by the advice of "The Faculty," who have impregnated them with mercury, calomed, &c.

For all such cases is Dr. Jacob W. bher's favigoral ag Cordial Sanguiñer m set especially adapted, inisanuch as the above cases and symptoms did Dr. Webber minutely study in adapting his cordial to their cure. It colivens the torpid liver, ejects all billious matter from the system, causes sudation, or free perspiration (so necessary to health), purifies and enriches the blood, gives strength to the limbs and body, and is positively infallible in all nervous diseases, trembling, or wakefulness.

There sever was a remidy which gave such delight to the sufferer as this. The Agont can, from his own knowledge of cures effected by it, consecutionally reconstructed it in any of the following continual reconstructed it in any of the following. To Oregonians in Bad Health.

HAVING formed a copartnership with Da.
HOPPLETON, recently from Ohio, we are
now prepared to practice medicine upon a more
extended scale than I have hitherto been able to
do. I am also largely increasing the circulation
of my medicines, and hope ere many months to
supply all the important points in the Territory.
