Mr. I. L. Allen, of Alabama, met with a singular and painful accident a shert time since. He wears, or rather did wear, a most luxuriant pair of whiskers, a foot or less in length. While running a sugar-mill, which was worked by steam, the whiskers on and under the left side of his face and neck, were caught in the machinery, and every hair of them torn out by the roots, leaving the skin as bare as the hand.

A STRONG CAPITALIST. - They had quite on extraordinary character in Melbourne, Australia, in the person of Mr. Gabrelli, a London Jew, who advances any amount of money required of him, half down, and half in sox months, at eight per cent per annum. The other day he advanced the corporation of that city a million of pounds, and a neighboring town another million, and after having announced that he is ready to do eight mi lious for the government, for the railroads, he offers to luvest a million here and a million there, in tasting the mines of the country. From where he received the money, is a secret, and the only answer he gives to those who endeavor to post themselves on the matter, is the production of the cash. He is a valuable member to have in a community.

PROPOSED RESTORATION OF CAPITAL PUNISHMENT IN Michigan .- The Detroit Advertiser says :-"The recent murders or homicides in this State have given rise to the belief amongst a large class of our citizens that the abolition of capital punishment has led to a rapid increase of that crime, and that its restoration is the only restraint that can be successfuly interposed to check the evil. Accordingly, petitions are in circulation in favor of the old system of blood for blood."

TWENTY-Eight Max STARVED TO DEATH.-The imme liste destruction of life and property was not HAVE on hand one of the largest and best selected stocks of the only result of the fearful explosion of the magazine at Hvanna, on 23th September. On 23d December, the bolies of twenty-eight men were dug from under the ruins, who had prob bly died from starvation, although there were soldiers enough in and around the city to have turned over every stone within a day after the occurrence of the actilent.

EUROPEAN NAVIES .- The various European powers are striving hard to increase their navies. The Prussia, Austria, and Russia, princes of the blood are at the head of the service. Austria spends \$2,400,000 this year on her squadrons, and for 1859 will increase the amount to \$4,000,000 .-Prussia is said to be about to ask the Legislature for \$2,500,000 for the navy. All know that Russian designs are not diminished in naval matters; and this time next year, it is said, France will possess forty screw line of battle sh ps.

A late Cincinnati paper says: "A farmer from Centralia, Illinois, was in this city yesterday, having in charge one hundred swarms of bees, confined in fif y small boxes, which he intends to take to California for speculation. The bees were all raised by him on his farm with the greatest care and ingenuity, and he expects to realize about one hundred dollars per swarm for them in Calif raia This is the first shipment of bees ever made from this country to this far distant State."

The Chester county (Pa.) Times says it is reported that Thaddens Stevens, after being assured of his election to Congress from the Lancaster district in spite of all the efforts of the President and dispatched the following message: "To His PATENT MEDICINES. to secure his defeat, went to the telegraph offi e Excellency, James Buchanan : I'm coming."

The earthquake at Lisbon, Nov. 11, man'fested itself in two distinct shocks, each lasting half fested itself in two distance server a minute. It was the most violent that has occurred since the quake of 1755, and kn cked the Lisson WARRANTS, GOOD WHEAT, and WOOL, and would be a server when the server were server when the server was a server was a server when the server was a server was a server was a server when the server was a s liar atructure of the buildings prevented the overthrow of anything but a wall, but in places about eight leagues from Lisbon great damage was done and many persons were killed. The earthquake was preceded by two days of ince sant rain.

We may asserts a vet the old Gree'an seeret of raising heavy bodies. A mechanic named David L. Miller has invented a machine embracing the three principles of the wedge, lever, and screw, with which a workman at the Necris Lecomotive works, Philadelphia, weighing 156 ponds, lifted with facility the enamous weight of 37,222 pour la-more than eighten tons—merely by the application of his strength, through his hands, to the lever.

CET The number of prisoners in the Illinois State Prison on December 1, was 642.
