

SCATTERATION.—We hear that on the arrival of the mail last Wednesday letters were received at the Register's office in this city from the Department at Washington, informing the occupant that no money would be paid for extra clerk hire, as one man was able to do all the business of the office. Upon this, the clerks who had been comfortably installed were permitted to go their way. When the Republicans are in power, they will appoint a man to office capable of attending to the business himself. Unless that is done, we shall not get our patents for the next eighty years.

DOUGLAS COUNTY.—A friend in writing from Roseburg, under date Jan 30, says: "Republican principles are beginning to occupy a prominent place in the minds of a large portion of the citizens of this county. Fifty copies of the N. Y. Tribune are taken at this post office, a fact which causes Deady, Martin, Mosher, & Co. to be affected with a presentiment that they are about to retire from the public crib, and the places they have disgraced are to be filled by more honest and competent men."

The New York Tribune says that Wm. L. Goggin, the opposition candidate for Governor in Virginia, is a man of character and ability, and bore a part in the national councils when Virginia was better represented there than she has been of late years. He served in the House of Representatives from 1839 to 1845, and from 1847 to 1849, when he was beaten by a small majority by his Democratic opponent.

It is stated in the Philadelphia Press that the Democratic candidate for Mayor of Lancaster, "the Home of Buchanan," was elected by carefully refusing to connect his name with that of Mr. Buchanan, as the opposite course would have insured his defeat by a heavy vote.

GOLD DUST FROM COVILVILLE.—On Monday several barrels from Coville Valley, arrived with their pack-trains for spring supplies. Antonio Plant, Joseph Roberts, Lafleur, and others, bring several hundred ounces of gold dust. They report more snow on the road than ever before, so late in the season. The Indians on the route are at present quiet, but the presence of a military force at Coville is needed to insure it for the future.—*Dallas Journal.*

MISSOURI.—The Missouri Legislature has under consideration a bill for the expulsion of free negroes from that State within a year, or the alternate of their clothing masters and remaining as slaves. Petitions are in circulation requesting the Legislature to prohibit the introduction of any more slaves into the State. There is also a strong emigration movement at work, and the conflicting parties seem to be struggling for the supremacy.

Whom Will You Nominate?
Mr. Editor: The time is near at hand when we will be expected to meet in convention in order to nominate our candidate for Congress. And now I would ask your readers if they have made up their minds to turn out, every man of them, to the convention, and also to the polls—and whom you intend to nominate? Now, my friends, I am inclined to think that the most of you will say, 'Well, I am a laboring man, and have but little time to spare for studying politics or attending conventions; and, as this is a backward spring, we will be hurried with our work; and, besides, there is likely to be enough politicians and office-seekers at the convention to do all that is necessary, and likely I shan't go—but if I do go, I will endeavor to select such persons for office as I think hold Republican principles and will be true to the party.' Now, I have never made any very great pretensions in political matters, or in anything else—but, as one that feels interested in the welfare of our Government, and especially of the producing class of the inhabitants (for I belong to that class), I would insist on their attending the conventions, and being careful to select competent persons who will serve the people, and not such as will make the people serve them. We have left these matters to politicians and office-seekers long enough. If the people want to rule, they must attend to the government, and see that they have faithful servants, or they will be ruled, and that rigorously.

But we come back to the question, whom will you nominate? You say a man that is qualified and of Republican principles, and one that will stick to the party.—The two first are indispensable for a good servant, but the third is highly objectionable. Herein lies the secret of the corruption of the Democratic party; they nominate men that would stick to the party, let it go where it would. Let me tell you that I was a Democrat long before I was a voter (but not a modern Democrat), and a voter a bitter pill I swallowed in sticking to the party. I thought, when I was but a boy, that I would be a politician,—and was well posted in the politics of the day, and understood the wire-working in politics, before I was a voter. And now let me advise you again to attend to your own business, and select men that will stick to Republican principles, if the party goes to the dogs, if the Democrats had done this, they never would have fallen, but their motto was to choose the most 'available' man that would 'stick to the party,' regardless of the interests of the people.—How often have I known men put into responsible offices simply because they had worked for the party, and would work for it, and be used as tools to swindle the people. But enough now; let's go to the convention, and nominate Republicans, and tell them to serve the people, and not the party.

He who gives a trifle meanly, is meaner than the trifle.

Clackamas Republican Convention.
There will be a meeting of the Republicans of Clackamas county at the Court-house on Saturday, April 9, at one o'clock P. M., for the purpose of choosing five delegates to represent this county in the general convention to be held in Salem April 31, as also to transact such other business as may come before the convention. All such citizens who have patriotic enough to love their country, respect the constitution, cling to the Union, desire a wholesome Government, who regard freedom as national and slavery as sectional, and who are opposed to the Administration and the Salem clique, are most respectfully invited to participate in the meeting. Let no lukewarmness deter any man from coming. The gathering should be of national rage, political fanaticism, disunionism, and sectional bankruptcy, evoked by the party falsely called Democratic, ought to stir up an enthusiasm in the breast of every patriot that will result in immediate and determined action. Come along, friends, and let us have a rousing convention.

The electors of Clatsop county, who are in favor of the great cardinal principles of the Republican party, the non-extension of slavery, as opposed to the great overshadowing dogma of the Democratic party—the universal extension of slavery, even against the severe will of the people, as exemplified in the decision of the Dred Scott case, and in the Lecompton Kansas policy of the present administration—are requested to meet in mass meeting at the Court House in Astoria, on Saturday, the 9th of April, 1859, at 1 o'clock P. M., for the purpose of electing a delegate to the Territorial Republican convention, to be held at Salem on Thursday the 21st day of April, 1859, for the purpose of nominating a delegate to Congress, and a Territorial Prison Inspector, to be elected at the ensuing June election. SALT.—The most extraordinary chemical discovery of modern times is the Antiphlogistic Salt. It acts upon the blood precisely in the same manner as the vaccine matter operates in the prevention of malignant diseases. It cures only diseases which are inflammatory in their nature. First, inflammation of the head and throat, such as brain fever, fits, headache, neuralgia, erysipelas, and catarrh. Second, cases of inflammation in the chest and abdomen, viz: inflamed lungs and liver, pleurisy, dyspepsia, asthina, gravel, piles, &c. Third, inflammation of the extremities and skin, to wit: rheumatism, serofula, ulcers, scurvy fever, venereal and cutaneous affections. This chemical combination is a powerful and instantaneous in its effects, that it does in one what will adhere to a quill dipped in the Salt and held to the tongue for one minute. The most astounding results have invariably followed its use in the Atlantic States, and thousands of testimonials as to its virtues can be furnished, if required. The proprietor asks not, however, for Faith, but is willing to let the Salt abide by its works, confident that it will never fail. It is put up in drachm packages, price Two Dollars, and will be forwarded by mail post paid, to any part of the country, upon receipt of that sum, addressed to REDINGTON & CO., San Francisco. Full directions accompany each package. As soon as a sufficient supply can be obtained, it will be sold by Druggists generally.—Sole Agents for California and Oregon, REDINGTON & CO., Wholesale Druggists, San Francisco. Dr. A. H. STEELE Agent for Oregon City.

Rheumatism.
In all cases of inflammatory Rheumatism, whether acute or chronic, the Antiphlogistic Salt, discovered by Dr. F. Cogswell, of Boston, is a sure and infallible remedy. In New England, where this disease is very prevalent, the Salt has been known from long in effecting a radical cure, and of giving permanent relief. Rheumatism is almost invariably caused by inflammation and colds, and the peculiar effect of this medicine, as its name (Anti-phlogistic or Anti-inflammatory) signifies, is to reduce inflammation, and balance the circulation of the blood, and the fluids of the body. It does not profess to be a grand panacea, but is calculated, however, for all diseases of an inflammatory nature, and is thus a perfect substitute for blood-letting in all its forms. It is for sale by all Druggists. General Agents, REDINGTON & CO., Wholesale Druggists, San Francisco.

Bronchitis, Asthma, Catarrh.
These diseases, and others of a similar character, caused by colds and inflammation, yield readily and certainly to the effects of the Antiphlogistic Salt. It is peculiarly beneficial in all diseases of this nature, as they are invariably caused by a tendency of blood to the head and throat, and the certain result of the use of this medicinal salt is to reduce inflammation and equalize the circulation of the fluids of the body. It is also remarkably efficacious in all inflammatory diseases of the chest and abdomen, such as Piles, Gravel, Venereal, Dyspepsia, Pleurisy, &c. No better evidence of the value of this medicine can be given than the fact that, although it has been used since it was first offered to the public, the discoverer has been able to answer but a small portion of his orders, and it is only within the last two months that it could be obtained at any price in this State. For sale by all Druggists. General Agents, REDINGTON & CO., Wholesale Druggists, San Francisco. Agent for Oregon City, Dr. A. H. STEELE.
