SALT ... The most extraordinary chemical dis-Salat. The most extraordinary chemical dis-covery of modern times is the Antiphlogistic Salt. It acts upon the blood precisely in the same manner as the vaccine matter operates in the pre-vention of malignant diseases. It cures only dis-eases which are inflammatory in their nature... First, inflammation of the head and throat, such as brain fever, fits, headache, neuralgia, erysipelar, and catarrh. Second, cases of inflammation in the chest and abdomen, viz.: inflamed langs and liver, pleaning, dynamisa, erysipelar, liver, pleurisy, dyspepsia, asthma, gravel, piles, &c. Third, inflammation of the extremities and skin, to wit; rhoumatism, scrofula, ulcers, scarlet fever, venercal and cutaneous affections. This there, veneral and curateous effections. This chemical combination is so powerful and instanta-neous in its effects, that the dose is only what will adhere to a quill dipped in the Salt and held to the tongue for one minute. This most astounding re-sults have invariably followed its use in the Atlantic States, and thousands of testim usias as to its virtues can be furnished, if required. The pro-prietor asks not, however, for Faith, but is willing to let the Salt abide by its works, confident that it will never fail. It is put up in drachm pickages, price Two Dollars, and will be forwarded by mail,

Rhonmatism.

In all cases of Inflammatory Rhoumatism, whether acute or chronic, the Antiphlogistic Salt, discovered by Dr. F. Coggewell, of Boston, is a sure and infallible result. In New England, where this disease is very prevalent, the Salt has never been known to fail in effecting a radicat cure, and of giving permanent relief. Rheuma-tism is almost invariably caused by inflammation and colds, and the peculiar effect of this medicine, and colds, and the peculiar effect of this medicine, as its name (Antiphlogistic or Anti-inflammatory) significs, is to reduce inflammation, and balance the circulation of the blood, and the fluids of the the circulation of the blood, and the finds of the body. It does not profess to be a grand panacea, but is calculated expressly for all diseases of an inflammatory nature, and is thus a perfect substi-tute for blood-letting in all its forms.
