Scientific American.
PROSPECTUS.
VOLUME FIFTEEN BEGINS
SEPT. 11, 1859.
MECHANICS, INVENTORS,
Manufacturers, and Farmers.
THE SCIENTIFIC AMERICAN has now reached its Fourteenth Year, and will enter upon a New Volume on the 11th of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as some might suppose from its title, a dry, abstract work on technical science; on the contrary, it so deals with the great events going on in the scientific, mechanical, and industrial worlds, as to please and instruct every one. If the mechanic or artisan wishes to know the best machine in use, or how to make any substance employed in his business—if the housewife wishes to get a recipe for making a good cake, &c.—if the inventor wishes to know what is going on in the way of improvements—if the manufacturer wishes to keep posted with the times, and to enjoy the best facilities in his business—if the man of leisure and study wishes to keep himself familiar with the progress made in the chemical laboratory, or in the construction of telegraphs, steamships, railroads, reapers, mowers, and a thousand other machines and appliances, both of peace and war—all these desiderata can be found in the SCIENTIFIC AMERICAN, and not elsewhere. They are here presented in a reliable and interesting form, adapted to the comprehension of minds unlearned in the higher branches of science and art.
TERMS:—One copy, one year, \$2; one copy, six months, \$1; five copies, six months, \$4; ten copies, six months, \$8; ten copies, twelve months, \$15; fifteen copies, twelve months, \$22; twenty copies, twelve months, \$28; in advance.

Lyon's Magnetic Powders, or Flea Powder,
Will destroy Garden Insects, Cockroaches, Bed Bugs, Fleas, Ants, Moths, and all pests of the vermin kind.
The importance of a reliable article of this kind is inestimable. In warm weather all nature teems with these annoying foes. This powder is the only article ever discovered which will exterminate them. A company of botanists, from the Horticultural Society of Paris, while amidst the ferns of Asia, observed that all insects lighting upon a certain kind of plant very soon dropped dead.—This fact was made use of to guard their night camps from these intruders. Quantities of the plant were brought home by Mr. E. Lyon, and found a positive insect destroyer in every experiment. It is simply a powdered leaf, chemically prepared to resist the effect of age and climate.—Medals and Letters Patent have been obtained from the governments of England, France, Germany and Russia, from the World's Fair, and numerous medical and horticultural colleges and societies.
Letter from the President of the United States.
"EXECUTIVE MANSION, WASHINGTON,)
31st Jan., 1853.)
Mr. E. Lyon.—Dear Sir: I have the pleasure to inform you that the Royal commission of the World's Fair, at London, have awarded you a Medal and Certificate for the great value of your Magnetic Powders, &c.
MILLARD FILLMORE, Ch'n."
The above was accompanied by a certificate of Prince Albert.
IT IS FREE FROM POISON.
New York, October 1, 1859

Emmanuel Lyon.—Dear Sir: We have analyzed and tested your Magnetic Powders, and find them perfectly harmless to mankind and domestic animals, but certain death when inhaled by bugs, ants and insects.
J. R. CHILTON, M. D., Chemist,
L. REIN, Prof. Chemistry, N. Y. Hospital.
Mr. John L. Rome, Superintendent of the N. Y. Hospital, says "he has expell'd all the bugs, ants, roaches, moths, &c., with Lyon's Powder, and finds it of immense value."
Every gardener and housekeeper must have a direct interest in an article of this kind. Reference can be made to the Astor, St. Nicholas, and Metropolitan Hotels; to Judge Meigs, President of the American Institute; James Gordon Bennett, Gen. Winfield Scott, Cyrus W. Field, L. M. Pease, of the Five Points Mission, &c., &c.—Judge Meigs says, "This discovery of Prof. Lyon is of national importance. The Farmers' Club have tested it thoroughly. It will destroy locusts, grasshoppers, ants, moths, bugs, and all vermin. Garden plants can be preserved, and houses made pure."
Rats and mice cannot be reached by a powder, and are killed by a Mausectic Pill. Order them through any merchant.
"But Lyon's Pills are mixed for rats and mice. Follow directions. Use freely and thoroughly."

SALT.—The most extraordinary chemical discovery of modern times is the Antiphlogistic Salt. It acts upon the blood precisely in the same manner as the vaccine matter operates in the prevention of malignant diseases. It cures only diseases which are inflammatory in their nature.—First, inflammation of the head and throat, such as brain fever, fits, headache, erysipelas, and catarrh. Second, cases of inflammation in the chest and abdomen, viz: inflamed lungs and liver, pleurisy, dyspepsia, asthma, gravel, piles, &c. Third, inflammation of the extremities and skin, viz: rheumatism, scrofula, ulcers, scurvy fever, venereal and cutaneous affections. This chemical combination is so powerful and instantaneous in its effects, that the dose is only what will adhere to a quill dipped in the Salt and held to the tongue for one minute. The most astounding results have invariably followed its use in the Atlantic States, and thousands of testimonials as to its virtues can be furnished, if required. The proprietor takes no, however, for Faith,
