SALT... The most extraordinary chemical dis-covery of modern times is the Antiphlogistic salt. It acts upon the blood precisely in the same

mauner as the vaccine matter operates in the pre-

vention of malignant diseases. It cures only dis-

as brain fever, fits, headache, neuralgia, erysipelas,

and catatrh. Second, cases of inflammation in the chest and ab lomen, viz.; inflamed langs and

liver, plenrisy, dyspepsia, asthma, gravel, piles, &c. Third, inflammation of the extremities and skin, to wit: rheumatism, scrofola, ulcers, scarlet

fover, venercal and cutapeous affections. This chemical combination is so powerful and instanta-

neous in its effects, that the dose is only what will a there to a quill dipped in the Salt and held to the tongue for one minute. The most astounding re-sults have invariably followed its use in the Athap-

tic States, and thou ands of testimonials as to its virtues can be furnished, if required. The pro-prietor asks not, however, for Faith, but is willing

to let the Salt abide by its works, confi leut that it will never fail. It is put up in drachin puckages, price Two Dollars, and will be forwarded by mail,

tism is almost invariably caused by inflammation and colds, and the peculiar effect of this medicine, as its name (Ant phlogistic or Anti-inflammatory) significs, is to reduce inflammation, and balance significs, is to reduce inframmation, and only the the circulation of the blood, and rhs fluids of the body. It does not profess to be a gran I panaces, but is calculated expressly for all diseases of an inflammatory nature, and is thus a perfect substi-tute for blood-letting in all its forms. Bronchitis, Astama, Catarra. These diseases, and others of a similar charas, ter, caused by colds and inflammation, yield readily and certainly to the effects of the Autiphlogis-tic Salt. It is peculiarly beneficial in all d seases of this nature, as they are invaribly clused by a tendency of blood to the heaad and throat, and the certain result of the use of this medical salt to reduce influmnation and equalize the circula-tion of the fluids of the bady. It is also remarkation of the fluids of the bady. It is also remarka-bly efficacious in all influmntory diseases of the chest and abdomen, such as Piles, Gravel, Vens-real, Dyspepsia, Pleurisy, &c. No better evidence of the value of this medicine can be given than the fact that, although it is now two years since it was first offered to the public, the discov-erer has been able to answer but a small pertion of his orders, and it is only within the last two months that it could be obtained at any price in Agents, that it could be obtained at any price in this State.
