PASSEL ACCIDENT.-On Thursday afternoon last, as the steamer Jennie Clark was ascending the Clackamas Rapids, a man was discovered by ing on the right bank of the river, near the water eige, and beckoning to the steamer, apparently in great distress. After getting above the Rapids, Capt. Myrick landed, and dispatched a boat back to learn what was the matter, when the man was found to be J. S. Rinearson, Esq., who, whilst epgared in getting some saw-legs down the bank, had been run over by one of the logs, which broke his right thigh, and otherwise seriously injured Mr. Rincarson was conveyed to the residence of his brother, half a mile off, and Drs. Barclas and Steele of this city sent for. He had been ly ing in the condition when found for more than an his sufferings part of the time being extremely painful, and but for his fortunate discovery by the Jennie Clark, might have lain there yet, as no one knew of his whereabouts.

ANOTHER RICHMOND IN THE FIELD - We understand that ex-Governor Weller, having been defeated in his Senatorial aspirations in California, is proposing to try his fortunes in Oregon. He will probably be here in the course of a month. It is lucky that California Locofoco politicians, when defeated at home, have a place to go to, where they can exercise their peculiar talents. They must remember, however, that we only occasionally send a California Democrat to Congress: most of them go to the Penitentiary. If Weller comes, there will be fun, as he will not take any back seat, but will at once jump over all such aspirants as Delusion, Curry, Dolf and Chapman, with as little ceremony as a Durham bull scatters a drove of year ling calves.

Overland Roden.-Mr. Fleming informs us that the Post-Office Department has instructed the Postmaster at San Francisco to send all letters for the Atlantic, by the GREAT OVERLAND ROUTE, by the way of Los Angeles, except such as may be endorsed to go via Panama. All newspaper matter will continue to go by steamer as heretof are.

DEFAULTER. -Z. N. Stansbury, Treasurer of Mulmomah county, on investigation, has been found to be a defaulter in the sum of \$6,000, and upwards. He has since left the country, sailing or the Panama on her last trip, as is supposed. The county will lose nothing, as Stansbury's sureties are fully able to make good the deficiency.

Last Ur.-On and after Monday next, the steamer Express will be laid up for two or three weeks, or until business improves.

It has long been a most important desiderature sim far to this, and accordingly we find it resorte to almost un versally in all those termenting dis-cases of the skin so trying to the patience, and in-jurious to the health. It is a tonic, aperieut, and disinfectant. It acts simultaneously upon the stomaco, the CERCHATION, and the sowets, and thus three processes, which are ordinarily the result of Tunks different kinds of medicine, are carried on at the same time through the instrumentalny of rais one remedial agent. Its great merit is that it meets and neutralizes the active princ pe of discase itself, and when that is gone, the symptoms necessarily disappear. The rastrength under this triple influence is surprising.

Messts, A. B. & D. Saxos, New York: Gentlemen,—In the spring of 1853, while on our way from Indiana to this place, our eldest boy was seized with a swelling and severe pains in the legs which day by day grew worse, until his legs con-tracted, and became so painful that he could not walk, and we had to carry him about like an in-fant. We reached Albany on the 3d of October. completely were out by fatigoe. By this time, he was reduced to a perfect sketcon. Here we were combled to consult a physician (Dr. Hill) who honestly confessed he could not cure him, al-though he could give him med cine that would reheve the pain. In this exigency something must be done, or death was inevitable. Being recom mended to try your Sarsaparilla, I procured a bot-tle. After taking some, he appeared worse; but persevering with it. I obtained a second bottle, which seemed to grapple with the disease, and caused a marked improvement: the swelling and pain in the legs were reduced, his appetite im-proved, and his color began to return. Thus encouraged. I purchased a third bottle; while takpeces of bone one eighth of an inch long came out, after which his legs straight ned and healed up. He is now perfectly recovered has no ap-pearance o being a cripple, and can perform
