Sands' Marsaparilla .-- This purely vegetable remety combines in itself the properties of an An-tiepte, a mild cathartic, and a touic. It quick-ly removes from the blood, and other fluids of the body, the imparities of unhealthy secretions which engender and feed disease, thus striking at the root of the malady. Although proved so effica cious it may be taken at all times with perfect safety, as it contains no powerful drastic drug to debilitate the system, or mineral poison to ruin the constitution

It has long been a most important desideratom in the practice of medicine, to obtain a remedy similar to t its, and accordingly we find it resorted to almost un versally in all those tormenting dis-saves of the skin so trying to the patienca, and into almost un versally in all the jurious to the health. It is a tonic, sperieut, and disinfectant. It acts simultaneously upon the stonacti, the cracristion, and the nowers, and thus three processes, which are ordinarily the re-sult of THERE different kinds of medicine, are car-

ried on at the same time through the instrumentaky of THIS ONE remedial agent. Its great merit is that it meets and neutralizes the active princ ple of discase itself, and when that is gone, the symptoms necessarily disappear. The ra-pidity with which the patient recovers health and strength mader this triple influence is surprising.

tlemen, -- In the spring of 18.3, while on our way from Indiana to this place, our eld st boy was seized with a swelling and severe pains in the legs which day by day grew worse, until his legs con tracted, and became so painful that he could not walk, and we had to carry him about like an infant. We reached Albany on the 3d of October, completely worn out by fatigoe. By this time, he was reduced to a perfect sketcton. Here we were chabled to consult a physician (Dr. Hill) who homestly confessed he could not sure him, al-

hough he could give him med cine that would rethough he could give him med chie that would re-heve the pain. In this exigency something must be done, or death was inevitable. Being recom-mended to try your Sarsaparilla, I preserved a bot-tie. After taking some, he appeared worse; hat persevering with it, I obtained a second bottle, which seemed to grapple with the disease, and canned a marked more somet, the same are rained a marked improvement; the swelling and pain in the legs were reduced, his appetite im-proved, and his color began to return. Thus en-couraged. I purchased a third bottle; while takthe swellings in his legs broke, and some pieces of bone one cighth of an inch long came out, after which his legs straight ned and heated up. He is now perfectly r covered has no ap-pearance o being a cripple, and can perform most kinds of common lator, as all our ne glibors can certife. Your researching.

Through the enormous success the Dr has had, especially in the treatment of the above discusses, he is enabled to promise a speedy and permanent cure, where medical skill can possibly effect a cure. Although the Dr. was always averse to advertising, he had at last to submit to the many requests of his numerous patients throughout the State, who consider it as justice to the suffering who can be benefited by his treatment and advice. Thousands of patients in California have been saved by his mode of treatment, and will certify its superiority to any other they have ever been treated by. The Dr. never uses mercurial or min-eral posons; he has more efficient substitutes of the vegetable kingdom. He will never expect pay where he does not effect a complete cure.
