It has long been a most important desiderature in the practice of medicine, to obtain a remedy similar to this, and accordingly we find it resorted to almost un versally in all these to menting dis-eases of the skin so trying to the patience, and in-jurious to the health. It is a tonic, sportent, and disinfectant. It arts simultaneously upon the erowach, the eracytarrow, and the sowers, and

thus three processes, which are ordinarily the re-sult of rungs different kinds of medicine, are car-

ried on at the same time through the instrumen-tality of ruts ove remedial agent. Its great

merit is that it meets and neutralizes the active principle of discase itself, and when that is gone,

the symptoms necessarily disappear. The ra-pidity with which the patient recovers health and

rength under this triple influence is surprising.
