MATTERS IN SYRIA.—Advices from Syria state that the Christians were leaving for the coast, to be under the protection of European vessels. 23,000 persons had already arrived at Dreistesayber. It was said that Abdel Kader had offered his services to Napoleon, for the suppression of the atrocities at Lebanon. If the French Government will place at his disposal 3,000 men, he engages to pacify the mountains in a very little time.

Paris, July 21.—Consular reports from Syria state that the massacres which had taken place are the result of a conspiracy of the Mussulmen. The report had been spread among the Druses that European diplomacy was about to drive away the Turks from Europe. The Druses determined on exterminating the Christians in Syria.

SICILY.—The Palermo correspondence of the New York Times says: The existence of a secret treaty between France and Piedmont, has been discovered by Garibaldi. By the terms of this treaty Piedmont will be allowed to annex Sicily, but not the Marches and Umbria. Piedmont may have Venice if she can win it. France, in return, is to have the islands of Sardinia and Colba, with other territorial grants.—It is alleged that the treaty is already signed.

Garibaldi attacked the town of Melazzo on the 25 July with the bayonet, and after a desperate combat the Neapolitans withdrew to the citadel.

The statement that the whole of Sicily had been evacuated by the Neapolitans is premature. Messina is still held by the Neapolitan troops.

Telegraphic news was received at Genoa on the 29th July, that the Garibaldians had suffered great loss; and that in the engagement near Melazzo, it was asserted that Garibaldi himself was wounded in the foot.

Garibaldi had ordered several inhabitants of Malazzo to be shot for having fought against him.

A considerable number of Americans have joined the army of Garibaldi. A young Virginian left Paris on the 11th July, with a commission as lieutenant he had just received from head-quarters at Palermo.

A Florence correspondent of the Providence Journal says:

Gen. Garibaldi is steadily doing his work. With characteristic energy he is going straight forward to the accomplishment of ends which he at first proposed. He has just concluded a baragin with Col. Colt for 100,000 of the best arms that are produced by that manufacturer. To his resources of all sorts, there are constantly coming in the most liberal contributions. Baron Ricasoli has just made him a present of 600 stand of arms, and others are giving in a similar proportion.

RUSSIA.—The following important paragraph is from one of the last letters of the Boston Traveller's Paris correspondent:

I may note among the new books of the week, *Truth about Russia*, by Prince Pierre Dolgorousky, showing all the ulcers which corrupt that great body politic, and indicating what, in the Prince's opinion, is the only remedy for the evils exposed. We read this book with the greater interest as we are daily looking for a great revolution in Russia. The Czar has abandoned his scheme of emancipation. He proves not to be the man able to cope with the formidable obstacles to that policy. A rising of the serfs is anticipated.

Young America Broad-cast

Seed-Sower!

Simplicity, Utility, Durability, and Cheapness Combined!

R. S. RICKEY'S IMPROVED

BROAD-CAST SEED-SOWER,

Patented, March 29, 1859.

THIS machine is well adapted to sowing all kinds of grain and grass seed, hemp seed, &c. It sows more regularly than can possibly be sown by hand, or any other machine ever introduced. It is perfectly simple in its construction, and not liable to get out of order; it is easily understood, and does away with the hard manual labor of sowing grain—doing the same amount of labor in two hours that could be done in one day by the ordinary method of sowing. The machine can be carried while being used, as it weighs but five pounds, or, by a simple frame, it can be attached to a wagon. When it is carried, it is strapped on the body of the operator, a strap to go across the right shoulder and under the left arm, also a strap buckled around the body, and a strap from the top of the sack, around the neck. Should the Machine by accident get broken, any tinner can repair it—although by proper care the Machine will last a life time. But to be appreciated, it must be seen.

It will sow the various grains and seeds the following distances:

Wheat,	50 feet at a cast,	or	100 ft.	at a round	
Oats,	56 "	"	72 "	"	
Hemp seed,	40 "	"	80 "	"	
H. G. seed,	36 "	"	72 "	"	
Timothy s'd,	25 "	"	50 "	"	

Other grains and seeds in the same proportion. It will also sow wet and limed grain perfectly well.

Roman Eye Balsam,

FOR WEAK & INFLAMED EYES.

THIS BALSAM was used for many years in the private practice of a celebrated Oculist, with remarkable success, for diseases of the Eye and Eyelids.

There are many persons who would rather suffer from pain and disease through life, than credit or try the efficacy of any new discovery; all such had better not read this, but to all reasonable persons this preparation is recommended as a most safe and effectual cure for inflammation of the Eye and Eyelids, caused either by too close application to minute objects, scrofulous habit, exposure to cold, blows, contusions, or irritation from any extraneous body under the eyelids. It is remarkably soothing in its effect, and has cured thousands who would otherwise have lost their sight.

In cases the Eyelids are inflamed, or the ball of the Eye thickly covered with blood, it acts almost like magic and removes all appearances of inflammation after two or three applications. There is a numerous class of persons that are peculiarly exposed to accidents or diseases that weaken and inflame the Eyes, and perhaps destroy the sight, who, from the nature of their employments, are compelled to work in a cloud of dust and grit. Such should never be without this BALSAM.

Remember, "Seeing is Believing."

No More Mills Burnt!

MR. BOOTH—DEAR SIR: I have now in our Mill one of your *Centre Feed Fire-proof* SMUT MACHINES, put up two weeks ago.—I can say that I consider it the greatest improvement in this class of machinery that has come under my notice. The danger from fire by friction and dust, common to the one in general use, is completely obviated. The dust and dirt, heretofore so annoying to me, is now effectually remedied. That part of the mill before occupied by the Smut Machine is now as clean as any part of the mill. I can say that it is the best scourer of grain I ever saw. The improvement in the quality of flour will be at once discovered; in fact, the great change produced in every respect is indeed a very great one. I would say that I have had in mill previous to this a machine that cut the grain very much, but this does not cut a kernel, and does not require half the power. Your machine will certainly take the preference in this State, and I would say on the Pacific coast.

To the Millers of this State:

You will never regret trying this Smut Mill.—You can call and see how this cleans wheat, before purchasing. I have the only one in Oregon, at present, but they can soon be obtained. I would say that my flour has had a great reputation in the last two years, and I am satisfied by the use of this smut mill that it will still make an improvement in the flour, if any can be made.

Ladies and gentleman, I assure you that I can sell you boots and shoes as cheap as any house in town, or a little cheaper for cash down. Small profits and quick sale, that is the talk that tells the tale. [my19 J. MOONEY.

Wistar's Balsam of Wild Cherry.—The only pure and genuine Balsam is, and for the last twenty years has been, prepared by SETH W. FOWLE & Co., of Boston; and their printed name, as well as the written signature of *I. Butts,* appear on the outer wrappers. As you would *avoid* the spurious and *have* the genuine, *take no other!*

WISTAR'S BALSAM OF WILD CHERRY.—This invaluable remedy is the best one extant for the safe, sure, speedy, and permanent cure of *coughs, colds, sore throat, bronchitis, asthma, pleurisy, pneumonia, croup, whooping cough, bleeding at the lungs, pain in the breast or side,* and in fact every form of throat, chest, and lung complaint, as well as CONSUMPTION itself.

This household remedy should be in the hands of every family and individual, as a timely application of it to a slight cold will cause immediate relief; while cases of long standing, obstinate, and apparently incurable character, will surely yield to its wonderful curative powers and its great adaptation to the wants of man when afflicted.
