The Louisville Journal says: "We speak what we do know when we say that, innediately after the late Kentucky election, is was seriously contemplated in important quarters to have John C. Brekinride withdraw from his position as a candidate for the Presidency. For at least two or three days it was doubtful what the decision would be. Finally the conclusion ras arrived at that Breckinridge should remain upon the track and things be permitted to take their course, every influence being brought to bear to strengthen him as nach as posssible. The leaders of his party de not see that they could let er promote their views by any change of programme at this late day, however bitterly they may feel the disappointment created by their recent political disaster in our State. John C. Breckinridge will not be withdrawn, yet he has no hope, nor have his leading friends any hope in his behalf, that he will ever be President, unless of a Southern fraction of a broken confederacy.

The answer of our Government to Lord John Russell's dispatch respecting the African slave trade and his plan for its suppression, has appeared. Our Government refuses the plan of co-operation, and the proposed interference in the internal administration of the laws of Spain in Cuba As to the substitution of the Coolie labor for African slave labor, this Government has no arrangement to make, even if it is so jurited to do. The importation of Coolies as laborers into the United States is objected to by the President on the ground that mixing them with slaves in the South would be injurious to the latter, many of whom are sincere Christians, and that their employment in the Northern States would be unjust and discourteons to foreign immigrant laboreres who come here

Corrention adopted the Charleston platform, with the exception of the Pacific Railroad and the Cuba planks. The Virgini State Rights polit cians are utterly host le to giving any aid by the Govenment to a railroad to the Pacific. This is generally the case also with the State Rights men of the cutire South. Rhett, on the part of the South Carolina delegation to Richmond, reputinted it. All the seessionists will, of course, resist it, because it might render the Union too strong

tialed for having given orders in regard to to the occupation of San Juan, in violation of General Scott's orders, and of the policy of the Government, if General Scott should persist in presenting charges. But it is believed that General Scott will suffer the matter to drop, now that General Harney has been superseded in the command on the Pacific. This Government will make no dificulty with Great Britain on the subject of the occupancy of San Juan while negotiations concerning its disputed ownership are pending.

gence from the States informs us that the Liberals had attacked the city of Mexico, with every prospect of success. Miramon was encamped with 2000 men within twenty-fire miles from the city, but could not send succor. In consequence of the seizure of the grain in the country by the foreign troops, a famine was apprehended.

ORIGIN OF THE BONAPARTE FAMILY .-There is a curious story connected with Vitylo. About a hundred and fifty years ago, emigration from Maina into Corsica was frequent; among others, the family of Kalomiris went from Vitylo, who, soon after their settlment in Corsica, translated their names into Italian-Buonaporte. From this family came Napoleon, who was, therefore, of Mainote, or uncient Spurtan

## Roman Eve Balsam,

FOR WEAK & INFLAMED EYES. THIS BALSAM was used for many years in the private practice of a celebrated Oculist, with remarkable success, for diseases of the Eye and Eyelids.

There are many persons who would rather suffer from pain and disease through life, than credit or try the efficacy of any new discovery; all such had better not read this, but to all reasonssuch had better not read this, but to all reasona-ble persons this preparation is recommended as a nort safe and effectual cure for inflammation of the Eye and Eyetds, caused either by too close spilication to minute objects, scrofulous habit, ex-poure to cold, blows, contusions, or irritation from any extraneous body under the cyclick, it is remarkabbly southing in its effect, and has cared thousands who would otherwise have lost

In cases the Eyelids are inflamed, or the ball of the Eye thickly covered with blood, it acts al-most ike mage and removes all appearances of inflammation after two or three applications. There is a numerous class of persons that are peculiarly exposed to accidents or discuses that weaken and inflame the Eyes, and perhaps destroy the sight, who, from the nature of their emp syments, are compelled to work in a cloud of dust and grit. Such should never be without this BALSAM.
