

BADLY SCARED.—What the South really fears in the event of the election of a Republican President, is the formation of a Republican party in their midst, imbued with the same sentiments in relation to Slavery that Washington, Jefferson and the other fathers of the Republic entertained. They know that Republicanism contemplates no onslaught upon Slavery in the States—that it fully recognizes the right of the States in which it exists to regulate and control the institution. Here is the testimony of the New Orleans Courier upon the subject. We quote: "Too politic by far to use direct violence against slave property, Black Republicanism would adopt a far more fatal a remedy—more fatal, because insidious, to effect its cherished policy—the agency of Federal patronage. In the current times in which we live, thousands can be counted in almost every Southern community, who would gladly accept office and employment under such a Government, and these very men would be the first to form a nucleus of the Republican party in the Southern States. They would collect around them the Abolition emissaries in sheep's clothing, whom we have so long been unwillingly supporting, and would be the means of gradually sapping and undermining those sentiments which we have all been taught to entertain from early youth, and of converting the civil minded into open advocates of gradual emancipation, if not of downright abolition. The example of Missouri, Virginia and Maryland, is before us; and the toleration with which these doctrines are publicly broached by avowed Republicans, should prove a warning and a lesson to us in the extreme South."

THE MEASURE TO BE CARRIED OUT.—The Camden (Ala.) Register says: "We ran up our flag to-day for Breckinridge and Lane, the Democratic nominees for President and Vice President of the United States. We have unwaveringly concluded for the last two years that it would be better for all concerned to make two or more distinct Governments of the territory comprising the United States of America; and that such will ultimately be done there can be no sort of doubt; but it should be done with fairness and justice to every section of the Union; and believing the party to which we belong is the only reliable one to carry out this measure, and secure to our own section all her rights, we intend to battle for its principles to the fullest extent of our ability."

NO PLACE FOR DEMOCRACY.—A few days since an agent of a certain Breckinridge daily in San Francisco came to this city, en route to the interior of the country, but being somewhat under the influence of "Kentucky spirits," brought up in the car-chaise for the night. Being honorably discharged, the following morning he took the stage with others for an interior village. On the way a fellow passenger inquired of the quondam agent his opinion of the politics of Petaluma, to which he replied: "I don't know how parties stand, but I do know that it is no place for Democracy, for a man can't take more than two drinks of whisky, till he's taken to the lock-up."

Young America Broad-cast Seed-Sower! Simplicity, Utility, Durability, and Cheapness Combined! R. S. RICKEY'S IMPROVED BROAD-CAST SEED-SOWER. Patented, March 29, 1859.

THIS machine is well adapted to sowing all kinds of grain and grass seed, hemp seed, &c. It sows more regularly than can possibly be done by hand, or by any other machine ever introduced. It is perfectly simple in its construction, and not liable to get out of order; it is easily understood, and does away with the hard manual labor of sowing grain—doing the same amount of labor in two hours that could be done in one day by the ordinary method of sowing. The machine can be carried while being used, as it weighs but five pounds, or, by a simple frame, it can be attached to a wagon. When it is carried, it is strapped on the body of the operator, a strap to go across the right shoulder and under the left arm, also a strap buckled around the body, and a strap from the top of the sack, around the neck. Should the Machine by accident get broken, any tinner can repair it—although by proper care the Machine will last a life-time. But to be appreciated, it must be seen.

It will sow the various grains and seeds the following distances: Wheat, 50 feet at east, or 100 ft. at a round. Oats, 45 " " " " " " 72 " " " " " " " " " " " " 60 " " " " " " " " " " " " 49 " " " " " " " " " " " " 36 " " " " " " " " " " " " 25 " " " " " " " " " " " " 25 " " " " " " " " " " " " Timothy's, 25 " " " " " " " " " " " "

Other grains and seeds in the same proportion. It will also sow wet and lined grain precisely well. County Rights for Sale on Good Terms. Address, S. S. SNOW, Portland. Those wishing to procure machines, can apply to the above, or to H. M. Humphrey, Portland, or C. W. Bryant, Oswego, Oregon, and orders will be punctually filled. Sept. 8, 1860-m4
