DYING NATIONS .- Why do nations die? Cultivated Greec and all conquering Rome, Vandal, and Goth, and Hun, and Moor, and Pole and Turk, all are dead and dy ing! Murdered by nations more powerful?
Swept away by pestilence and plague, or starved by pitiless famine? Not by any of these. Not by the lightning and the thunder; nor by the pest and the storm; not by poisoned air or volcanic fires did they die, and do they fall!

They perish by moral degradation; the result of gluttony, intemperance and effeminancy. It is remarkably soothing in its effect, and has cured thousands who would otherwise have lost

WEDDING CAKES

No More Mills Burnt!

MR BOOTH—DRAN SIR: I have now in our Mill one of your Centre Feed Fire-proof SMUT MACHINES, put up two weeks ago.—I can say that I consider it the g-catest improvement in this class of machinery that has come under my notice. The danger from fire by tretion and dust, common to the one in general use, is completely obviated. The dust and dirt, heretotore so annoying to me, is now effectually remedied. That part of the mill before occupied by the Smut Machine is now as clean as any part of the mill. I can say that it is the best source of grain I ever saw. The improvement in the qual-ity of floor will be at once discovered; in fact, the great change produced in every respect is indeed a very great one. I would say that I have had in mill previous to this a machine that cut the grain very much, but this does not cut a kernel, and does not require half the power. Your inschine will certainly take the preference in this State, and I would say on the Pacific coast.

A. J. Chapman. Island Mills, Oregon City, May 24, 1860. WM. MASTERS, Agent. Portland, Oregon.

To the Millers of this State : You will never regret trying this Smut Mill,— You can call and see how this cleans wheat, be-fore purenasing. I have the only one in Oregon, at present, but they can so n be obtained. I would say that my flour has had a great reputation in the last two years, and I am satisfied by the use of this smat mill that it will still make an improvement in the flour, if any can be made, A. J. CHAPMAN, Oregon City, May 26, 1860.

THAT most diseases prove fatal; that early d athe occur; that people I ve for years a living death, weak, manimate, and exhausted—not from the disease itself, but from an inability in from the disease itself, but from an inability in nature, and nature's strength to withstand or maintain life through the ravages of disease.—
Give them strength, and nature will relieve herself, if stimulated. She has given us herbs and plants to effect all thes. Porty the blood, render the intestings, the liver, the heart, and all the matural functions of man or woman active, and you have half conqueted disease. Dr. JACOB WEBBER does conscientiously assure all who read this, that his Sangniffer or Invogenting Cordial produces all the effect above described. He find the last state of the first above described. He has seen the old, the tottering, the palsied, the nervous, the dysp pic, the inchriste, the debauchee, and the invalid revive under its influence,

Dr. Webber's Sanguister acts on the blood, heart, brain, intest nes, sinews nervee, the fluids and semi-fluids, and

Jacob Webber's Invegrating Cordial causes strength—that is its main quality. The first op-eration, Tonic; the pariaker feels then that suda-tion is caused—his skin is damp, his limbs supple and active, he feels a wish for exercise, and knows he has strength to endure it; he is lightspirited: his skin becomes clear; his eyes, too beized or ejected, and his blood thinned and purified. If he has a foul stomach, this nets is an relieves belching, and prevents an accumulation of wind in the stomach. The stomach, the great of wind in the stomach. The stomach, the great receiver of disease and its cure. I will now enu-merate a few of those diseases where I have seen Dr. Webber's Invigorating Cordial act most beau

a healthy action on the howels, heart, skin, and brain, and thereby revolutionize the whole system, which has become dormant and mactive. Two thirds of human diseases are clusted from some of the above organs being disorgan z.d. Doc ors may tell you that you have such and such a disease, but until medical practice becomes a science (and it is not yet), disease cusnot be described to a certainty. This singular medicine gradually strengthens the system, enters at once the blood, which from stuggishness a rapid, courses through the vens and the heart. Many I have seen who assured me that, three days a ter us og it, they have fe t a thrill of an matton, mentally and bud-ily; their chest and breast was before heavy; all they are see ned to settle there; their rest was un-quiet; their appet to poor, and that this really bessed corried convenient. b essel cordial removed all such symptoms; that strength of limbs, body, appeting, and spirits was given them by it, and an entire revolution in their worn-out system occurred
