Living from day to day with the idea that you are going to sell, is one of the poorest ways of getting along. Make up your mind to stop where you are. Apply energy and headwork to your operations, and determine to make a home for yourself and your family, if you have one, and give up the idea that you can acquire wealth in chasing every speculation that presents itself.

THE SOLITUDE OF DEATH .- We must die alone. To the very verge of the stream our friends may accompany us; they may bend over us, they may cling to us there, but that one long wave from the sea of eternity washes up to the lips, sweeps us from the shore, and we go forth alone! In that entried and atter solitude, then, what can there be for us but the pulsation of that assurance-" I am not alone, because the Father is with me."

-Beauty is always a charm. It may be a cheat. The fruit which follows the flower gives character to the tree. A sweet, gentle heart, crimsoning with its modest blush the face of beauty, is that finer touch which God impressed upon human nature, when he took a rib from the side of Adam, and of it made woman.

—Nothing is entirely lost. The drop of water which is spilt, the fragment of paper which is burnt, the plant that rots in the ground—all that perishes and is forgotten—equally seeks the atmosphere, and all is there preserved, and from thence re-turned to fructify the earth for some other

-The chief secret of comfort lies in not allowing trifles to vex us, and in prudently cultivating an undergrowth of small pleasures, since very few great ones, alas! are let on long leases.

—It is a curious physiological fact that all enthusiastic lady-skaters have remarka-bly small feet and declare long skirts to be always in the way!

THIS BALSAM was used for many years in the private practice of a celebrated Oculist, with remarkable success, for diseases of the Eye and Evelids.

and Eyends.

There are many persons who would rather suffer from pain and disease through life, than credit or try the efficacy of any new discovery; all such had better not read this, but te all reasonasuch had better not read this, but to all reasona-ble persons this preparation is recommended as a most safe and effectual cure for inflammation of the Eye and Eyebds, caused either by too close application to minute objects, scrofulous habit, ex-posure to cold, blows, contusions, or irritation from any extraneous body under the cyclids. It is remarkably soothing in its effect, and has cured thousands who would otherwise have lost their sight. their sight.

In cases the Eyelids are inflamed, or the ball of the Eye thickly covered with blood, it acts almost i.ke magic and removes all appearances of inflammation after two or three applications. There is a numerous class of persons that are peculiarly exposed to accidents or diseases that weaken and inflame the Eyes, and perhaps destroy the sight, who, from the nature of their employments, are compelled to work in a cloud of dust and grit. Such should never be without this BALSAM. Retacmber, "Seeing is Believing."

THIS machine is well adapted to sowing all kinds of grain and grass seed, hemp seed, &c. It sows more regularly than can possibly be sown by hand, or any other machine ever introduced. It is perfectly simple in its construction, and not liable to get out of order; it is easily understood, and does away with the hard manual labor of sowing grain—doing the same amount of labor in two hours that could be done in one day by the ordinary method of sowing. The machine can be carried while being used, as it weighs but five pounds or by a simple frame. five pounds, or, by a simple frame, it can be athive pounds, or, by a simple frame, it can be attached to a wagen.
