" Nearer, my God! to thee." Baltimore Advocate.

-" Our life is what we make it!"-an Insignificant game or a noble trial; a dream or a reality; a play of the scenes worn out in selfish use, and "flying swifter than a weaver's shuttle," or an ascension of the soul by daily duties and unfaltering faith, to more spirtual relations and to loftier toils-to the company of the immortal-to the presence of God and the fellowship of Christ.

-There is nothing formidable about death except the consequences of it, and these we ourselves can regulate and control. The shortest life is long enough if it leads to a better, and the longest is too short if it does not.

-It is an undoubted fact, that recruiting for the Southern army has been a clear case of swindle upon a large number of Germans, who were enlisted upon their first landing, and not understanding Euglish, as they supposed in the army of the United States.

-The census of the Sandwich Islands for 1860 has just been completed, showing a decline of 3,935 in the native, and an increase of 598 in the foreign population. The total population in 1860 was 69,800, against 73,137 in 1853.

### Roman Eye Balsam, the tale.

FOR WEAK & INFLAMED EYES.

THIS BALSAM was used for many years in the private practice of a celebrated Oculist, with remarkable success, for diseases of the Eye and Evelids.

There are many persons who would rather suffer from pain and disease through life, than credit or try the efficacy of any new discovery; all such had better not read this, but to all reasona-ble persons this preparation is recommended as a most safe and effectual cure for inflammation of the Eye and Eyelids, caused either by too close application to minute objects, scrofulous habit, ex-posure to cold, blows, contusions, or irritation from any extraneous body under the eyelids. It is remarkably soothing in its effect, and has cured thousands who would otherwise have lost

their sight. In cases the Eyelids are inflamed, or the ball of the Eye thickly covered with blood, it acts al-most like magic and removes all appearances of inflammation after two or three applications. There is a numerous class of persons that are pecutiarly exposed to accidents or diseases that weaken and inflame the Eyes, and perhaps destroy the sight, who, from the nature of their employments, are compelled to work in a cloud of dust and grit. Such should never be without this BALSAM. Reacomber, "Scoing is Believing."

BROAD - CAST SEED - SOWER, Patented, March 29, 1859.

TRUS machine is well adapted to sowing all kinds of grain and grass seed, hemp seed, &c. It sows more regularly than can possibly be sown by hand, or any other machine ever introduced. It is perfectly simple in its construction, and not liable to get out of order; it is easily understood, and does away with the hard manual labor of sowing grain—doing the same amount of labor in two hours that could be done in one day by the ordinary method of sowing. The machine can be carried while being used, as it we'ghs but fat be carried white being used, as it we gus but five pounds, or, by a simple frame, it can be attached to a wagon. When it is carried, it is strapped on the body of the operator, a strap to go across the right shoulder and under the left arii, also a strap buckled around the bedy, and a strap from the top of the sack, around the week. Should the Machine by secident wet bucken Should the Machine by accident get broken, any timer can repair it—although by proper care the Machine will last a lifetime.
