the field the vast army which has responded to his demands, without the authority of Congress. It is true the President of the United States of America has no authorit to make, wage, or declare war against asy powers whatever without Congressional authority; yet at the same time he has the authority to defend the Government and the Country, as Commander in-Chief of the forces of the Union, against any and all attacks, let them come from whom they may, with those means which to him may seem best. The man who calls into question the right of the President to defend the Government, on a quibble or technicality, is no friend of that Government which is endangered. Would these aquibbling Constitutional friends of the United Content of the United States at quietly in the Presidential chair. States sit quietly in the Presidential chair, allow himself to be bound hand and foot, allow himself to be bound hand and foot, and the country devastated, without a streggle, because there was a doubt as to his Constitutional authority to prevent it? Would such action be proper for the Chief Magistrate of a great nation like America? Not to our way of thinking. The Presidest of the United States has but done his daty in the measures he has taken to preserre his country; and had he done less woold have deserved the execuations of all Christendom. On the contrary, however, he has risen to a mighty hight before the
American people, and there is not a patriot
is the land who will not applaud him for is the land who will not applaud him for his nerve, ability, and judgment. We never can believe that the All-wise Ruler of the Universe has placed the seal of destruction upon our Republic, but we believe that the right man has been placed in power to carry us successfully through the storm of the transfer of the tra of treason that is howling around the portals of the Temple of Liberty.—San Fran-tico Spirit of the Times.

THE ENTIRE NORTH IN ACTION.—History rarely if ever presented such a sublime manifestation of patriotic devotion and military arder as is displayed in the Northera States at this day. With one com-mon impulse all classes of the people, without regard political opinion, creed or nativity, are responding to the country's call, and falling into the ranks of the volunteers. In great cities like New York of course tensifies; but it is by no means confined to large communities. Every little town and village all over the North has its band Tue Coming Focusing

of heroes, going forth to battle for the government and the flag of the republic .four hundred soldiers turned out. This

the New York Tribune, under date of May 4th, says:

It is not true that 15,000 muskets were destroyed in the armory at Harper's Ferry. Gen. Cameron managed the matter so fore the fire. Many of them are now here harber fired a nalute on the occasion, and at many is the hands of our own troops. The arms places the English and American ensigns waved really burned were of no value whatever. The time will come when Gen, Cameron will receive the public thanks for his masterly management of this affair. All our arsenals are as busy as they can be filling ordes for arms and ammunition. Hundreds of women and boys are engaged in making saids of men and women are at work on clothing and equipments. At the Navy Nearly & Fire of the Yard 800 men are employed, and the greatest possible netivity prevails in fitting out war vessels.

In his late speech before the Illinois Legislature, Senator Douglas made use of the following language upon the duty of erery man " to lay aside party creeds and party platforms:"

Now permit me to say to the assembled Representatives and Senators of our good old State, composed of men of both political parties, in my opinion it is your duty to lay aside your party creeds and party platforms; to lay aside your party organi zations and partisan appeals; to forget that you were ever divided until you have res-cued the Government and the country from their assailants. Then resume your partisan positions necording to your own wishes. [Applause.] Give me a country first, that my children may live in peace, then we will have a theater for our party organizations to operate upon.

NEARLY READY .- All statements concur that the Government will soon strike a formidable blow at the secessionists, such a one as will snuff them out: "The Government at Washington, (we

speak advisedly,") says the editor of the Commercial Advertiser, "is well prepared, much more so than is generally supposed, for the work that now lies before it. We fearlessly predict that when the proper time to strike at the vitals of rebellion arrives, the Government will administer a ion of blows that will astonish the country by their force and effectiveness, and that will make short work of the Montgomery rebellion and despotism. A retribution will be taken upon those who have disturbed the peace of the Re-public and insulted and assailed its flag."

Bravery (!) - The vaunted bravery of the secession chivalry has thus far had but two opportunities to show itself. At the first, 7,000 rebel troops, with 19 batteries mounting more and far heavier guns than silenced the Malakoff, some of them, too, rifled cannon, dared not attack the 71 soldiers of Sumter until they knew they were erhausted by famine, and within three days of absolute starvation. At the secood, an armed secession mob of many thousand dared not attack the whole of a Massachusetts Regiment, but prudently waited until the last company was cut off from its comrades.

Show Your Colors .- A newsboy who vas selling Union flags and cockades in San Francisco at the time of the great Union meeting, called out to a gentleman passing, "Want a flag, sir?" The gentle-man replied, "No, my lad; I wear my col-ors around my heart." "That won't do, st," said Young America; "erery man st," said Young America; "erery man lak, Paper, Carda, de, sunt show his colors to day, sir!" Truer

ords were never spoken. The present constant of Clay Sured, above Sanson San France is a crisis when every man must show his AM. PAINTER DI City State San Francisco.

THE CONSTITUTIONAL RIGHT.—A great INVASION OF STATES.—According to the many people are discussing the right of the theory of the secessionists the United States, to call into States Government has no right to march Project of the vast army which has responded troops through any State without her consent. Suppose every State should refuse consent, what would be the condition of

the National Government? It would be shut up in the District of Columbia, and for its weakness and inefficiency would merit as It would receive the contempt of the civilized world .- Sacramento Union.

The Winchester (Ky.) National Union, of Friday the 26th, contains a paragraph which we think the Governor of Kentucky should read, mark, and inwardly digest: "Beriah Magoffin, unless he speedily changes his conduct, will soon find that he has trespassed too far on the patriotic forhas trespassed too far on the patriotic for-bearance of an outraged people, and will have the notoriety of being the first Gover-nor of a State hanged for treason."

Mrs. Tawrence, the widow of the here who said " Don't give up the ship," resides in Newport. She was a few days ago called upon by a friend, who made some remarks favorable to the South. The old lady rose in wrath and ordered him out of the house in her own peculiar and em-

JOHN THOMAS,

Sheriff Clackamas Co. May 11, 1861. CAST - STEEL

PLOWS! THE undersigned are now engaged in manufacturing some of the BEST CAST-STEEL PLOWS ever made on this coust, which they are not afraid to warrant, and which they are selling at

Prices to suit the Times. We have made material improvements on our old pattern, and those who have tried our plews give them the preference over any other they have ever used. We are carrying on an extensive manufactory, and intend to keep up with the rapidly increasing demand.

If you want a GOOD PLOW, of easy draft, and sure to scour, get one of Rynearson's Buterille Plants.

Who is Elder in Rev. Horace Bushnell's church, regarding the cure of his daughter, who was to all appearances crappled for life with the terrible daughte, SCHOFULA: CINCINNATI, Feb. 28, 1850.

Masses A. L. Scovitt & co.Dear Sire: - I feel it my duty to write you, and let you know what your Blood and Liver Symp has done for my daughter, and that by publishing has done for my daughter, and that by photosing it others who suffer with the same disease may know of it, and by its use derive great benefit.— My daughter Edza has been sorely afflicted with SCROFULA, attended with great pain, for more than two years. She had some five or six running Ulcers on one of her feet, one on her hip, and Ukers on one of her feet, one on her hip, and one on her back. They caused contraction of the limbs so that she could not walk. At this time, from the high recommendation of your Blood and Liver Syrup in curing such diseases, I was induced to try it. She commenced using it, and as the medicane acted on the blood, the sores commenced to heat. The limbs are getting straight—site is now gaining strength. I have only used three bottles of the medicine, and the cau now walk quite well. Your Blood and Liver Syrup has done wonders in restoring her health.

With the greatest respect, I remain yours,

Complain no more of Aching Teeth!

THESE Drops have been extensively used by I thousands whose experience has proved that the Amstyne will give immediate and permanent relief after the failure of every other remedy. It is pleasant to the taste and smell, and a few applications will entirely remove the pain and services from a decayed tooth, so that it may be filled and rendered as useful as ever. When the pain proceeds from the face, or from the goms around a tooth apparently sound, this Anodyne will give spredy relief by rubbing a few drops on the part affected. It has only to become generally known to be as highly appreciated by the Public as it is

by Dentists.
