

JEFF DAVIS A FAILURE—THE CASE FAIRLY AND BLUNTLY STATED.—Jeff Davis is a failure. We expected to see him, at the head of a few thousand men, make a lunge at Washington and take it, before preparations could be made to defend it. He has waited until it's too late. Col. Duncan has been at Harper's Ferry for some time, and he has not attempted the exploit. Beauregard has waited at Charleston until its given out that he is dead. It all sums up in blustering, marching and counter-marching and spending money.—The purse that holds out longest wins at this rate, and we expect that will be about the end of it. The purse, these days, is the better part of valor. Nothing but Napoleonic energy and genius can combat it; and the immense purse of that great joint stock company, called the British Empire, conquered Napoleon at last. Davis has made a poor beginning for what he had to do. This bragging and taking attitudes will never do for his mission; it will be the death of him. Scott, that old military fox, knows this. He doesn't intend to fight. In this war of science and attitude, Davis goes under without a blow, it's inevitable, and Gen. Scott sees it. Davis hasn't the means, his friends may say. If he didn't see how to succeed without means, he ought not to have begun this contest.—The bold and daring is his game to play.—If he is not equal to the emergency, let him resign, and give place to Col. Duncan, or some other Napoleonic spirit.—Louisville Democrat.

The power of the Minie rifle has been proved in the collision of the troops with the mob at St. Louis. The balls in striking the walls tore the bricks for the space of three or four inches in diameter, and, when they struck perpendicular, penetrated to the depth of six inches into the solid wall. One shot, fired at an angle to the wall, tore away the corner of a brick next the door frame, struck the edge of the frame, penetrating through it at least six inches, and went through the door into the building, lodging in the opposite wall.—One of the balls went through a tree four inches in diameter and lodged in a house near by.

—A Boston volunteer at Washington says, in a letter: "At the time of my writing, with nearly 4,000 troops quartered in the Capitol building, there is not so much noise as your Common Council would make in electing a city messenger."

—Lieutenant Colonel Farham, who by the death of Colonel Eilsworth is commander of the Firemen Zouaves, was in the Mexican war, is in efficient officer, and it is believed will prove worthy to fill the place of his predecessor.

**Roman Eye Balsam,**  
FOR WEAK & INFLAMED EYES.

**THIS BALSAM** was used for many years in the private practice of a celebrated Oculist, with remarkable success, for diseases of the Eye and Eyelids.

There are many persons who would rather suffer from pain and disease through life, than credit or try the efficacy of any new discovery; all such had better not read this, but to all reasonable persons this preparation is recommended as a most safe and effectual cure for inflammation of the Eye and Eyelids, caused either by too close application to minute objects, scrofulous habit, exposure to cold, blows, contusions, or irritation from any extraneous body under the eyelids. It is remarkably soothing in its effect, and has cured thousands who would otherwise have lost their sight.

In cases the Eyelids are inflamed, or the ball of the Eye thickly covered with blood, it acts almost like magic and removes all appearances of inflammation after two or three applications. There is a numerous class of persons that are peculiarly exposed to accidents or diseases that weaken and inflame the Eyes, and perhaps destroy the sight, who, from the nature of their employments, are compelled to work in a cloud of dust and grit. Such should never be without this BALSAM. Remember, "Seeing is Believing."

**Simplicity, Utility, Durability,  
and Cheapness Combined!**

**R. S. RICKEY'S IMPROVED  
BROAD - CAST SEED - SOWER.**  
Patented, March 29, 1859.

**THIS** machine is well adapted to sowing all kinds of grain and grass seed, hemp seed, &c. It sows more regularly than can possibly be done by hand, or any other machine ever introduced. It is perfectly simple in its construction, and not liable to get out of order; it is easily understood, and goes away with the hard manual labor of sowing grain—doing the same amount of labor in two hours that could be done in one day by the ordinary method of sowing. The machine can be carried while being used, as it weighs but few pounds, or, by a simple frame, it can be attached to a wagon. When it is carried, it is strapped on the body of the operator, a strap goes across the right shoulder and under the left arm, also a strap buckled around the body, and a strap from the top of the sack, around the neck. Should the Machine by accident get broken, any tinner can repair it—although by proper care the Machine will last a lifetime. But to be appreciated, it must be seen.

It will sow the various grains and seeds the following distances:  
Wheat, 30 feet at a cast, or 100 ft. at a round  
Oats, 36 " " " 72 " "  
Hemp seed, 40 " " " 80 " "  
H. G. seed, 36 " " " 72 " "  
Timothy's, 42 " " " 84 " "

And grains and seeds in the same proportion. It will also sow wet and limed grain perfectly well. **County Rights for Sale on Good Terms.**  
Address, S. S. SNOW, Portland.

Those wishing to procure machines, can apply to the above, or to H. M. Humphrey, Portland, or C. W. Bryant, Oswego, Oregon, and orders will be punctually filled. Sept. 8, 1860m4

## PURIFY THE BLOOD. MOFFAT'S Vegetable Life Pills AND PHENIX BITTERS.

**THE** high and envied celebrity which these prominent Medicines have acquired for their invariable efficacy in all the diseases which they profess to cure, has rendered the usual practice of puffing not only unnecessary, but unworthy of them. They are known by their fruits; their good works testify for them, and they thrive not by the faith of the credulous.

In all cases of asthma, acute and chronic rheumatism, affections of the bladder and kidneys, bilious fevers and liver complaints, in the south and west, where these diseases prevail, they will be found invaluable. Planters, farmers, and others, who once use these Medicines, will never afterwards be without them.

**Dyspepsia.**—No person with this distressing disease should delay using these Medicines immediately. Eruptions of the skin, erysipelas, flatulency, fever and ague—for this scourge of the western country, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these Medicines is permanent. **TRY THEM, BE SATISFIED, AND BE CURED.**

**Mercurial Diseases.**—Never fails to eradicate entirely all the effects of Mercury infinitely sooner than the most powerful preparation of Sarsaparilla. **Night Sweats, Nervous Debility, Nervous complaints of all kinds, Organic Affections, Pains of the Heart, Painter's Colic.**

**Piles.**—The original proprietor of these Medicines was cured of Piles of 35 years' standing by the use of these Life Medicines alone. **Worms** of all kinds are effectually expelled by these Medicines. Parents will do well to administer them whenever their existence is suspected. Relief will be certain.

**The Life Pills and Phenix Bitters**

**THE** collegiate year, consisting of one term of nine months, will commence on the first Wednesday of November. Attached to this Institution to furnish a thorough and complete collegiate education. There is a Library of 1000 volumes for the use of the students.

Applicants for admission to college must have a knowledge of the common English branches, and have studied the ancient languages so far as to have read portions of Cæsar and Cicero and the Greek Reader.

The tuition fee is \$32 per annum.

Students fitting for college, as well as others wishing to pursue collegiate studies without entering upon the college course, will be under the instruction of the college teachers.

The full term of 11 weeks in the preparatory department commences on the 2d Wednesday of September. Tuition, \$8 per term.

**TUALATIN ACADEMY.**  
Tualatin Academy, for the coming year, will be under the direction and instruction of the College Professors, with such assistant instructors as they may find necessary to carry it forward efficiently and successfully.

## Sands' Sarsaparilla, For Purifying the Blood, AND FOR THE CURE OF Scrofula, Mercurial Diseases, Rheumatism, Cutaneous Eruptions, Stubborn ulcers, Liver complaint, Dyspepsia, Bronchitis, Salt Rheum, Lumbago, White Swellings, Hip Disease, Enlargement of the Bones and Joints, Fever Sores, Female Com- plaints, Erysipelas, Loss of Appetite, Pimples, Biles, General Debility, &c., &c.

It has long been a most important desideratum in the practice of medicine, to obtain a remedy similar to this, and accordingly we find it resorted to almost universally in all those tormenting diseases of the skin so trying to the patience, and injurious to the health. It is a tonic, aperient, and disinfectant. It acts simultaneously upon the system, the circulation, and the bowels, and thus three processes, which are ordinarily the result of three different kinds of medicine, are carried on at the same time through the instrumentality of this one remedial agent. Its great merit is that it meets and neutralizes the active principle of disease itself, and when that is gone, the symptoms necessarily disappear. The rapidity with which the patient recovers health and strength under this triple influence is surprising.

**REMARKABLE CURE.**  
LINN COUNTY, Oregon Ter.,  
March 11, 1855.

Messrs. A. B. & D. SANDS, New York: Gentlemen,—In the spring of 1853, while on my way from Indiana to this place, our eldest boy was seized with a swelling and severe pain in the legs which day by day grew worse, until his legs contracted, and he became so painful that he could not walk, and we had to carry him about like an infant. We reached Albany on the 3d of October, completely worn out by fatigue. By this time, he was reduced to a perfect skeleton. Here we were obliged to consult a physician (Dr. Hill), who honestly confessed he could not cure him, although he could give him medicine that would relieve the pain. In this exigency something must be done, or death was inevitable. Being recommended to try your Sarsaparilla, I procured a bottle. After taking some, he appeared worse; but persevering with it, I obtained a second bottle, which seemed to grapple with the disease, and caused a marked improvement: the swelling and pain in the legs were reduced, his appetite improved, and his color began to return. Thus encouraged, I purchased a third bottle; while taking it the swellings in his legs broke, and some pieces of bone one eighth of an inch long came out, after which his legs straightened and healed up. He is now perfectly recovered and has no appearance of being a cripple, and can perform most kinds of common labor, as all our neighbors can certify. Yours, respectfully,

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hastily written news-items, crude speculations, and flying rumors of the daily Journal, and the ponderous notes of the future historian, written after the living interest and excitement of the great political crisis of the time shall have passed away. It is to these Periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific, and theological character, we urge them upon the consideration of the reading public.
