

The Washington Star states that among the effects of the Alexandria Sentinel office, now in possession of the Government, are certain letters of great importance, as showing the means by which the revolution of Virginia was accomplished, and implicating the writers and others in treason and conspiracy against the United States. The Star also says that these letters are believed to prove, beyond the possibility of denial, that the adoption of the ordinance of secession by the Virginia Convention was the result of fraud, usurpation, and terrorism unsurpassed in the history of civilized government—of naked and palpable revolution, to the end of entirely sweeping away at a blow the liberties of the masses of the State, in order to place in the hands of the conspirators and their instruments, for life, the entire machinery of the government of Virginia.

Mrs. Jansson never could go to bed at all without first looking underneath to see if anybody was stowed away there. But her search had always been fruitless. At last, however, one night she spied (or thought she did, which is all the same) the long looked for boots and legs.

"Oh, Mr. Jansson," she screamed out, "there is a man under the bed!" "Is there?" coolly answered her husband, "well, my dear, I am glad you have found him at last. You have been looking for him this twenty years."

If you don't want to fall in love with a girl, don't commence flirting with her. This courting for fun is like boxing for fun. You put on the gloves in perfect good humor, with the most friendly intentions of exchanging a few amicable blows; you find yourself insensibly warmed with the conflict; until some unlucky punch in the 'veekit' decides the matter, and the whole affair ends in a downright fight. Don't you see the similarity?

CARRYING OUT THE ORIGINAL INJUNCTION.—The New Orleans people are resolved not to neglect their moral responsibilities, notwithstanding their political dissoluteness. A Sunday School convention there recently passed the following resolution:

Resolved, That a committee of ladies and gentlemen be appointed to raise children for the Sabbath School.

An editor in Troy received a present of some pastry from a lady in that city, to which and to the lady he pays a high compliment. He admits, however, that he dare not taste the pastry till he had given some of it to the dog, which he did not care keeping, in order to prove that it was not "spizen." The man who could harbor suspicious of a pretty woman is not to be envied.

Young America Broad-cast Seed-Sower!
Simplicity, Utility, Durability, and Cheapness Combined!

R. S. RICKET'S IMPROVED BROAD-CAST SEED-SOWER. Patented, March 29, 1859.
THIS machine is well adapted to sowing all kinds of grain and grass seed, hemp seed, &c. It sows more regularly than can possibly be done by hand, or by any other machine ever introduced. It is perfectly simple in its construction, and not liable to get out of order; it is easily unadjusted, and does away with the hard manual labor of sowing grain—doing the same amount of labor in two hours that could be done in one day by the ordinary method of sowing. The machine can be carried while being used, as it weighs but five pounds, or by a simple frame, it can be attached to a wagon. When it is carried, it is strapped on the body of the operator, a strap goes across the right shoulder and under the left arm, also a strap buckled around the body, and a strap from the top of the sack, around the neck. Should the machine by accident get broken, any tinner can repair it—although by proper care the Machine will last a lifetime. But to be appreciated, it must be seen.

I will sow the various grains and seeds the following distances:
Wheat, 50 feet at a cast, or 100 ft. at a round
Oats, 36 " " " 72 " "
Hempseed, 49 " " " 80 " "
H. G. seed, 36 " " " 72 " "
Timothy s.d. 25 " " " 50 " "
Other grains and seeds in the same proportion. It will also sow wet and lime grain perfectly well.

PURIFY THE BLOOD,
MOFFAT'S
Vegetable Life Pills
AND
PHENIX BITTERS.

THE high and envied celebrity which these prominent Medicines have acquired for their invariable efficacy in all the diseases which pining to cure, has rendered the usual practice of purging not only unnecessary, but positively harmful to the system. In all cases of asthma, acute and chronic rheumatism, affections of the bladder and kidney, bilious fevers and liver complaints, in the south and west, where these diseases prevail, they will be found invaluable. Planters, farmers, and others, who once use these Medicines, will never afterwards be without them.

Mercurial Diseases.—Never fails to eradicate entirely all the effects of Mercury infinitely sooner than the most powerful preparation of Sarsaparilla. Night Sweats, Nervous Debility, Nervous complaints of all kinds, Organic Affections, Paleolors of the Heart, Organic Chills. Pills—The original proprietor of these medicines was cured of Piles of 35 years' standing by the use of these Life Medicines alone. Worms of all kinds are effectually expelled by these Medicines. Parents will do well to administer them whenever their existence is suspected. Relief will be certain.

The Life Pills and Phenix Bitters Purify the blood, and thus remove all disease from the system. A single trial will place the LIFE PILLS and PHENIX BITTERS beyond the reach of competition in the estimation of every patient. Prepared by DR. WILLIAM B. MOFFAT, 335 Broadway, cor. Worth st., New York. J. FLEMING, Agent, at the Post Office, 3 y Oregon City.

Rev. S. H. MARSH, A. M., President.
Rev. H. LYMAN, A. M., Prof. Mathematics.

THE collegiate year, consisting of one term of nine months, will commence on the first Wednesday of November. It is the design of this Institution to furnish a thorough and complete collegiate education. There is a Library of 1000 volumes for the use of the students.

Applicants for admission to college must have a knowledge of the common English branches, and have studied the ancient languages so far as to have read portions of Cæsar and Cicero and the Greek Reader. The tuition fee is \$32 per annum.

Students bring for college, as well as others wishing to pursue collegiate studies without entering upon the college course, will be under the instruction of the college teachers. The fall term of 11 weeks in the preparatory department commences on the 24 Wednesday of September. Tuition, \$8 per term.

TUALATIN ACADEMY.
Tualatin Academy, for the coming year, will be under the direction and instruction of the College Professors, with such assistant instructors as they may find necessary to carry it forward efficiently and successfully.

The fall term will commence on Wednesday, Sept. 19, to continue eleven weeks. Tuition—Common branches, \$5; higher, \$8. A small additional charge will be made for fuel, &c. Instruction in Painting EXTRA, to such as receive it.

N. B.—The collegiate and the collegiate preparatory departments will commence on Wednesday, the 31st of October at the commencement of the last half of the academic term, at which time Prof. Marsh is expected, with competent assistant teachers from the East, to be ready to take his place in the Institution.

Prof. Lyman, with the assistance of Mrs. C. E. Adams, will carry forward the academic department till the return of Prof. Marsh, Sept. 1, 1860. 21ft.

Mill Seat and Land.
I HAVE an excellent MILL SEAT, surrounded with excellent TIMBER, which I would like to have improved. I will give some millwright who wishes to invest in a saw mill or grist mill, or both, a good chance. The location is one of the very best for selling lumber—a level way to the mill seat, no hills to pull over, and handy to heavy settlements.

I wish also to sell half a section of LAND near by. The place is six miles west of Lafayette, Yamhill county.

Valuable Property For Sale.
THE CHAMPOEG FLOUR MILL. THIS MILL, situated about three fourths of a mile from Champeog in the midst of the great grain-growing country in Oregon, is offered for sale. During high water in winter, flour, &c., can be shipped direct from the Mill. Attached to the mill is a granary for receiving and storing wheat, a dwelling house and garden for the use of the person in charge. The whole property embraces about five acres.

The machinery of the mill is of very superior quality, having been imported from Rochester, N. Y. There are two runs of the best French Burrs, and an extra patent run of smaller Burrs for chopped feed, &c. The frame-work, for strength, &c., cannot be surpassed in Oregon, and the mill in all respects is the best in the State.

For particulars, application should be made to GEO. F. ALLAN, Clatsop, or to A. AMOY HOLBROOK, Champeog, Jan 10, 1860 41ft Oregon City.

Sands' Sarsaparilla,
For Purifying the Blood,
AND FOR THE CURE OF
Scrofula, Mercurial Diseases, Rheumatism, Cutaneous Eruptions, Stubborn ulcers, Liver complaint, Dyspepsia, Bronchitis, Salt Rheum, Lumbago, White Swellings, Hip Disease, Enlargement of the Bones and Joints, Fever Sores, Female Complaints, Erysipelas, Loss of Appetite, Pimples, Bites, General Debility, &c., &c.

It has long been a most important desideratum in the practice of medicine, to find a remedy similar to this, and accordingly we had it resorted to almost universally in all those tormenting diseases of the skin so trying to the patient, and injurious to the health. It is a tonic, aperient, and disinfectant. It acts simultaneously upon the stomach, the cruetations, and the system, completely processes, which are ordinarily the result of various different kinds of medicine, are carried out at the same time through the instrumentality of this one remedial agent. Its great merit is that it meets and neutralizes the active principle of disease itself, and when that is gone, the symptoms necessarily disappear. The rapidity with which the patient recovers health and strength under this triple influence is surprising.

REMARKABLE CURE.
LANCET, Oregon Ter., March 11, 1855.

Mrs. A. B. & D. SANDS, New York: Gentlemen,—In the spring of 1853, while on our way from Indiana to this place, our oldest boy was seized with a swelling and severe pain in the legs which day by day grew worse, until his legs contracted, and became so painful that he could not walk, and we had to carry him about like an infant. We reached Albany on the 3d of October, completely worn out by fatigue. By this time, he was confined to a perfect skeleton. Here we were compelled to consult a physician. (Dr. Hill) who honestly confessed he could not cure him, although he could give him medicine that would relieve the pain. In this extremity something must be done, or death was inevitable. Being recommended to try your Sarsaparilla, I procured a bottle. After taking some, he appeared worse; but persevering with it, I obtained a second bottle, which seemed to gratify with the disease, and caused a marked improvement; the swelling and pain in the legs were reduced, his appetite improved, and his color began to return. This encouraged me to purchase a third bottle; while taking it the swellings in his legs broke, and some pieces of bone one eighth of an inch long came out, after which his legs straightened and healed up. He is now perfectly recovered, has no appearance of being a cripple, and can perform most kinds of common labor, as all our neighbors can testify. Yours, respectfully,

CALEB DAVIS,

PREMIUMS AND REDUCTIONS.

L. SCOTT & CO. NEW YORK, continue to publish the following leading British Periodicals, viz:
1. THE LONDON QUARTERLY (Quarterly).
2. THE EDINBURGH REVIEW (Weekly).
3. THE NORTH BRITISH REVIEW (Weekly).
4. THE WESTMINSTER REVIEW (Quarterly).
5. BLACKWOOD'S EDINBURGH MAGAZINE (Monthly).

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will supply a middle ground between the latter with news-items, crude speculations, and flying hints of the daily journals, and the ponderous tone of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is thus Periodicals that readers must look for the only really intelligent and reliable history of current events, and as such, in addition to their well-established literary, scientific, and theological character, we urge them upon the consideration of the reading public.

The receipt of Advance Sheets from the British publications gives additional value to the Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.
