

Latest from the East.
Capture of Fort Hatteras with 617 rebels!

Twenty Rebel Vessels Seized.
Defection of a Railroad Bridge in Missouri by the Rebels, causing a Loss of 15 Lives!

St. Jo., Sept. 7.—We are entirely cut off from all communication by railroad or telegraph with the east, and are unable to give later dates than Sept. 2d. Our city and all the roads leading out, are in possession of the rebels. When communications will be restored it is impossible to conjecture.

The following is the official report of the Hatteras Inlet affair to the Secretary of the Navy: "I have to inform you that we have been eminently successful; all has been accomplished. We are taking aboard the Minnesota officers and men numbering 617, who surrendered after bombardment from the fleet during portions of two days." Signd, H. Stringham, Comt. blockading squadron.

Articles of capitulation agreed to between Com. Stringham and Gen. Butler, and Barry and Martin of the Confederate navy and Andrews, commanding the land forces at Ft. Hatteras, stipulate that the forces under said Barrow, Martin and Andrews, all mounted men and property, be unconditionally surrendered to the Government of the U. S. Terms, full capitulation and that officers and men receive the treatment of prisoners of war. The expedition to Hatteras resulted in a signal victory over the rebels. The forces captured two sets, twenty-five cannon, one thousand stand of arms, and 715 prisoners, among them Capt. Sam. Brown, Lieut. Sharpe, and Dr. Brown, late U. S. Navy, and Maj. Andrews, late U. S. A. Losses on their side not yet known. Five are known to be killed and a number wounded, many of whom were carried away. Lieut. Mardock was among the number with loss of armament. We had no casualty of consequence.—The surrender was unconditional, 300 men loaded with heavy surf when the man-of-war sailed and commenced a heavy bombardment at 9:15 a.m. on Aug. 25th, and kept it up at intervals all day. It commenced on silk with increased efforts. The enemy attempted to land 1,000 men on the fort, but were driven back,—they displayed a white flag and were given quarter in accordance with discretion.

A number of the leading financiers, including the Presidents of some of the New York banks now in Washington, urge the President for certain changes in conducting the war. They propose that Government with an immense force cause the Rebels to desist the attack on Washington by making counter attacks at various points south of the State.

The Department will not issue passes bearing to pass from the loyal non-rebel States—since the passage through Louisiana was stopped, as demand for passes has been very large. Most of the applicants are women who have been living there.

It is stated that the 20th of August was the date when the rebels anticipated being in possession of Atlanta.

The remains of Gen. Lyon arrived at New York at 10 p.m. Aug. 24, and were received at the Hall by a guard of honor.

25th—Belonging to the rebels were seized at the Park Bank.

Government has removed the administration of the Journal of Commerce over small and numerous of the U. S. It knows comprehend.

Some Americans on the side, so far as we know, whatever party by rebels including General J. C. Frémont. Others are to be seen every day. The value of the vessels seized is \$1,000,000.

Among the papers now out at the meeting of San Souci's Congress in Dublin, was one by Mr. D. M. Smith, entitled "Victory Employment, and so forth." He said—our countrymen expected to be able to command a supply of cotton, &c., & were even liberally employed until now. The crop was growing in the Southern fields, but the difficulty would be to obtain it.

Dr. Miller's Phrenological Papers will be found equally efficacious in all cases of nervous debility, dyspepsia, headache, rheumatism incident to females in delicate health, and every kind of weakness of the digestive organs. MORNING LIFE PILLS.—The high and envied celebrity which these preventives now enjoy has excited the interest of our medical men in all the diseases which it promises to cure, has rendered the usual practice of obstetrics, pulling nothing unnecessary, but uncertainty of them. They are known by their front, that good works testify for them, and that they thrive by the fact of the medicines. In all cases of constipation, dyspepsia, bilious and liver affections, piles, rheumatism, fever and ague, obstruse head aches, and all general derangements of health, these Pills have invariably proved a certain and speedy remedy. A single trial will prove that these Pills beyond the reach of competition in the estimation of every patient.

RECENT: Sept. 3.—Yesterday the St. Joseph Hospital Hospital before 10 AM, was burned and the roof blown off by the rebels. When the explosion bound west came up, it was hard to see an instant, and the explosion over, negroes and other negroes were precipitated into the air. Fifteen were killed and twenty wounded.

PEACE ACCORDING TO THE SOUTHERN NEWS.—The papers in the secession interest are very fond of talking about peace, but the mode in which they propose to accomplish this object is somewhat doubtful.—Here, for instance, is a paragraph from the New Orleans *Crescent*, setting forth the only terms upon which the South will accept a peace:

"The North must be made to sue for peace, and be compelled to accept terms which we propose. This is the only way the war ought to be ended, and it is the only way it will be ended, unless the enemy in the meantime, as is highly probable, breaks down for want of means wherewith to carry on the war."

THE BLOCKADING FORCE.—The Government has now ninety-six vessels engaged exclusively in the war for the Union—Twenty-three new steam gunboats, each of thirteen guns, and eight steam sloops-of-war, each carrying fourteen guns, are in process of construction, and will be launched and ready for sea by the middle of October. In addition to this list, several vessels have been ordered home from the foreign stations. The new gunboats and sloops-of-war will swell the number of gunboats by the addition of four hundred and forty, so that by Fall we will have nearly twelve hundred guns on shipboard on our coast.

THE BALTIMORE AMERICAN has a statement from a Virginian who was in the battle of Bull Run. He says that the Confederates had three thousand slain in that battle. The Georgia Regiment was 600 strong when the battle commenced, and 450 of them were killed. The Virginian states that for ten days the army were so demoralized by their losses that the commanding officers could not do any thing with their disheartened men. A Savannah account confirms this statement; and says that "the beautiful Oglethorpe regiment lost 47 men, all young men and members from the best families."

ARIZONA IN POSSESSION OF THE REBELS.—The most disgraceful affair of the whole rebellion, is the surrender of six hundred Federal troops, under Major Lynde, of the regular army, to Col. Baylor and 300 Texans. There must have been base cowardice or rank treason on the part of the Federal Commander and his men. This shameful surrender places Arizona, with all its forts, in full possession of the rebels. There is a day of reckoning yet to come.

A letter from San Francisco says: "The U. S. Marshal is determined to arrest every man who dares to breathe trea-

THE GREATEST HUMOR OF THE DAY—

That treason in petticoats is entitled to any more consideration than treason in breeches.

It is hoped the administration will

soon get over its extreme delicacy in this

point, and insist upon a Right of Search in

every case, with its legal results and re-

sponsibilities.—*Vanity Fair*.

SANDS' SARSAPARILLA.—For the removal and

permanence of all diseases arising from an impure state of the blood, or blemish of the system.

This pleasant and efficacious remedy will gently stimulate the functions of the stomach and bowels to regular and healthy action, and without nausea or purging expel from all deleterious accumulations, purify the blood, equalize the circulation, tonise perspiration, improve the appetite, import and excrete in the system, and gradually, but surely, extirpate the disease.

LAW SCHOOL.

ALL NUMBER OF PUPILS SUFFI-

cient to warrant the undertaking can be ob-

tained, the undersigned will open a LAW

SCHOOL in the town of ALBANY, Oregon,

commencing the first Monday in December, or

sooner, if a class shall be made up before that

time. The design of the school is to afford a com-

plete course of legal education for young gentle-

men who intend to make law their profession in

any of the United States, except in matters of

more local law and practice; and the instruction

will embrace the various branches of the Common

Law, and of Equity, Admiralty, Commercial, Inte-

rnational, and Constitutional Law, and the Ju-

risprudence of the United States.

Instruction will be given by oral lectures, when

deemed necessary, and there will be daily recita-

tions and examinations upon the text. The course

of studies will be arranged so as to be completed in

two academic years of forty weeks each.

The year will be divided into two terms, with a

vacation at the end of each term. The tuition

fee will be \$120 for the academic year.

For the best dissertation, a prize will be award-

ed annually by one of the Judges of the Circuit

Court and by two members of the Bar, chosen for

the purpose.
