PREMISSES AND REDUCTIONS.

L., to publish the following leading British Periodicals, viz:

1. THE LONDON QUARTERLY (Con-

servative).

2. THE EDINBURGH REVIEW (Whig).

(Free Church).

3. THE NORTH BRITISH REVIEW

(Liberal).

5. BLACKWOOD'S EDINBURGH

MAGAZINE (Tory).

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hasty written news-items, crude speculations, and flying rumors of the daily Journal, and the ponderous tomes of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals that readers must look for the only really intelligible and valuable history of current events, as such; in addition to their well-established literary, scientific, and historical qualities, we urge them upon the consideration of the reading public.

The receipt of **Advance Sheets** from the British publishers gives additional value to these Periodicals, as soon as they can now be placed in the hands of subscribers about as soon as the original volume.

Who is older in Rev. Horace Bushnell's church, regarding the care of his daughter, who was to all appearances eligible for life with the noble disease, SCROPHULIA?

CINCINNATI, Feb. 25, 1858.

Mrs. A. L. SHILLER & CO.—

Dear Sirs— I trust it my duty to write you, and let you know what your Blood and Liver Syrup has done for my daughter, and that by publishing it others may benefit with the same disease my daughter has been afflicted with.

My daughter has been suffering with great pain in her legs, and was unable to walk, and became so painful that she could not walk, and had to carry her about like an infant.

We reached Albany on the 3d of October, completely worn out by fatigue. By this time, we were enabled to consult a physician. Dr. Hill, who kindly condescended to call and see him, also—so he could give him medicine that would relieve the pain. Dr. Bushnell—nothing more could be done, death was inevitable. Being recommended to try your Sarsaparilla I purchased a bottle.

After taking some, he appeared stronger, but perspiring with it, I obtained a small bottle, which seemed to agree with the disease, and caused a marked improvement; the swelling and pain in the legs were reduced, his appetite improved, and his color began to return. Thus encouraged, I purchased a third bottle, while taking it the swelling in his legs broke, and some pieces of bone one eighth of an inch long came out, after which his legs straightened and healed up. He is now perfectly recovered, has no appearance of being a cripple, and can perform most kinds of common labor, as all our neighbors can testify. Yours, respectfully,

CALEB DAVIS.
