

The Argus

"I look back on the days that are past,
I see no more of them;
The forms are empty winds."—*Ossian.*

When shall I see my native vale,
With its green fields and woodland fair,
Where gaily pass my life's young day!—
In fancy now I wander there.

Methinks I see the old brown house,
Which I was taught to call my home,
The orchard and the garden too,
And each spot where I loved to ram.

The forest, hills, and stream in stream,
I seem to view them at again,

And hear the voices that I heard

In early years pronouncing my name;

But recollection brings me back,

To this scene a stranger now,

Far, far from them I've long been gone,

And time and care have found my home,

And this poor heart will soon have done.

What last effort of pain & cheer,

Bared the sign my spirit leaves.

For friends who then to me were dear,

They, many one, from earth have passed,

And that scene a sad remembrance.

Whose image yet still sustains.

Changed, too, is now my spirit's sweet home,

Where like the birds I can lay my lay,

All thoughts that in years come

From hence I might be far away.

Like leaves before the autumn gales,

So, by life's changes we are driven;

Who could his better pastures tell,

Was my final home in misery given?

But O, I wish I could behold!

The home of early years once,

For others we pass so dear as that,

Few friends like early friends are true.

Laurens

Dr. W. M. HALL'S BALSAM

CURES all diseases of the LUNGS and throat. For the cure of consumption, chronic asthma, bronchitis, wasting of flesh, night sweats, spitting of blood, whooping cough, difficulty of breathing, colds, coughs, influenza, pleuritic pain in the side, and all diseases of the lungs, &c.

Is Unequalled!

Hall's Lung Balsam, in all cases, gives the best satisfaction.

Has wrought more cures since its introduction than any other single medicine.

Recommended by our leading physicians as the safest and best remedy now before the public:

Is suited to man among children, yet powerful in case of chronic pulmonary disease.

Very specific and efficacious daily of its wonderful virtues in all parts of the country.

There is no medicine within our knowledge that has acquired so great and wide-spread popularity, in so short a space of time, as DR. HALL'S BALSAM FOR THE LUNGS. Its balsamic and healing properties are magical. It is highly expectorant and tonic. It contains not a grain of opium or mandrake, the narcotic and stupefying properties which have created much prejudice against similar preparations.

We believe that, in medicine possessing real merits will effect cures whenever it is used, at home or abroad. Dr. Hall's Balsam for the Lungs is no paragon preparation, but, one which, if used in season, will save the lives of thousands. The most distressing cough is frequently relieved by a single dose, and broken in a few hours' time. The afflicted do not have to take twice as little doses as they had, whether this remedy will affect "ball" or not.

Read what Physicians say of Dr. Hall's Balsam. "Say on," "It, with confidence, recommends the Balsam as equal to any preparation." Another says, "I have used it with great success, and can confidently recommend it for all those complaints for which it is offered as a new remedy." Still another writes, "I have no hesitation in saying that it is a valuable and safe medicine."

Ready to use, close and neatness and dispatch. Pattern making in all its various forms, and Blacksmithing of all kinds.
