Washington, June 2d .- A dispatch has been received by the War Department from Gen: McClellan, dated noon, to-day, which says that yesterday, at ten o'clock, the enemy, taking advantage of the terrible storm which flooded the valley of the Chickahominv, attacked our right flank.

Gen. Casey's division, which was in the first line, gave way, causing temporary confusion, during which the guns and baggage were lost.

But Gen. Heintzelman and Gen. Kearny most gallantly brought up their troops, which checked the enemy.

At the same time the divisions of Gen. Sedgewick and Gen. Richardson were brought across the river and drove back the enemy at the point of the bayouet, corering the ground with his dead.

Dispatches of an anofficial character, received from the headquarters of the Army of the Potomac, say the importance and dimensions of our victory increase as the particulars are developed.

During the whole time of the battle before Richmond every movement of the enemy was reported from a balloon two thonsand feet in the air, which connected with the headquarters of Gen McClellan by telegraph. This is believed to be the first balloon reconnoissance ever successfully made during a battle, and is certainly the first time that a telegraph station was established in the air to report movements of the enemy and progress of the battle.

June 2d .- According to the statement of prisoners the object of the enemy's attack on McClellan's left wing, yesterslay, was to reach the river, and thus cut off our line of communication. This was the purport of an address to the troops before leaving Richmond in the morning.

Washington, June 3d - Disputches from the army before Richmond say, Our loss during the two days engagement in killed and wounded will amount to about two hundred. A great number are missing. who will probably return. All the enemy's killed and most of their wounded fell into our hands. The country in which the battle was fought is swampy, and most of the fighting was done in the woods. Owing to the nature of the ground, very little artillery was used. Four separate bayonet charges were made on Sanday. ing which one hundred and seventy-three rebels were killed with the bayonet alone. The enemy's dead left on the field numbered over twelve hundred. We have taken over five hundred prisoners, among them on the 27th. All sales and transfers of being several prominent officers. The ground gained by him reached over two and a half miles.

Dispatches from Corinth say that our cavalry found all the tents of the enemy standing, and they took hundreds of barrels of beef and five thousand stands of arms in one encampment on the line of the Mobile and Onio Railroad, said to belong to Gens. Van Dorn and Price, who left on Thursday night. Our eavalry have found the rebels in a strong position, with artillery posted, supported by infantry, on the several roads leading out of Corintle. The rebels commenced moving their sick and wounded last month. Beauregard and Bragg did not leave till Thursday.

The news of the overwhelming victory which the friends of the Union, a wholesome government, pure democracy, and human progress, have achieved over treason, secession, retrogression, and the conglom erate autagonisms of decency generally, has ere this been flashed across the wires that connect the two oceans, and filled the hearts of patriots everywhere with joy .-The only wailings over the result come from the holes into which the defeated candidates shows that the people of Oregon are freemen, capable of self-government, and possessed of patriotism, brains, and heart covering of "democracy," and then put their beels on the viper, with an enthusiasm that teaches demagogues and political Ju Washington, June 3 .- Advices from the duses that the day is past when despotism precaution to wrap their hunger-pinched

They have told the corrupt and dishouest demagogues of Oregon, who look upon political parties as machines to put them in office, that the day of political trickery and deceptive jugglery is nearly over-that the word "democracy" which elected poor Pierce, placed the reins of government in the hands of the infamous Buchanan, and lifted such men as Whitaker and Lane from their natural mire; has been divested by the rebellion of its talismanic influence, till it needs something more than this brand on the shirt of a traitor to lift an arrant blockhead and dissembling hypocrite into an important office. The people have told the ex-Judge and would be Congressman that there is no use any longer in running for office on the strength of what the old democratic party has done heretofore. The people have brains enough to see (if he hasn't) that the secession party, to which he belongs, is not the old democratic party, and that if his party is even descended from it, it is no more like its mother than the coarsest wool-covered oyster weach is like what we imagine the beautiful Eve was, from whom, didates and the niggers both descended -But even admitting what the rebels claim, that the secession brute is the same democratic cow that used to give such a fine pailful of milk, everybody is for turning her out to starve on the commons since she has taken to putting her feet in the bucket and switching her nasty bail into the face of the milkmaid every time she is slopped and pailed. The old "abolition" howl, which, with the "democracy" charm, has demagogues in Oregon, failed to move the as the rebels fondly hoped it would here: It is said to have been seed sown on stony running the North.
