

Oregon State Agricultural Society.

The Board of Managers of the Oregon State Agricultural Society met in this place on Tuesday, the 2d inst., and adjourned after a session of two days.

We hope and believe that the occasion will be one of great interest, and that the farmers of the State will very generally avail themselves of it, for the purpose of exhibiting specimens of farm products, besides enjoying it as a gala day.

It is believed that at the coming State Fair there will be the finest exhibition of horses ever brought together upon this coast, when the admirers of good stock will have a rare opportunity of witnessing the performances of this noblest and most beautiful of animals.

The premium list, we understand, was made out, and is said to embrace all articles produced upon the farm, and by handiwork generally.

EASTERN NEWS.

Sunday's Dispatch.

Chicago, June 2.—The following is the only one-sided account of the reports of the National Association at Chicago, on Friday, May 29, yet published.

By a clock on that morning, our artillery fired and destroyed these magazines in the forts. The first and largest of these magazines, situated on a hill in the rear of the city, was destroyed by the explosion of a shell, which was fired from the fort.

LETTER FROM A SICK SOLDIER.

We publish the following, as we have no evidence of its being incorrect, although the writer's statements reveal an indifference on the part of some of the woe of humanity that seems almost incredible.

Several of the enemy's guns. Port Hudson is now besieged and hemmed in. The fall of this stronghold will be certain, should Gen. Banks order an assault on the works. The garrison of Port Hudson is estimated at about 10,000. They are scantily supplied with provisions.

Additional news from New Orleans: The Breachers, La., dispatch of May 22d, states that the steamer Belle, was fired on between Breachers and Washington by Guerrillas. The Captain of the steamer was killed, and 10 men wounded. The fire of the enemy was returned and several of the enemy were killed, the others were driven off.

Washington, official dispatches from Vicksburg, of the 29th, indicates that there will be a change of affairs there, but the prospects of Grant are still encouraging.

Fortress Monroe, June 2.—The Charleston Courier of May 27th, says on Wednesday last the steamer Eagle left Nassau for Confederate port. During the night she was fired into and captured by a Yankee cruiser. The second shot killed 3 of her crew.

A fire at Williamsburg, N. C., destroyed a large warehouse filled with spirits of turpentine, 1,500 bales of cotton. The cotton belonged to the Government. The loss is believed to be very heavy.

Chicago, June 21.—The National City Convention met in this city today. Hammond, of Indiana, was the only man with one Presidential. Each State was represented. Nothing of importance transpired during the session. The Convention will probably adjourn to-morrow or next day.

Gen. Burnside has issued an order suppressing the Times, of this city, which causes considerable comment. It is believed that the President will revoke the order.

Cincinnati, June 2.—Col. Corwin defeated the rebels under Gen. Rodley, at Florence, Ala., on May 27th, capturing 8 officers, 109 men, 400 mules, and 300 negroes. He also destroyed a number of foundries, mills, and everything useful to the enemy in that vicinity.

Sterling quiet at 10:41 a.m. Gold irregular during the day, closing at 144.

No dispatch received to-day.

Discovery in the States.—Wm. Mitchell, Chairman of the Committee upon the Observatory at Harvard, Massachusetts, in his recent report, alludes to the discovery in the seeming neighborhood of Sirius, by means of the gigantic refractor of Mr. Alvan Clark, an object which had escaped the space penetrating power of any other telescope.

The Rebels and McClellan.—Now that the restoration of McClellan to command has ceased to be probable, the rebels, formerly so loud in his praise, have no hesitation in avowing their real estimate of his military abilities.

How fortunate for us that he was chosen chief of the Yankee army. With the immense numbers of his command, an officer of truth, courage, enterprise, and daring would have punished us severely.

Australia Returns to be Longer a Penal Colony.—A dispatch from Melbourne, dated Feb. 24th, says: The Government sent a telegram to the Heads to-day to intercept the mail steamer Madras, in order to forward by her to Mr. Childers, the London agent for the colony, the unanimous determination of the country, as represented by the Parliament, to resist to the last the transportation of any convicts to any part of the Australian continent.

The Iron Clads.—Ericsson, and other writers sustaining him, contends that the attack of the iron-clads on the Charleston forts resulted in no wise unfavorable to the prestige of those new floating batteries. The substantial advantage has been gained, and what is necessary to perfect them, is in a measure that they do not obey the rudder willingly.

Congress, a few days prior to the adjournment, passed a series of concurrent resolutions, with great unanimity, which put an extinguisher upon intervention projects, unless there be a foregone conclusion on the part of some power to have a rupture with us.

PERSONAL.—His Excellency, Governor Gibbs, paid Salem a visit last week. The Governor's health is excellent. He informs us that the necessary arrangements are being completed for the training of the State's arms among the companies which are being organized in several counties in this State.

BOISE MINES.—Chris. Taylor, writing from Boise Mines, says there are at least 7,000 miners at work in that vicinity, while many claims are yielding from one to five pounds per day, and a still larger number that average from one to two ounces.

ANOTHER CONCURRENCE.—The Ostrich, like our cattle friend on Ten Mile, is famed for the length of its legs. Like him, too, it is distinguished for its voracity, as well as for its incapacity to distinguish between meat and man.—Chinook for yours and mine.—Mountaineer.

AGRICULTURAL MEETING. The citizens of the counties of LINN, LAKE, POLK, and BENTON are requested to meet at the city of OREGON, on Friday, June 20, 1863, for the purpose of organizing a District Agricultural Society, to be composed of 10 counties, and to make arrangements for holding a FAIR at some point in said district.

LIVER COMPLAINT CURED. I was afflicted with a liver complaint, but my doctor failed to give me any permanent relief, although she tried his prescriptions effectually. She had become impatient, unhappy, and her constitution was much broken down by the use of Mercury. She tried Dr. Mott's Liver Pills, and soon began to get better. I am happy to say she has now entirely recovered her health. Respectfully yours, For sale by all druggists. JAMES COBB, Remedy & Co., Wholesale Agents Pacific coast, San Francisco, Cal.
