

along our line. Until 5 p. m. the fire was terrific. Rosecrans began to grow anxious. Rebels steadily advanced driving back all before them and from this hour till dark fight raged with destructive fury. At dusk fight had almost ceased. Enemy threw forward fresh troops on our right.

Our loss is very heavy. Rebel prisoners say some of our regiments were nearly annihilated. Both armies occupy the same ground as when the battle began. We took several hundred prisoners, many of them from the East.

New York, Sept. 20.—A Morris Island letter represents the rebels busy repairing Sumter. Steamers are constantly plying between Sumter and the city carrying out material. Deserters say that they are repairing Sumter and placing more batteries on James Island. Beauregard intends to assume the offensive in order to regain if possible Morris Island. Charleston is said to be full of rebel troops. Other accounts say it will be weeks yet before Gibraltar can open on Charleston. The mounting of the heavy guns on the north end of Morris Island is slow work, under the fire of rebel batteries. Gilmore has issued a congratulatory order to the troops in which he says "Charleston and its harbor lie at the mercy of our artillery."

New York, Sept. 21.—Gold 130.—The steamer McClellan from Morris Island, on the morning of the 16th has arrived. Gilmore was mounting heavy guns on Cummings Point, to shell Charleston. This rebel fire from James Island still continues but is not very effective. Sumter is still held by the rebels.

Baltimore, Sept. 20.—A Fortress Monroe telegram says there is a rumor here and believed that Richmond is being evacuated.

New York 21st.—A person who left Richmond a few days ago gives the Herald the following:—

Lee's army is located near Hanover, only about 30,000 men fit for duty. It is understood that if Meade advances, Lee will fall back to Richmond. The rebels have no idea of evacuating Richmond.—Informant was at Charleston when Gilmore's men boarded the city. One of the shells struck within a half mile of each other, causing great consternation. The city is nearly deserted. Beauregard had about 9,000 men, but his force had since been increased by Jenkins' division to 14,000. Beauregard lost much popularity when the National troops took Morris Island.

Knoxville, 15th.—On Wednesday Lieut. Col. Hays, with 200 men of the 19th Ohio, was attacked near Gallatin, 93 miles up the railroad, by 1,400 rebels under Jackson. After fighting gallantly for two hours, our forces, being heavily killed and wounded, were compelled to surrender to overwhelming numbers.

Saturday's Dispatch.—New York, Sept. 21.—The World says private advices represent that there is considerable feeling in New Orleans on the question of intervention, especially among the French and creole population. This feeling has been much stimulated by the news from the North. It was known to French Consul at New Orleans that the French would occupy Matamoros with 4,000 or 5,000 men. A collision was expected between the French and Federal gunboats at the mouth of the Rio Grande on some matter connected with cotton and Confederate supplies.—The feeling in regard to intervention was recently indicated by an advance of 5 per cent. in Confederate bonds. Ex Governor Morehead, of Kentucky, now in Paris, is positively alleged to have written to a friend in New York, that Napoleon and Jeff Davis had formed a secret treaty for recognition through agency of Sidel.

The Washington special of the Herald says that Stephens' mission to Washington was to consult with Federal authorities as to whether satisfactory terms of compromise might be arranged so as to save Confederate the disgrace of inviting foreign aid, said to be in an arrangement with France, she to assist rebels with fleets and armies in exchange for Texas. It is said Stephens is now in Paris effecting this arrangement.

New York, Sept. 21.—Money easy at 5 1/4—6 3/4 per cent. Sterling 53 1/4. Gold opened 130 1/2 and closed firm at 141. Government stocks without change.

A special from army of the Potomac says rains of 18th have swollen Rapidan river several feet. We have lost in skirmishes in last week 93 men and 5 officers.

Washington, Sept. 21.—Army quiet on Rapidan, the enemy being strongly posted on north side with a few troops on both sides some distance up stream. No signs of offensive movements. It is pretty well understood that both Longstreet's and Ewell's corps have been sent to Bragg.

St. Louis, Sept. 21.—Steamer Marietta was boarded and destroyed on 16th, at Dover Landing, Lafayette county, Mo.—Three soldiers were killed. During the past week 5,000 persons have crossed the river at Lexington. Mostly refugees from border counties. Messengers recently arrived at Fort Scott report Coffee at Cow skin Prairie with 1,500 men. Quantrell had passed Balls Bluff with most of his command. It was supposed he was going to join Coffee. Blunt is on his way up with small escort.

Chicago, Sept. 21.—A late number of the Chattanooga Rebel, now published at Marietta, Ga., contains an order from the Governors for all who can supply themselves with arms to report at nearest rail road station for transportation to Bragg's army. The Governor informs the people that he has sent forward 15,000, and expects over the call. He says the stations are alive with men anxious to join Bragg.

Washington, Sept. 21.—The National Republican says the enemy attacked Rosecrans Sunday morning, the 20th, at 9 o'clock with overwhelming force. The battle raged furiously all day. According to latest accounts which left Chattanooga at 8 p. m. last night, two and only two divisions gave way in utter panic and confusion. From 8,000 to 10,000 of these were repulsed and got back to their places, while the remainder of the army had not retreated, and at the latest moment was driving the advance of the rebel army back. This we know to be the latest news here.

The number killed and wounded on both sides will probably not fall short of 30,000.

Louisville, Sept. 21.—Midnight.—Not a word from Rosecrans' army today. Rumors are current, though not traceable to any reliable source, that a large part of Grant's army is rapidly marching to aid Rosecrans. That an engagement between the armies is still progressing. Military authorities here do not believe any disastrous results have occurred to the Army of the Cumberland.

THE LATEST. TO-DAY'S DISPATCH.

Rosecrans All Right!

Washington, 20th.—Dispatches from Rosecrans dated Chattanooga afternoon of the 20th, received by Government this morning, say the enemy's attack on Thomas' camp on Monday afternoon, 21st, was head-on to the position they were about to take when assembled. An official dispatch dated Monday, 21st, says two divisions of Longstreet's corps made a reconnaissance towards Rosecrans, but no attack was made. Rosecrans' order for concentrating his entire command was accomplished on Monday night. He was in strong defensive position, and can easily wait until reinforced. 4,000 of our wounded were removed from the field after Sunday's battle. In two or three days Rosecrans will be able to resume the offensive.

Louisville, 23.—Special dispatches from Nashville to the Journal just received say there was slight skirmishing yesterday in front of Rosecrans, otherwise all was quiet up to the 23d p. m.

Fortress Monroe, 23d.—The Richmond Dispatch of the 23d has the following:—"Chickamauga, Ga., 20th.—After two days' hard fighting, I have driven the enemy after a desperate resistance from several positions, but he still confronts us. The losses are heavy on both sides, especially in officers. We have taken 20 cannon and 2,000 prisoners. Bragg."

The Richmond Dispatch says: Rosecrans has been heavily reinforced from Grant's army. The Confederate government has effected a loan of 100,000,000 francs from parties in France, based on cotton now in this country.

New York, 22.—Contract for manufacturing and laying down next summer a good submarine cable between Ireland and Newfoundland, was signed at London, Sept. 5.

Sandy Hook, 23d.—The China from Liverpool 12th, and Queenstown 13th has arrived.

London, 12th.—The Government has certainly resolved to stop the steam rams in the Mersey. The Florida is detained at Bristol to satisfy French claims. It is again positively asserted that Maximilian accepts the crown offered to him.

New York, 23d.—Money steady; Sterling lower, 5 1/4; Gold lower, opening at 140, declining to 136, and closing at 137 1/2.

Col. Maury's Command. CAMP NEAR OLD FORT HALL, Aug. 23, 1863.

ED. ANGEL: Col. Maury's command arrived here on the 17th, all well, and the stock looking fine. The command left Boise on the 24th of July, having been delayed there some time waiting for supplies and means of transportation. While encamped on Boise we were within a few miles of the place where the Van Norman party was attacked and murdered by the Snake Indians about three years since.—It was supposed the Snakes would be found ready to meet us in Camas valley, about a hundred miles from Boise, arriving there they had all been exterminated by the United States army of the country. After scouting the entire country for miles around, without seeing an Indian, Capt. Curry, with twenty men of Co. E, made a trip to Salmon Falls on Snake river, distant about 50 miles, and found near 200 Indians, who met him without arms and with professions of friendship. They were the poorer part of the tribe, having no stock. The Captain took two of the men and brought them to camp, from whom it was learned that the greater part of the Indians, with about all the horses, had gone off east to make a treaty with Gen. Connor. Here Colonel Maury concluded to divide the command, leaving Maj. Emmons, with two companies of infantry and all the cavalry except one hundred men, to remain in camp, and with the one hundred men and 35 days' supplies, Col. Maury marched on for this place, hoping to find here the Indians that he was sent out to chastise, but on reaching this place Col. Maury received a letter from Gen. Connor stating that a treaty had been made with all the Snake Indians. This of course put an end to all the bright hopes of the soldiers of being of some service in subduing the Indians that have so long been a terror to the emigrants. We will turn our faces homeward in a few days, but we have but little confidence in any professions of friendship by these savages.

Capt. Crawford arrived here on the 17th with the emigrant escort and about eighty emigrant wagons. The stock all looks well, and the Captain seemed to think it had been the best year for grass that he had seen in the several trips he has made over the plains. The emigration this year is small; not over 400 wagons will go in to Oregon and Washington this season.—From what I can learn the greater part of the emigrants are anything but loyal.—We met a large train of Dr. Keil's people on the road. They are going to settle at Aurora, Marion county. They are all Union men. Our whole command will probably winter at Walls Walla.

Mr. Louis Breitenbacher, near Santiam City, accidentally shot himself on Tuesday week, inflicting a severe wound in the left arm, the entire load (of shot) passing through.

DROWNED.—John London was drowned in the South Fork of the Santiam river last week.

The "Democratic" State Central Committee will meet in Albany on the 15th day of October next.

The Nashville Press announces that the Hon. Emerson Etheridge is insane. We have expected it for some time. Mr. E.'s calamity is much to be deplored, for he was a man of fine powers.

MARRIED.—It is now said it was the death of Wm. McCreedy, the celebrated Irish painter, and not Macready, the tragedian, that was mentioned in the late European news.

The number of killed in the New York riot has been estimated at from 300 to 500.

NOSE EYES. HAMILTON, Ohio, Oct. 6, 1859. Messrs. A. J. ROBERTS & CO. I feel it my duty to inform you that I have been afflicted with sore eyes for several years. I tried the doctor's prescriptions, and all the remedies which I thought would do me any good, but all failed to cure me. I got Dr. Roberts' Liver Pills, and after the use of three boxes, I am entirely recovered. I also find that the best Pills I ever used in my family for a Cathartic and Blood purifier were your Liver Pills. Respectfully yours, WILLIAM POWELL. ROBERTSON & Co., Wholesale agents Pacific coast, San Francisco, Cal.

Wanted, 20,000 BUSHES FLAX SEED delivered in Salem, next summer, for which I pay 2 1/2 cents per bushel—paid in 15 days. Farmers having seed on hand, can obtain the above price by sending their address with the No. of bushels on hand, to my address, Salem. Farmers wishing to engage in raising seed, I will also buy LINT. JOSEPH WATT. Salem, Sept. 7, 1863.

Notice. State of Oregon, In Probate Court, Sept. Term, 1863. O S THIS 7th day of September 1863, came M. H. Hendrick, Administrator of the Estate of D. H. Osburn, deceased, and presents his account for final settlement of his administration of said estate. Whereupon it is ordered that he lay the same on file for the purpose of being audited by the court on the 15th day of October next, at 10 o'clock a. m. in the County of Clatsop. The court will sit on the 15th day of October next, at 10 o'clock a. m. in the County of Clatsop. JOSEPH WATT, Clerk.

Spencer Hall, Milwaukie, Oregon. The exercises of this Institution, (Third year) will be resumed on TUESDAY, 22d Sept. next, at 10 o'clock a. m. THOMAS F. SCOTT, Secretary.

MARRIED. At the residence of the bride's father, on Sept. 15, by Rev. H. S. Gorman, J. P. Mr. E. H. Riggs to Miss Sarah Jane O'Brien, all of Clatsop county.

At the Forks of the Santiam, Sept. 18th, by Mr. W. Hester, J. P., Wm. H. Morrison and Mrs. Mary E. Thomas.

At the Forks of the Santiam, Sept. 18th, by Mr. W. Hester, J. P., Robert Miller and Mrs. M. M. Terry.
