A RETURN TO VETERANS.

It is interesting to present the following account of the various patriotic movements now being carried on in behalf of the soldiers of the United States.

It is reported that a large number of veterans are now gathered in the vicinity of Washington, D.C., to take part in the celebration of the Fourth of July.

The program includes a parade of the veterans, a speech by a prominent politician, and a fireworks display.

A NEW WORK.—Mr. Brady is about to publish a new edition of his book, "The World in Flames," which has already been a great success.

The book is intended to give a full account of the various battles and engagements of the Civil War, with many valuable maps, plans, and sketches.

It is said to contain a vast amount of information regarding the tactics and strategy of the two opposing armies, and the events leading up to the final outcome of the war.

A new edition of the book is expected to be published in the near future.
