MUSEUM! MUSEUM!

AN INSTITUTION is being formed in this place to be exclusively devoted to the advancement of science in this country, and especially of the physical or natural sciences, which requires, as a basis, a MUSEUM, or collection of specimens in the various departments, such as Botany, Geology, Zoology, Oology, etc.—therefore all persons are invited to assist by collecting and sending us such specimens as they may be able to obtain.

Skins of all kinds of animals, whether common or rare, whether feathery or hairy. If persons do not wish to spend their time in removing the skin, send us the bird or animal and we will attend to it ourselves. In skinning, the bones of the head and legs should be left, after displacing the skin sufficiently to remove the flesh, eyes, etc. As the skull is also a fair index to the structure, nature and habits of animals, a collection of them, of all kinds, whether they be of things which walk, crawl, fly or swim, are wanted. Entire skeletons would be preferred.

10 BUSHELS of birds eggs wanted, this coming spring and summer, to assist in the perfection and study of the new science of Oology—eggs of even the most common kinds of birds. A description of the nest, its position and structure, also of the kind of bird, and the time when it lays its eggs, are necessary, and should be accompanied by the head and wing of the bird.

Rocks of all kinds wanted, especially those containing fossils, the different kinds of metals, etc.

Plants of all kinds, with their flowers, collected and preserved in herbariums, whether described or not, are also wanted.

Those interested in the progress of science in this country will find it a favorable opportunity for rendering their assistance; and to the young especially, we would say, you cannot engage in a more interesting and laudable enterprise than making collections of the desired specimens.

Specimens of all kinds designed for the Museum may be left at the office of the State Geologist, and all addresses should be to HENRY CUMMINS, Eugene City, Oregon. Feb. 8, 1862.

J. B. Underwood, NOTARY PUBLIC, will punctually attend to all business entrusted to his care. Eugene City, Oregon. 7-4f

Sands' Sarsaparilla, FOR THE REMOVAL AND CURE OF All Diseases arising from an Impure State of the Blood or Habit of the System.

IN this preparation are strongly concentrated all the medicinal properties of Sarsaparilla, combined with the most effectual aids, the most salutary productions, the most potent simples of the vegetable kingdom; and the combination is such that one modifies and improves the other, producing a compound differing entirely in its character and properties from any other preparation, and unrivaled in its operation on the system when laboring under disease. It has been so fully tested, not only by patients themselves, but also by physicians, that it has received their unqualified recommendations and the approbation of the public; and has established on its own merits a reputation for value and efficacy far superior to the various compounds bearing the name of Sarsaparilla.

FROM THE ARMY. MONTELEY, CAL. Jan. 15, 1850. MESSRS. A. B. & D. SANDS—Gentlemen: I beg leave to add my testimony in favor of your invaluable medicine, hoping it may lead some other unfortunate beings to try its effects and that they may be benefited as I have been. I arrived here by the overland route, about the first of October last. A few days after I was attacked with a very disagreeable eruption of the skin, which my physician could not cure. I happened to find your Sarsaparilla in a store in this place, and remembering the popularity of the medicine at home, I purchased three bottles, which had the desired effect of removing my disease entirely. With high regards, yours, etc., J. H. MILLER, Lieut. U. S. A.

OLDNER'S DELTA EYE OPENER.

A healthy, pure, invigorating American Drink, peculiarly adapted for a Southern or Tropical Climate, and strongly recommended as a family stimulant, by the most eminent Medical Men in the United States and Europe.

The Proprietor of this truly celebrated beverage, in his long experience as one of the largest Importers of first-class Wines and Liquors in the city of New York, has long felt the want that existed in every family, of a Tonic, which could be used with benefit, by every household, from the child to the adult, and in compensating this beverage, his aim has been to use only the purest material, with the most recherche flavoring, thereby fully established the fact, that a vast degree of benefit accrues from the use of this stimulant, in comparison with the vile compounds so extensively manufactured and foisted on the public, under the endorsement of a paid analytical certificate.

In the Atlantic States, this truly National Drink supercedes the use of all others ever introduced to the American public, in addition to which it is now extensively used in Europe. The Kings of Belgium and Sardinia have both ordered supplies, from samples sent direct to our Consuls, as has also the King of the French Coast, as well as the highest circles in London, Liverpool and Antwerp; in fact, it is adapted to all climates and classes, but more particularly to the South, the proprietor having always the grand object in view of producing a cordial which would materially arrest any disease, incidental to a hot climate, while he guarantees that the regular use thereof will effectually prevent any of those symptoms, habitual in a trip to or a residence in the South.

The entire press of New York, from actual experience, attest to the value of this delicious Family Invigorator. JOHN G. OLDNER, Inventor and Proprietor. Abbott & Oldman, Agents, 15-5m 406 Front street, San Francisco.
