KISS MY WIFE OR FIGHT.-A stalwart rustic bridegroom was known as a formidable operator in a "free fight." His bride was a beautiful and blooming young girl of only sixteen years of age, and the twain were at a party, where a number of young folks were enjoying themselves in a good old fashioned pawn playing style. Every girl in the room was called out and klssed, except Mary, the beautiful young bride aforesaid, and although there was not a youngster present who was not dying to taste her lips, they were restrained by the presence of her herculean husband, who stood regarding the party with a sul-WET THE POWDER .- Two Irishmen in a re- len look of dissatisfaction. The following from the pen of Dr. Franklin, the great American Philosopher, deserves to be printed in letters of gold, to be read by children, ind to be read by children, near a dozen times each, and there's my wife, who I consider as likely as any of them, has not had a single kiss to night, and I just tell you now, if she don't get as many kisses the balance of the night as any gal in the room, the man that slights her has got me to fight-that's

all. Now go ahead with your playing!" If Mrs. Mary B-was slighted during the balance of the evening, we did not know it. As for ourselves, we know that John had no fault to find with us individually, for any neglect on our part.

My uncle possessed a daughter, an only child.	۴
She was about eighteen, and a more beautiful

"Time passed on, and the clouds began to thicken which were eventually to burst, and in-volve in evil war this once happy land My beautiful cousin began to take a more than cous-inly interest in me, I thought. Her whole aim seemed to be to please me. She lavished on me her sweetest smiles, and appeared to prefer my society to that of either of the gallants who worshiped at her shrine. Of course I felt flattered these attentions, and must I say it ?- the sweet, f.ir face of my Northern betrothed began to grow dim in my memory. Alas for man's fickleness! Her miniature, which I had carried nearest my heart, was given a place in my trunk. Her letters came as ever, long and full of love and trust; mine grew shorter and cooler in tone. But I feigned 'want of time' for not writing as formely. My consin Isabel was of her tather's sentiments. I need not tell how she gradually drew me into her views, and I came to think the Southerners were an oppressed people. I forgot that I was a man, forgot all the holy yow I had made, all my obligations to my country, and only remembered one object-the beautiful sy ren who was leading me on to destruction .-

"I'm drafted !" "The deuce you are ; it must have been a trong man that drafted you." "Well, I'me drafted and I want to get out, an't march. I'll pay well." "Very well." The twain proceeded to the office of the Commissioner. "Here," said the lawyer, "Commissioner, I've ot a substitute." Commissioner looked at the wheezy speci men for some time, "He won't do; can't "But he must do," blustered out the lawyer, and you know he will." "He can't march ; he won't do ; and I can't ake him." This was what our smart friend wanted. "He won't do, eh ?" "No he won'l! "Well, then scratch his name off the list ; he drafted, and wants to be exempted !" The Commissioner looked at the lawyer for bout a minute ; then regarded the fat draft, and without speaking a word, scratched off his name!" How THEY FIRE IN BATTLE .- You wonder whether the regiment fire regularly or in vol leys, or whether each man loads and fires as fast as he can. That depends upon circumstances ; but usually, except when the enemy is near at hand, the regiments fire only at the command of their officers. You hear a drop, drop, drop, as a few of the skirmishers fire, followed by a ratle and a roll, which sounds like the falling of a uilding, just as some of you have heard the brick walls tumble at a great fire. Sometimes

THE OCEAN AND THE RAIN .- The Atlantic Ocean includes an area, of 25,600,000 square miles. Suppose an inch of rain to fall upon only one fifth of this vast expanse, it would weigh men form into a square, with the officers and one fifth of this vast expanse, it would weigh musicians in the center. THE FRENCH .- A late dispatch to the Sacramento Union, contains the following :

The New York Tribune says editorially that tucky : a letter from a well informed source at Paris states that a few days before the letter was written, the Minister of Foreign Affairs, Drouyn had don worked twenty six years faithfully for that a modification of his policy was required by the public voice, and that he (de l'Huys) was so far committed to the present policy that he could not change. He therefore tendered his resignation, recommending Lavalette as his successor, He said that the modifications needed were, in the first place, greater liberty in regard to Italy; all de "last ditches," as I often heard him talk secondly, the withdrawal of the French army from Mexico, and a treaty with that power ; thirdly, joining in a note to be signed by England, Russia and the Confederate authorities, taking the ground that as the rebellion has now ad c, all my obligations to my communication has been they would dish upon a picket index all my obligations to my communication has been they would dish upon a picket in who was leading me on to destruction.
