Sands' Sarsaparilla,

FOR THE REMOVAL AND CURE OF

State of the Blood or Habit of the System.

In this preparation are strongly concentrated all the inedicand properties of Sarsaparilla, combined with the most effectual ands, the most salutary productions, the most potent simples of the vegetable kingdom; and the combination is such that one modifies and improves the other, producing a compound differing entirely in its character and properties from any other preparation, and unrivalled in its operation on the system when laboring under disease. It has been so fully tested, not only by patients themselves, but also by physicians, that it has received their unqualitied recommendations and the approbation of the public; and has established on its own merits a reputation for value and expressor for the various compounds bearing the name of Sarsaparilla.

The undersigned commenced, in the month of December last, the publication, in this city, of a weekly newspaper, called the National Republican.

It is printed on a large sheet, twenty-seven by forty-two inches, and is furnished at the low prices stated below.

It will contain all the original matter of the daily National Republican, with the exception of local news not interesting to country subsciibers. It will give full reports of the proceedings of Congress, and of the other departments of the day, foreign and domestic, markets, etc., as well as original correspondence from all parts of the country. The miscellaneous department will receive special strention and, in all respects, the effort will be made to establish the character of the National Republican as a Family Newspaper, Washington being now the central point of the current military operations, great attention will be paid to furnishing the readers of the National Republican with full, and especially with securate, wecomets of the progress of the war for the Union.

Every article necessary for a complete News, or Job Printing Office, furnished at the lowest prices.

Also, Agents for Taylor's Gordon's December 1881.

In polities, the paper will be Ropublican, austaining the Administration of Mr. Lincola, but disclaiming, however any pretention to be the organ of the President. There is no Republican paper in the District of Columbia, or in the vicinity of it, and it is believed that recent events have opened to such a paper an important sphere of useful effort. The time has come, when the actual administration of the Government apon Republican principles will explode the misrepresentations which have made those principles so distasteful to the South. But it is not only here, and in this vicinity, that the projectors of the National Republican hope to make it useful. To the whole country they offer a ournal which will discuss national politics from a national standpoint, and which will never be swerved from patriotis duty by any overpowering pressure of local interest.
