Sands' Sarsaparilla, FOR THE REMOVAL AND CURE OF All Diseases arising from an Impure State of the Blood or Habit of the System.

IN this preparation are strongly concentrated all the medicinal properties of Sarsaparilla, combined with the most effectual and the most salutary preparations, the most potent simples of the vegetable kingdom; and the combination is such that it modifies and improves the other, producing a compound differing entirely in its character and properties from any other preparation, and unrivaled in its operation on the system when laboring under disease. It has been so fully tested, not only by patients themselves, but also by physicians, that it has received their unequalled recommendations and the approbation of the public; and has established on its own merits a reputation for VALUE and EFFICACY far superior to the various compounds bearing the name of Sarsaparilla.
