THE Schooner UMPQUA, under the command of S. D. Himsdale, sailed from Umpqua river for San Francisco, on the 6th of May, and intends making regular trips betteen these two ports.

It is only necessary we believe, to remind the importers of Umpqua that this vessel—the Umpqua—is the first ever hannehed on the waters of the Empqua, to insure their patronage and support. This vessel will discharge her cargo at Scottoburg, and at the rate she intends to carry freight, will not only save the shipper a very considerable item, but save him the transportation up the river, and thereby enable him to receive his goods without so much handling as heretofore. In fine, the Schooner Umpqua, of Scottsburg, is a real Umpqua cast and being the first on the list in this greas reform, confidently relies upon all the Umpqua for support and encouragement.

For freight or passage apply to Allan, McKinlay & Co., Scottsburg, or to the Capt. on board. Merchants wishing to ship from San Francisco, can apply to Allan, Lowe & Co., 132, Clay st., or to the Captain.

To calm our sufferings and assauge our woes.

The Petroleum has been fully tested. It was placed before the public as a remedy of wonderful efficacy—Every one not acquainted with its virtues, doubted its healing properties. The cry of humbag was raised against it. It had some triends—those that were cured through its wonderful agency. These spoke out in its favor. The lame, through its instrumentality, were under to walk—the blind, to see. Those who had suffered for years under the torturing pains of libeumatism, Gout, Neuralgia, were restored to health and secfulness. Several who were blind have been made to see, the evidence of which will be placed before you. It you still have doubts, go and ask those who have been cared!—Some of them live in our midd, and can answer for themselves. In writing about a medicine, we are aware that we should that cannot be proved. We have the willnesses: crowds of them, who will testify that the Petroleum has done for them what no medicine ever could before :cases that were pronounced hopeless, and beyond the reach of remediate meana: cases abaudoned by physicians of unquestioned celebrity, have been made to exclaim,. "this is the most wonderful remedy ever discovered!" We will lay before you the certificates of some of the most wonderful remedy ever discovered!" We will lay before you the certificates of some of the most wonderful remedy ever discovered!" We will also before years than would be allowed by this circular. DR. J. L. CZAPKAY'S Grand Medical and Surgical Institute, Armory Hall, corner of Sacramento and Montgomery sts., San Francisco, California. Established for the Permanent care of all Private and Chronic Diseases, and the suppression of quackery.

Dr. J. L. CZAPKAY, late in the Hangarian Revolutionary War, Chief Physician in the 20th Regiment of Honveds, chief surgeon to the military hospital at Pesth, Hangary, and late lecturer on Diseases of Urinary Organs and Diseases of Women and Children, would most respectfully inform the public of Oregon and California that he has opened an institute for the cure of Chronic Diseases of the langs, liver, kidneys, heart, blood, brain and the horrid consequences of self-abuse, and he hopes that his long experience and successful practice of many years, will insure him a share of public patronage. By the practice of many years in Europe and the United States, and during the Hungarian war and campaigns, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no Mercury—charges moderate—treats his patient in a correct and homorable way—has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him by letter, or otherwise, will receive the best and gentlest treatment, and implicit secrecy. The Dr.'s offices are at Armory Hall, corner of Sacramento and Montgomery sts., San Francisco, California.

SPERMATORRHEA OR LOCAL WEAKNESS.

Dr. L. J., Czapkay would call public attention to spermatorrhee or local weakness. There is not in the catalogue of human mutables one more to be deprecated than this, as well because of present distress, as the ultimate results. The tone of the system under its influence is either impaired or entirely destroyed, and a class of symptoms superinduced that units man for the performance of any of the ordinary duties of life. The injuries done to the physical part of man is truly humentable, but triffing when compared to those of the censorium, the great nervous center, and to the nervous system generally. This disease, which is too often consequent input that sofflary vice, self-abuse, involves pathological conditions beyond the comprehension of the minutabled, but which are well understood by the regular practitioner. Among the symptoms most conspisuous are the following: Love of solitude, aversion to business and society, distressing thmility, nervous excitement from elight causes, loss of memory, confusion of ideas inability to reason correctly. Iow spirits and hesitude, dallaces of apprehension and misuathropy.

These being functional derangements, are often the harbingers of harrid organic lesions of the brain, which produce fatnity, dementia and death.

For the cure of this and all kindred diseases, Dr. Czapkay has established his Institute, where all may rely with perfect confidence upon that skill which long experience and thorough devotion to his profession has given.

Those who suffer should call or write without delay,

and use the means by which they may recuperate an

SECRET DISEASES.—DR. L. J. CZAPKAY'S EXDiracrdinary success in the treatment of secret diseases in the primary and other stages, induces him to
call public attention to the fact that of the great numbers who have made daily application to him, there is
not one who has not been effectually and permanently
cured. In recent cases of private diseases, the Dr. gmaanties a perfect cure in a few days who not hindrance
to business or other inconvenience. The Dr.'s method
of treating these unladies, combines the improvements
made by the medical faculty with discoveries of his
own that are unknown to any one else, and which, when
applied, prevent the possibility of evil after consequences.

Secondary symbilis, which is so destructive of health.

applied, prevent the possibility of evil after consequences.

Secondary syphilis, which is so destructive of health, producing discrations of the throat, destroying the soft parts, and leaving the bones exposed, which mortify, separate and come away, disfiguring the sufferer most horribly, as well as impairing his general health, and predisposing to consumption, the Dr. treats in the most certain and efficient manner. Also, painful swellings upon the bones, distiguring spotches upon the skin, sores, pimples, and all other consequences of private diseases he guaranties to cure or asks no compensation.

Dr. C. would especially call the attention of those who have failed to obtain relief from others, many of whom he has already cured, and many are still under treatment. The Dr. makes no charge for consultation, and invites all to call at his lastitute; and he will give them such satisfaction as they can obtain nowhere else.—Those at a distance, by writing to the Dr., can have their cures properly attended to. Of DR. CZAPKAY'S Proorma. Activity. Celf-disinfecting agent.) a sure preventive against secret diseases, and an unsurpassed remedy for sorofulous, gangrenous and cancerous elecers, and all entanous eruptions and diseases. For sale at Dr. Czarkay's Office, Armory Hall, corner of Sacramoute and Montgomery sts., San Francisco, Cal. As inacolation is preventive against small pox, so is Dr. Czapkay's Prophilacticum a preventive against secret disease. That they can be prevented by proper agents, is as well an establishment. This principle, which is nowluniversally recognized, was received even before the days of Jenner, the discoverer of vaccination, in 1796, and its multiplied benefits ever since have received as they descreed, the attention of the Medical faculty. It was in pursuit of this branch of the medical science that Dr. L. J. Czapkay fortunately made the discovery of his Prophylacticum, which, for the cancerous and cutanous disorders, stands unrivalled by any agent in the Pharmacopera. The modus operand of this medicine is explained upon the hypothesis that secret poisons passess chemical properties which are neutralized by being brought in contact with this prophylatic, as acids are known to neutralize alkalies, destroying entirely their original properties, and rendering them inert.—The effect of this agent is immediate, and removes the possibility of a contraction of disease. If, however, the disease has been contracted, it is useful in neutralizing the poisonous secretions, which by aisorption, produce the consequences known as secondary disease. In cancerous and gangerous alers, in feetied discharges and in entanous diseases where the secretions are excertating, it acts upon the same principle and is one of the most of success. It has been administered by the Doctor in many thousand cases, and he has yet to find the first in which it has failed to subserve the purpose for which it was administered. Price, \$5. To the Labies of Oregon and California.—L. J. Czapkay, M. D., physician surgeon and accoucher, invites the attention of the sick and afflicted females laboring under any of the various forms of diseases of the brain, lungs, heart, stomach, liver, womb, blood, kidneys, and all diseases peculiar to their sex. The Doctor is effecting more permanent cures than any other physician in Oregon or California. Let no false delicacy prevent you, but apply immediately, and save yourself from painfol suffering and premature death. All married ladies, whose delicate health or other circumstances do not allow to have an increase in their families should write or call at Dr. L. J. Czapkay's Medical Institute, Armory Hall, corner of Sacramento and Montgomery streets, and they will receive every possible relief and help. The Doctor's Offices are so arranged that he can be consulted without molestation.

The attention of the readers is called to the folowing:

A lady of high standing in society and respectability, published a card in the Philadelphia Sunday Dispatch, September 14, 1851, which is as follows:

A Cane—The undersigned feels it her duty to express her heartfelt gratitude to Dr. Czapkay, for the successful care of berself and child. The latter having been afflicted by a severe attack of "Cholera Infantum," was given up as inearable by some of the most celebrated physicians, when she called on Dr. Czapkay, of whom she heard very favorable report, and who, after a short period, restored the child to perfect health. Encouraged by this extraordinary result, she sought advice herself, for the scrofulous mulady, with which she had been afflicted for eight years, and which withstood the treatment of the best physicians in Europe and América. Bat Dr. Czapkay has succeeded in affording her permanent relief, so that she can now enjoy life, which, for eight years had lost all charms for her. She, therefore deems it due to herself and to all sick and afflicted to recommend Dr. Czapkay, as one of the most skillful physicians within the United States.

He combines with a finished education and the most refined and agreeable manners, the most extensive scientific abilities and skill in his profession, and we feel much pleasure in recommending him to our citizens as a physician and a gentleman.—Dr. Czapkay has spent some time in Philadelphia where he won the confidence and friendship of those who became acquainted with him.
