Notice to Importers of Umpqua. Notice to Importers of Umpqua.

The Schooler UMPOLA, under the command of S. B. Hinsdale, sailed from Umpqua river for San Francisco, on the 6th of May, and intends unking regular trips beteen these two ports.

It is only necessary we believe, to remind the importers of Umpqua that this vessel—the Umpqua, to insure their patronage and support. This vessel will discharge her cargo at Scottsburg, and at the rate she intends to carry freight, will not only save the shipper a very considerable item, but save him the transportation up the river, and the vely enable him to receive his goods without so much handling as heretofore. In fine, the Schooner Umpqua, of Scottsburg, is a real Umpqua craft and being the first on the list in this great reform, confidently relies upon all the Umpqua for support and encouragement.

For freighter passage apply to Allan, McKinlay & Co., Scottsburg, or to the Capt. on board. Merchants wishing to ship from San Francisco, can apply to Allan, Lowe & Co., 132, Clay st., or to the Captain.

SPERMATORRHEEA OR LOCAL WEAKNESS.
Dr. L. J. Czapkay would call public attention to spermatorrhap or local weakness. There is not in the catalogue of human maladies one more to be deprecated than this, as well because of present distress, as the ultimate results. The tone of the system under its infinence is either impaired or entirely destroyed, and a class of symptoms superinduced that unfits man for the performance of any of the ordinary duties of life. The injuries done to the physical part of man is truly lamentable, but triffing when compared to those of the conscrium, the great nervous center, and to the nervous system generally. This disease, which is too often consequent upon that solitary rice, self-abuse, involves pathological conditions beyond the comprehension of theurinitiated, but which are wellanderstood by the regular practitioner. Among the symptoms must conspicuous are the following: Love of solitude, averson to business and society, distressing timidity, norvous excit ment from slight causes, loss of memory, confusion of ideas, inability to reason correctly, low spirits and lassitude, duliness of apprehension and misanthropy.—These being functional decangements, are often the harbingers at horrid organic lessons of the brain, which produce latuity, dementia and death.

For the cure of this and all kindred diseases, Dr. Czapkay has established his Institute, where all may rely with perfect confidence upon that skill which long experience and thorough devotion to his profession has given.

Those who suffer should call or write without delay.

SECRET DISEASES.—DR. L. J. CZAPKAYS EX.

Traordinary success in the treatment of secret diseases in the primary and other stages, induces him to call pulfit attention to the fact that of the great numbers who has not been effectually and permanently cured. In recent cases of private diseases, the Dr. gnaranties a perfect cure in a few days without hindrance to besiness or other inconvenience. The Dr.'s method of treating these matadles, combines the improvements made by the medical faculty with discoveries of his own that are unknown to any opereise, and which, when applied, prevent the possibility of evil after consequences.

Secondary syphills, which is so destructive of health, producing ulcerations of the threat, destroying the soft parts, and leaving the bones exposed, which mortify, separate and come away, disfiguring the sufferer most inorribly, as well as impateing his general health, and predisposing to consumption, the Dr. treats in the most certain and efficient manner. Also, painful swellings upon the bones, disfiguring splotches upon the skin, sores, pimples, find all other consequences of private diseases he guaranties to cure or asks no compensation. Dr. C. would especially call the attention of those who have failed to obtain relief from others, many of whom he has already cured, and miny are still under treatment. The Dr. makes no charge for consultation, and invites all to call at his lustitute; and he will give them such satisfaction as they can obtain nowhere else.—Those at a distance, by writing to the Dr., can have their cure; properly attended to. Offices, Nos. 3 and 4 Armory Hall, corner of Sacramento and Montgomery sts., San Francisco, California.

As inoculation is preventive against small pox, so is Dr. Candary's Prophilacticum a preventive against secret disease. That they can be prevented by proper agents, is as well an established fact as that they can be oured after their establishment. This principle, which is now universally recognized, was received even before the days of Jenner, the discoverer of vaccination, in 1795, and its multiplied benefits ever since have received as they deserved, the attention of the Medical faculty. It was in pursuit of this branch of the medical faculty. It was in pursuit of this branch of the medical faculty. It was in pursuit of this branch of the medical faculty. It was in pursuit of this branch of the medical faculty. It was in pursuit of this branch of the medical faculty. It was in pursuit of this proper was and cutanous disorders, stands unrivalled by any agent in the Pharmacopæa. The modus operandi of this medicine is explained upon the hypothesis that secret poisons possess chemical properties which are neutralized by being brought in contact with this prophylatic, as acids are known to neutralize alkalles, destroying entirely their original properties, and rendering them inert. The effect of this agent is immediate, and removes the possibility of a contracted, it is useful in neutralizing the prisonous secretions, which by absorption, produce the consequences known as secondary disease. In cancerous and gangerous ulcers, in fortid discharges and in cutanous diseases where the secretions are excornating, it acts upon the same principle and is one of the most effectual remedies for the purpose now known. Where disease is once established it should be used in counce thon with other remedies, and when so used hever falls of success. It th

The following is an editorial notice in the Bosta Daily Times of August 6th, 1854:

A SKILAFUL PRYSICIAN.—Dr. L. J. Crapkay his opened an office at No. 16 Pleusant street in this city.—Dr. C. is a Hungarian by birth, and was connected with the patriotic army as physician and surgeon under the patronage of Kossuth. He combines with a finishe education and the most refined and agreeable manners the most extensive scientific abilities and skill in his profession, and we feel much pleasure in recommending him to our citizens as a physician and a gentleman.—Dr. Czapkay has spent some time in Philadelphia where he won the confidence and friendship of those who became acquainted with him. Among his friends in Philadelphia are gentlemen of the highest respectability, with whom we are personally acquainted. He had an extensive practice in Hungary before the Austrians and Russians compelled him to leave it for being found guilty of excessive particitism. We hope he will receive that patronage due a man of so eminent capacity.

The above are only a few of the many testimonials which Dr. Czapkay has in his possession, but cannot publish for want of space. All communications, (by letter or otherwise.) free.
