It is no soldom that'we see capething in the Beauto papers concerning Oregon, that you probably think that delightful Territory is entirely in-redien by her cancerning Oregon, that you probably think that of Iow purposes the fertile plains of Iow, Minnesots and Missouri, they are more immentably ignorant of any of the countries west of the Rocky menutains. Some of his scenes at Shealwater bay will be fully recognized by the residents on the Columbia, and will cause many a hearty laugh among all other readers who can enjoy a joke.

The importance of information relative to Oregon and Washington at the present time, may be seen from the fact that, as I have been credibly informed by the Messrs. Harpers, the simple announcement of the work being in press was noticed in a long article in a London literary journal, accompanied by an order from the editor for fifty copies.

Mr. Swan is an old friend and acquaintance of mine, and you may be sure he takes a deep interest in the welfare of our Territory. He is at present in this city, preparing a series of articles, calling the attention of emigrants to the great advantages of Oregon and Washington.

You may depend upon it, there is a feeling being aroused among the down-easters, very favorable to a large emigration by water; not of tarmers, altogether, but of shipwrights, mechanics and whalemen—men who wish to make a change, but not being fitted for a life on the western prairies, are glad to learn that there is a section of new country where they can settle and turn their talents to good account.
