THE SUBSCRIBER begs leave to announce to the FARMER'S and DEALERS IN AGRICULTURAL IMPLEMENT, of California and Oregon, that he has now facilities for manufacturing and repairing Agricultural Implements of every description, from the cultural Implements of every description, from the cultural implements of every description, from the smallest to the greatest, of the best and most improved kinds, and in the best manner, having his shop so enlarged as to accommodate sixty workmen, and furnished with steam power and all the necessary machinery of the LATEST and most APPROVED styles, and inferior to none now in use for the nursess above.

ed kinds, and in the best manner, having his shop so enlarged as to accommodate sixty workness, and furnished with steam power and all the necessary machinery of the LATEST and most APPROVED styles, and inferior to none now in use for the purpose above named. He is confident, that, with his past fifteen years' experience in California, he can provide the farmers with machines and implements much more suitable to the wants of the country than any that can be imported, as the soil and products of the country are different from those at home, and require Machines in most cases of a more substantial make, and in many instances very different.

He designs manufacturing a number of combined Reapers and Mowers, particularly adapted to the use of this country, which will possess more combined strength, durability and lightness, than any other now in use. His Cast Steel Deep Tiller Plow has already attained a notoriety in this country far in advance of any before introduced. He will be able, with what other Plows are made within the State, to supply fully the demand for these Plows the coming season. He designs manufacturing Smith's Patent Gang Piow, so favorably known in the Westorn States, and recently introduced here. Also, Premium Faming Milk, from Nos. 1 to 4, which have given universal satisfaction.—Also, the Working Churm, to which was awarded the First Premium at the California State and Mechanics' Fair, 1857. Also, Harrows, Cultivators, Side-hill School and Lert Hand Plows, and all other similar implements.

HE WISHES to call the PARFICULAR ATTENTION of the Parmers to his facilities for repairing all kinds of agricultural implements, being such as to enable him to do every part within his tows shop, being prepared to make castings both of iron and brass; therefore he will be able to do repairing in the shortest time and with mach less trouble than has heretofore been the case. He wishes also to ANNOUNCE that he has now on the WATER, bound for this PORT, on board the cipper ships WEBFOOT and MARY ROBINSON, forty

In fact, a full assortment of all implements required by the farmer. He proposes to say that what he manufactures, as well as what he imports, he will sell on as reasonable terms as any can sell similar articles.

He is some that he can and will offer such inducements as to make it to the interest of farmers and merchants to buy of him instead of importing. He would, at the same time, tender his thanks to the public for their liberal patronage during the past senson, which has been entirely to his estisfaction and much beyond his expectation at the beginning of the senson.

CARD.

Prompted by an honest desire of my heart, I wish to lay before the public a case which deserves a high communitation, not only as an act of scientific skill, but that of humanity, also. About two years ago, I suddenly and iron causes unknown to me, was seized with a fit of KPILETST, which, owing to my inability to meet a fit of EFILERSY, which, owing to my inability to meet the expenses consequent upon a thereagh medical treatment, and the discouragement which I met with on attempting it, soon became such (as I was then had to believe,) as to dely the skill of any physician. I was frequently, while in pursuit of my calling, thrown down to the ground without the slightest warning, and although insensible to the arconies, yet I despised the misery of my existence. While in this state, and having anvious to my affletion tasted the sweets of life. I once more was induced to attempt seeking aid of a physician, and, by recommendation, called upon Dr. L. J. Czapkay. I told him my circumstances, and my inability to reward him for his services—regardless of which, however, he at once modertook my case, and with the plansing of God, I was once more restared to perfect

onfidence can be placed. State of California, County of San Francisco,
