

Our Admission.

The Standard is still harping upon the theme that Oregon will not be admitted to the Union, because her people do not desire admission at the present time nor under the present constitution.

The Standard then proceeds to state some of the "deep and valid" objections aforesaid, (which, we may remark in parentheses, are very similar to those once expressed by a present inmate of Mr. Sloan's very hospitable and very popular institution for the cure of "moral insanity.")

AN "OLD TIME" BALL.—A ball is announced to take place at the Court House, in Salem, on Wednesday next, the 27th ult., which is expected to be something magnificent.

Gold Discoveries.

The recent discovery of gold in the Fraser River has already furnished a fruitful theme to moralists upon the venality of the times, and the weakness of poor human nature.

The extensive discoveries of gold which have been made within the last decade, and the great results which have followed them, are truly matter of astonishment.

But increased facilities for acquiring wealth brought in their train many attending evils. They stimulated avarice, and kindled hopes of great and sudden riches.

Such excitement seem to be, to a certain extent, contagious. In the recent Fraser river excitement, it was observed that while some communities were nearly depopulated, others lost scarcely a single man.

California has suffered greatly from these excitements, but what she lost in the last one will probably be made up to her by the immigration which is arriving from the Atlantic States by every steamer.

THE QUEEN'S ENGLISH.

The Queen's English is proverbially ill used; never more so than yesterday.

THE LEADER in the last issue of the Oregonian is Dryer's promised "history of Jews." It is hardly necessary to say that it is just such a tissue of ignorance, absurdity, and venom, as might have been expected from the source.

The Mail.

For several weeks past complaints have reached us from the southern part of the Territory of repeated failures of the mail from this section.

We do not intend to enter any complaint against the Postal Agent; for that officer has hitherto proved himself competent and efficient.

If we are correctly informed these last failures of the mail have occurred on the route between Corvallis and Oakland; and they appear to be the result of carelessness or incapacity on the part of the carrier or carriers.

The Indians were much discriminated, and although they are by no means whipped, still their morals are modified.

If that is not disgustingly inflated enough just turn to the communication in the Oregonian, of the 9th inst., wherein the admiration of "Coeur d'Alene" at the bravery and conduct of Col. Wright and his command completely carries him away, and he breaks out into the following wild rhapsody:

We think the extracts we have quoted are sufficient to give our readers a "satisfying sense" of the style and matter of "Coeur d'Alene's" communications.

We have not yet repented of what we have done, and have no idea of reforming.

When former Pearne went to reside at Portland, we hoped that the example of his person walk and conversation, in conjunction with our moral exhortations, would have the effect to open Todd's eyes to his miserable condition, and incline him to the right path.

The Atlantic Telegraph in France.

The news of the successful laying of the Atlantic telegraph cable was received in France with apparent indifference.

PEARS.—We are under obligations to Mr. R. C. Geer for a liberal donation of excellent pears.

THE ATLANTIC TELEGRAPH.—Great Britain grants to the Atlantic Telegraph Company an annual subsidy of £15,000, or about \$70,000, until such time as the net profits of the company shall reach six per cent.

ACCIDENT.—The floating saw-mill, formerly the steamer Canemab, owned by Mr. B. M. Du Ruelle, sunk on Thursday evening last, at the steamboat landing.

A SUCCESSFUL PREDICTION.—Fifteen years ago Prof. Morse predicted the success of an Atlantic Telegraph, though perhaps he little dreamed that the event would be so soon realized.

THE TELEGRAPH CABLE.—We are indebted to Mr. John Costello, of Champeo, for a piece of the Atlantic telegraph cable, about four inches in length.

CENTRAL BAPTIST ASSOCIATION.—Some one sent us the minutes of the first anniversary of the Central Baptist Association, from which we learn that the Association contains ten churches, eight ordained ministers, seven licentiates, and four hundred members.

GONE NORTH.—W. J. Beggs, late editor of the Jacksonville Herald, has taken charge of the moral department of the Oregon Statesman.

POMOLOGICAL CONVENTION.—On Wednesday and Thursday last, the 20th and 21st inst., a large number of our most prominent fruit growers assembled in the Legislative Hall at this place, to interchange views and experience in regard to the different varieties of fruits, and the best modes of cultivation.

FRANK COLE, of the "Nonpareil," has our thanks for a beautiful natural cluster of apples, six in number. They are of the Rambo variety, and are precisely alike in color, size and appearance; while they hang so closely upon the parent stem, that each one touches its neighbor.

The last number of the Standard contains a paragraph on "dorks." It isn't the first time the editor of the Standard (Leland) has obtruded his family affairs upon the public.

We observe that the Standard has copied Gen. Adair's letter, "because it likes to see fair play." We wonder how much Adair has paid for this exhibition of "fair play?"

DOMESTICATED INDIANS.—Several fine well behaved Indian boys have been domesticated in families in Weaverville. They are sent to school, and appear the happiest little fellows alive—so says the Trinity Journal.

"Justice" is known to us, and will receive proper attention.—Oregonian.

WHISKY WILL EXPLODE.—A Wheeling, (Va.) paper tells us the explosion of a cask of whiskey at a distillery in that place. We presume it was the article known in drinking circles as "bust-head."

ELECTORAL VOTE.—The electoral vote for President of the United States, is now 300. Should Oregon and Kansas be admitted before 1860, the vote will be increased to 306.

THE TRICKS OF TRADE.—In New York City several persons have been poisoned by eating peaches which had been tinged with rouge, to make them look ruddy and ripe.

The following description of the conducting wire of the Atlantic cable, and its mode of manufacture, is not uninteresting.

The central conducting wire is a strand made up of seven wires of the purest copper, of the gauge known in the trade as No. 22.

PEARS.—We are under obligations to Mr. R. C. Geer for a liberal donation of excellent pears.

THE ATLANTIC TELEGRAPH.—Great Britain grants to the Atlantic Telegraph Company an annual subsidy of £15,000, or about \$70,000, until such time as the net profits of the company shall reach six per cent.

ACCIDENT.—The floating saw-mill, formerly the steamer Canemab, owned by Mr. B. M. Du Ruelle, sunk on Thursday evening last, at the steamboat landing.

A SUCCESSFUL PREDICTION.—Fifteen years ago Prof. Morse predicted the success of an Atlantic Telegraph, though perhaps he little dreamed that the event would be so soon realized.

CENTRAL BAPTIST ASSOCIATION.—Some one sent us the minutes of the first anniversary of the Central Baptist Association, from which we learn that the Association contains ten churches, eight ordained ministers, seven licentiates, and four hundred members.

GONE NORTH.—W. J. Beggs, late editor of the Jacksonville Herald, has taken charge of the moral department of the Oregon Statesman.

POMOLOGICAL CONVENTION.—On Wednesday and Thursday last, the 20th and 21st inst., a large number of our most prominent fruit growers assembled in the Legislative Hall at this place, to interchange views and experience in regard to the different varieties of fruits, and the best modes of cultivation.

FRANK COLE, of the "Nonpareil," has our thanks for a beautiful natural cluster of apples, six in number. They are of the Rambo variety, and are precisely alike in color, size and appearance; while they hang so closely upon the parent stem, that each one touches its neighbor.

The last number of the Standard contains a paragraph on "dorks." It isn't the first time the editor of the Standard (Leland) has obtruded his family affairs upon the public.

We observe that the Standard has copied Gen. Adair's letter, "because it likes to see fair play." We wonder how much Adair has paid for this exhibition of "fair play?"

DOMESTICATED INDIANS.—Several fine well behaved Indian boys have been domesticated in families in Weaverville. They are sent to school, and appear the happiest little fellows alive—so says the Trinity Journal.

"Justice" is known to us, and will receive proper attention.—Oregonian.

WHISKY WILL EXPLODE.—A Wheeling, (Va.) paper tells us the explosion of a cask of whiskey at a distillery in that place. We presume it was the article known in drinking circles as "bust-head."

ELECTORAL VOTE.—The electoral vote for President of the United States, is now 300. Should Oregon and Kansas be admitted before 1860, the vote will be increased to 306.

THE TRICKS OF TRADE.—In New York City several persons have been poisoned by eating peaches which had been tinged with rouge, to make them look ruddy and ripe.

THE GREAT CATHOLIC CATHEDRAL.—The New York papers give an account of the laying of the corner stone of a new Roman Catholic Cathedral, just commenced in that city, on the corner of Fifth Avenue and Fifth Street.

The plan of the building is a Latin cross, 328 feet long by 176 feet wide, divided in the usual way with Catholic buildings of that order.

How strange it seems to us, that with all our devotion and appreciation of the sex, we still remain unblinded by gender sympathies, and we can only "account" for it on the hypothesis that their natural diffidence has prevented their friends from approaching us candidly on the subject.—Freaks Union.

ALL ABOUT A NAME.—In Ohio, recently, a man and his wife were divorced, because they quarreled about what name should be given to their first baby.

STEAMBOATS are being introduced upon the canals in New York. They are found to answer much better than horse power.

EX PRESIDENT PIERCE is residing at Villeneuve, Switzerland. John Van Buren is at the Baden Baden Springs, Germany.

THE account of the cable carnival in New York City occupies thirty six columns of the New York Herald.

THE leading opposition papers east are in favor of a complete fusion, to defeat the Democracy in 1860.

THE NEGROES OF THE SOUTH.—In a description of country and plantation life in Virginia, recently published, G. P. R. James, the novelist, writes:

THE P. M. S. Co's steamship Northern, on her last trip, while going out of Puget Sound, bound from Olympia to Victoria, came in collision with the Resolute from which considerable quantities of mail were lost, in consequence of which the Northern was detained at Victoria until Tuesday the 19th inst., on which day she took her departure for San Francisco.—Standard.

MAILED. In Parkville, on the 16th inst., by P. J. Peffy, Esq., Mr. LOUIS ALEXANDER, of Seis, Lin Co., to Miss Elizabeth Murrell.

DIED. At Dallas, on the 25th inst., ROBERT W. HALE, aged 25 years.

SPECIAL NOTICES. Within a short time we shall send out our annual circular and bills for the year ending on the 31st of December, 1858, and we respectfully request all persons indebted to us to come forward and make payment of the same.

PREPARE TO LAUGH.—Squire G. tells the following good Hoosier yarn, demonstrating the power of music over the human mind.

Twenty Dollars Reward. STRAYED or stolen from the undersigned, about the 22d of September last, a brown mare, 11 hands high, heavy make, and long forehead; right hind pasterns in a little more than a mile from the hind foot.

Dr. Edward Shell. Special Attention to Chronic Diseases. CORVALLIS, O. T., Oct. 25th, 1858.

PROGRESS OF THE UNITED STATES.—The following figures give a brief and comprehensive picture of the progress of the American Union from 1793 to 1850.

Table with 3 columns: Year, Population, Revenue, Exports, Imports, Shipping Inwards, Army, Militia, Miles of Railroad, Miles of Electric Telegraph.

A curious mistake occurred in the election returns for the Presidency of the federal Republic of Switzerland. In consequence of a clerical error, the wrong man was placed at the head of the Government for a space of twenty-four hours, but when the mistake had been detected he resigned his dignity to the lawful successor.

STEAMSHIP ACCIDENT.—The P. M. S. Co's steamship Northern, on her last trip, while going out of Puget Sound, bound from Olympia to Victoria, came in collision with the Resolute from which considerable quantities of mail were lost, in consequence of which the Northern was detained at Victoria until Tuesday the 19th inst., on which day she took her departure for San Francisco.—Standard.

MAILED. In Parkville, on the 16th inst., by P. J. Peffy, Esq., Mr. LOUIS ALEXANDER, of Seis, Lin Co., to Miss Elizabeth Murrell.

DIED. At Dallas, on the 25th inst., ROBERT W. HALE, aged 25 years.
