REMARKABLE INSTANCE OF MEDICAL REiter.—Below we publish the certificates of two
of the sufferers from the pangs of disease, who having
recovered their former health, and impelled by gratiinde, make known their cases and remedial agent, and
their statements are authenticated by a Notary Public.
The demands of Society imperiously command their
publicity, and we commend their perusal to the attention of all afflicted;

The undersigned, desirous of acquainting those who may be unfortunate enough to be similarly afflicted, where a permanent relief of their suffering may be obtained, feels it his duty to thus publicly express his most sincere gratitude to Dr. L. J. Czapkay, for the itermanent recovery of his health. Borne down by the distressing symptoms incident to the vicious practice of uncontrollable passion in youth; depressed in body and mind; unable to perform even the most trifling duty imposed upon the duly avocations of life, I sought the advice of many physicians, who at first regarded my disease as of trifling importance—but alas; after a few weeks, and in several in-tinuces months, of their treatment. I found to my unatterable horror, that instead of relief, the symptoms became more alarming in their torture; and being, told by one that my disease, being principally confined to the brain, medicine would be of little consequence. I despaired of ever regaining my health, strength and energy; and, as a last resort, and with but a faint lapse, called upon Dr. Czapkay, who, after examining my case, prescribed some medicine would almost instantly relieved me of the dull pain and dizzhess in my head. Europraged by this result, THE collegiate year consisting of one term of nine months, will commence on the first Wednesday of November.

It is the lesign of this Justitution to furnish a thoro ough and complete collegiste adacation.
There is a Library of 1000 volumes for the use of the Applicants for admission to college must have a knowledge of the cummon English branches, and have studied the amenat languages so far as to have read portions of Cusar and Cicero and the Greek Reader. Students fitting for college, as well as others wishing o pursue collegiate studies without entering upon the college course, will be under the instruction of the college teachers.

The fall term of 11 weeks in this department comwhich almost instantly reheved me of the fall pain and dizzhiess in my head. Encouraged by this result, I resolved to place myself immediately under his care, and by a strict obedience to his directions and advice, my head became clear, my idras collected, the constant pain in my back and grous, the weakness of my limbs, forebodings; the self distract and want of coalishence in others; the incapacity to study, and want of resolution; the frightful, execting, and at times pleasurable dreams at right, followed by involuntary discharges, have all disappeared; and in fact, in two months after having consulted the Doctor. I felt as if inspired by a new life—that life which, but a short time ago, I contemplated to end with my own hand.

With a giew to guard the unfortante from falling into the snares of incompetent quacks. I deem it my duty to offer this testimouy to the merit and skill of Dr. Czapkay, and recommend him to all who may stand in need of medical advice, being assured by my own experience, that once under his care, a radical and permanent cure will be effected.

State of California, County of San Francisco. Subscribed and sworn to before me, this 17th day of April, A. D. 1856.

CARD.

Prompted by an honest desire of my heart. I wish to lay before the public a case which deserves a high commendation, not only as an act of scientific skill, but that of humanity, also. About two years ago, I suddenly and from causes unknown to me, was serzed with a fit of futurers, which, oxing to my inability to meet the expenses consequent upon a thorough medical treatment, and the discouragement which I met with on attempting it, soon became such (as I was then led to believe,) as to defy the skill of any physician. I was frequently, while in pursuit of my calting, thrown down to the ground without the slightest waraing, and although insensible to the agonies, yet I despised the misery of my existence. While in this state, and having previous to my affection tasted the sweets of life. I once more was induced to attempt seeking aid of a physician, and, by recommendation, called upon Dr. L. J. Czapkay. I told him my circumstances, and my inability to reward him for his services—regardless of which, however, he at once undertook my case, and with the blessing of God, I was once more restored to perfect health. Unable to reward him for the boon which I enjoy at present, and yet conscious of my indebtedness. I consider it due to myself and to all afflicted, to make the case public, in order that those in need of medical advice may find a physician in whom every confidence can be placed.

Dr. Kriechbaum's Hungarian HAIR PRESERVER.

HAIR PRESERVER.

FOR the Restoration, Beauty and Preservation of the Hair. This preparation removes all harshness and dryness of the hair, by exciting the scalp to a new and healthy action, and cleanses it from scurf and dandroff: prevents the hair from falling off and getting gray, but the most remarkable result which it will effect, is it will produce a new crop of hair on an entirely buld head. Many young persons sometimes find the too early appearance of gray hairs, this preparation will stop this result. Mothers who wish their childreff to have line heads of hair, can effect this by the use of this Tonic; especially on their daughters if the hair is light. I know few persons believe the hair can be restored on a bald head, but, if my directions are followed I will warrant a cure or refund the money. It is put up in two ounce bottles and for sale by whole-ble and retail with directions at one dollar per bottle; it can be sent by mail to any part of the United States. Gent-lemen send on your orders, stating the cause and duration of the baldness and I will care you. To insure a cure my charge varies from Twenty five to Fifty dellars, according to the nature of the case.
