THE CALIFORNIA COMBINED REAPER AND MOWER.

The best combined Reaper and Mover now in use.
Will manufacture for the present harvest One Hundred of the the California Combined Reapers and Mowers, which, for beauty, strength and simplicity, has no equal in this or any other market, as it possesses many great advantages over any other machine, to wit:

Ist, It is much lighter; the driving wheel is four feet high, making the draft 30 P cent. less than any other machine.

so, The caring part is the rear of the machine, an the apron is so constructed that it can be taken off it to minutes for mowing.

3t, The grain is passed to one side with ease.
4th, It will cut grass as low as three inches, an grain as high as twelve.
5th, It can be raised or lowered in three minutes.
6th, It has bess side draft than any machine in use.
7th, It has never motion.

rain as high as tweeve.

5th, It can be raised or lowered in three minutes.

6th, It has less side draft than any machine in use.

7th, It has more motion.

8th, You can drive slower and do your work better.

9th, It cuts six and a half feet in width, and has a spring seat five feet from the ground, which places the driver in a position to be able to manage his team, and see the breakers ahead in time to save his machine.

10th, It can be thrown out of, and into gear in one minute. nimute.

11th, The cutting part of the machine being in the rear, takes all the weight off the horses.

12th, The best and last reason at all is, that it is a California improved and made machine: therefore, any purchaser can, on short notice, obtain any portion of the machine that may break.

I have taken particular pains to select good work-men and good materials, and I warrant this machine to reap and mow, and to do either or both, better that any other muchine in this market. Please give me r THOMAS OGG SHAW 33 Sacramento street.

A MEDICINAL drink, of ensinently salutary quali-ties, manufactured by himself exclosively, at his factory at Schieslam, in Holland, and well known dur-ing the last twelve years throughout all the Atlantic and Western States. FROM THE DALLES TO ST. LOUIS. and Western States.

It is made from the best barley that can be selected in Europe, with the essence of an aromatic Italian berry of acknowledged and extraordinary medicinal properties. It has long since acquired a higher reputation, both in Europe and America, than any other distretic bevering.

Analyzed, it is a PERFECTLY FURE LIQUOR, in its of feets a mild and wholesome tonic. It is extensively used and approved by the medical faculty, the temperance people, heads of families, &c.

In Gravel, Gout, and Rheumatism, the obstructions of the bladder and kidneys, and in general debility, its effects are prompt decided and invariably reliable; and it is not only a remedy for these maladies, but in all cases in which they are produced by drinking bad water, which is almost universally the cause of them, it acts as a sure preventative.

For Fever and Ague it is one of the most efficacious preventives that can be resorted to.

In all cases of a dropsical tendency, it is generally

In cases of flatulency, it is an immediate and invariable specific, and it may be administered in diluted and proportionate quantities, even to young infants, in all those paroxysms of griping pain in the atomach and bowels to which they are especially subject, as well as the cholic of grown persons.

Its judicious adoption in connection with the principal meals, or when a sense of exhaustion dictates its use, never fails to relieve the debility attendant upon protracted chronic maladies, low temperament and exhausted vital energy, by whatever cause induced.—These are facts to which many of the most eminent medical men, both in England and the United States, have borne testimony, and which are corroborated by Talk about Gold Mines
