Borne down by the distressing symptoms incident to the vicious practice of uncentrollable passion in youth, depressed in body and nand, unable to perform even the most trifling duty imposed upon the daily avocatious of life, I sought the advice of many physicians, who at first regarded my discuss as of trifling importance—but alas, after a few weeks, and in several instances months, of their treatment, I found to my unatterable horror, that instead of relief, the symptoms became more adarming in their torture; and being told by one that noy disease, being principally confined to the brain, mesh itse would be of little consequence. I despaired of ever regarding my health, strength and emergy, and, as a last resort, and with bat a faint hope, called upon Dr. Czupkay, who, after examining my case, prescribed some medicine which almost instantly refleved me of the dail pain and diminess in my bead. To the Editors of the Parific Medical and Surgical Journal—Gentlemen: My attention has been called to an article in the December number of your journal, in regard to the ad cunden degree granted by the Philadelphia College of Medicine to Dr. L. J. Czapkay. When the application for the degree was made to the Faculty, it was accompanied by allidarits and testimonials to the effect that Dr. was a regular graduate M. D., of the University of Pesth, had served as Surgeon in the Hungarian army and was a regular practitioner of medicine. On the strength of these the degree was granted. The ad mendean degree, as its name implies, a conferred on graduates only, and gives us new privileges. Had there been the slightest suspicion of irregi, alarity, the application would have been refused. By inserting this in your journal you will do an act of justice to the College and confer a favor on Medicine.
