Udolpho Wolfe's Schnapps.

A MEDICINAL drink, of eminerally salutary qualities, manufactured by himself exclusively, at his factory at Schieciam, in Holland, and well known during the last twelve years throughout all the Atlantic and Western States.

It is made from the best barley that can be selected in Europe, with the essence of an aromatic Italian berry of acknowledged and extraordinary medicinal properties. It has long since acquired a higher reputation, both in Europe and America, than any other diaretic beverage.

both in Europe and America, than any other discretic beverage.

Analyzed, it is a PERFECTIV PURE LIQUOR, in its effects a mild and wholesome tonic. It is extensively used and approved by the medical faculty, the temperance people, heads of families, &c.

In Gravel, Gout, and Rheumatism, the obstructions of the bladder and kidneys, and in general debility, its effects are prompt, decided and invariably reliable; and it is not only a remedy for these maladies, but in all cases in which they are produced by drinking bad water, which is shown that they are produced by drinking bad water, which is shown to the same and slit in right ear, and slit in left with an old, crop and slit in right ear, and slit in left with an old, crop and slit in right ear, and slit in left with an old, crop

it is not only a remedy for these maladies, but in all cases in which they are produced by drinking bad water, which is almost universally the cause of them, it acts as a sure preventative.

For Fever and Agne it is one of the most efficacious preventives that can be resorted to.

preventives that can be resorted to.

THE AROMATIC SCHIEDAM SCHNAPPS
Is consequently in great demand by persons traveling, or about to settle in new parts of the country especially, as well as by many in every community, where it has become known, on account of its various other remedial properties.

In all cases of a dropsical tendency, it is generally the only remedy required, when adopted in the early stage of the disease.

In dyspepsia maladies, when taken in proper quantities, as a diet drink, and especially at dinner, it is found by uniform experience to be emineally efficacious in the most obstinate cases, when even the best of the usual remedies have failed to afford more than temporary relief. In cases of flatulency, it is an immediate and invariable specific, and it may be administered in diinted and proportionate quantities, even to young infants, in all those paroxysms of griping pain in the stomach and bowels to which they are especially subject, as well as the cholic of grown persons.

Its judicious adoption in connection with the principal meals, or when a sense of exhaustion dictates its use, never fails to relieve the debility attendant upon protracted chronic maladies, low temperament and exhausted viint energy, by whatever cause induced.

These are facts to which many of the most eminent medical men, both in England and the United States, have borne testimony, and which are corroborated by the highest written authorities.

TO THE PUBLIC. THIS CELEBRATED GIN-PRETENDING TO

THIS CELEBRATED GIN—PRETENDING TO nothing but what it is, viz: a pure and unadulter ated article, and assuming no artificial merits of what it is not, as some of its rival imitators do—after five years of public approval and very extensive sales in California, has been pronounced by the public to be superior, not only as a beverage of general use, to any other article competing against it, but is

UNRIVALIZED IN ITS MEDICAL EFFICIENCY in most cases of complaints. To persons revealing in in most cases of complaints. To persons traveling in these days of rapid transit from East to West, North to South, who are constantly changing their water as well as their climate; who are drinking, indeed, a dozen kinds of water in every twenty four hours, and each draught containing some property acting in chemical antagonism to the preceding one, thereby causing an unnatural degree of excitement to the stomach—it is positively and absolutely necessary to use a counteracting agent. From the fact that the "LONDON CLUB HOUSE GIN"

is prepared expressly to meet such exigencies, and to act as we know it will act, as an antidote we confidently prescribe it as the very best article in the country. The name of "Aromatic Schiedam Schnapps" has never been attached in any way to this article. In first

"LONDON CLUB HOUSE GIN"
to the public, my aim was to give them a pure and unadulterated article of Gin, and to call it by its right name. The success attending its introduction and extensive sale in California is a sufficient guarantee of the high appreciation of the article by consumers.

Various parties have from time to time put up and shipped to California an article which they call "Club House Gin." My Gin, which has gained such a reputation in California, is branded on the cases,

"OLD LONDON CLUB HOUSE GIN—WM. H.D."
The bottles also have a white label with fac-simic of my signature. I caution all parties to beware of imitations.
