Portland, Ogn, May 31, 1859. Udolpho Wolfe's Schnapps. A MEDICINAL drink, of eminently salutary qualities, nanufactored by himself exclusively, at his factory at Schiedam, in Holland, and well known during the last twelve years throughout all the Atlantic and Western States.

It is made from the best barley that can be selected in Europe, with the essence of an aromatic Italian berry of acknowledged and extraordinary medicinal properties. It has long since acquired a higher reputation, both in Europe and America, than any other duretic beverage.

Amlyzed, it is a PERFECTLY PURE LIQUOR, in its of feets a mild and wholese fects a finial and wholesome tonic. It is extensively used and approved by the medical faculty, the temperance people, heads of families, &c.

In Gravel, Gout, and Rheumatism, the obstructions of the bindder and kidneys, and in general debility, its effects are prompt, decided and invariably reliable; and it is not only a remedy for these maladies, but in all cases in which they are produced by drinking bad water, which is almost universally the cause of them, it not as a sume procentative.

For Fever and Ague it is one of the most efficacion preventives that can be resorted to. THE AROMATIC SCHIEDAM SCHNAPPS Is consequently in great demand by persons traveling or about to settle in new parts of the country especially as well as by many in every community, where it has become known, on account of its various other reme

In all cases of a dropsical tendency, it is generally the only remedy required, when adopted in the early stage of the disease.

In cases of flatulency, it is an immediate and invariable specific, and it may be administered in diluted and proportionate quantities, even to young infants, in all those paroxysms of griping pain in the stomach and bowels to which they are especially subject, as well as the cholic of grown persons.

Its judicious adoption in connection with the principal meals, or when a sense of exhaustion dictates its use, never fails to relieve the debility attendant upon protracted chronic maladies, low temperament and exhausted vital energy, by whatever cause induced.

These are facts to which many of the most eminent medical men, both in England and the United States, have borne testimony, and which are corroborated by the highest written authorities.

London Club House Gin.

THIS CELEBRATED GIN—PRETENDING TO nothing but what it is, viz: a pure and unadulter ated article, and assuming no artificial merits of what it is not, as some of its rival imitators do—after five years of public approval and very extensive sales in California, has been pronounced by the public to be superior, not only as a beverage of general use, to any other article competing against it, but is UNRIVALLED IN ITS MEDICAL EFFICIENCY UNRIVALLED IN ITS MEDICAL EFFICIENCY in most cases of complaints. To persons traveling in these days of rapid transit from East to West, North to South, who are constantly changing their water as well as their climate; who are drinking, indeed, a dozen kinds of water in every twenty-four hours, and each draught containing some property acting in chemical antagonism to the preceding one, thereby causing an unnatural degree of excitement to the stomach—it is positively and absolutely necessary to use a counteracting agent. From the fact that the

is prepared expressly to meet such exigencies, and to act as we know it will act, as an antidote we confidently prescribe it as the very best article in the country. The name of "Aromatic Schiedam Schnapps" has never been attached in any way to this article. In first presenting the "LONDON CLUB HOUSE GIN" to the public my aim was to give them a pure and un-

Various parties have from time to time put up and shipped to California an article which they call "Club House Gin." My Gin, which has gained such a reputation in California, is branded on the cases,
