..... Some two weeks — ce, a gentleman named Henry Wolfson left Cauyon City for the Dalles. Nothing having been heard of him since, his friends are apprehensive that some misfortune had overtaken him. Mr. W. has been employed at Canyon City in conducting a mercantile business, and at the time of starting down is supposed to have had with him between \$7,000 and \$5,000 in treasure. It is possible that the express now due may bring some tidings of the missing man, and relieve all fears as to his safety.— Mountaineer.

.... There has been of late frequent disturbances of the mail bags on the route between here and Sacramento. At one time a lot of stamps sent to this office was taken from the Sacramento bag and at others, small sums of money failed to reach their destinations. The postmaster here informed the agents of the Stage Company who immediately set about watching for the rogue .-The result of these proceedings is that, on Tuesday, 7th inst., one of the drivers between Jacksonville and Canyonville, named George Barnum was arrested on suspicion of having cut open and pilfered the mails in his keeping and then hiding or destroying them. Suspicion was excited by the facts that the bags were lost on his trips, and that he had lately been selling large amounts of postage stamps. Upon his apprehension, he made so many conflicting statements that little doubt, if any, remains of his guilt.

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes viriated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptious or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatel by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, rud, indeed, of all the organs, arise Scrofula, or King's Evil.
