About 300 Texans were encountered and driven back being followed for considerable distance down Point Rock river; a considerable number of prisoners were taken. Refugees issuing from hiding places joined in continually until the command withdrew toward Winchester. The expedition traveled 46 miles south of Winchester. It is a concentrated extract of Para Saraal parilla, so combined with other substances of stil-greater alterative power as to afford an effective anti-dote for the diseases Sarauparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumons complaints, and that one which will accomplish their cure must prove of im-mense service to this arge class of our afflicted fellow-citizens. How completely this compound will do it has been proving by experiment on many of the worst cases to be found of the following complaints.— Servefula and Scrothalas Complaints.—

This compound will be found a great promoter of headth, when taken in the spring, to expel the fool hamors which faster in the blood at that season of the year. By the timely explain of them many rank ing disorders are mipped in the bud. Multitudes can, by the aid of this remody, sparte themselves from the endurance of fool eruptions and ulcerous prore, through which the system will serve to rid itself of computing if the Body by an alterative medicine. Cleanse out the vitiated blood whonever you find its impurities bursting through the skin in pimples, erup-tions, or scores, cleanse it when ever the is obstruc-ed and langich in the venue, in the ison the work for where no particular disorder is felt, people enjoy bet-ter health, and live longer, for cleansing the blood. Keep the blood halfly, and all is well; but with this pabulum of life disordered, there can be no lasting bealth. Scorer or hater something must po vrong and he great machinery of life is disordered or over thrown. Baraparilla has, and deserves much, the reputation

and the great maximity of vertices much, the reputation of accomplishing these ends. But the world has been egregicously deserved by preparations of it, partly be-cause the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Saraparilla, or anything elim. but little of the virtue of Sarsaparilla, or anything else. During hate years the public have been misled by harge bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds up in the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of various extracts of Sarsapa-rilla which flood the market, until the name itself is justly despised, and has become synony mous with im-position and chest. Still we call this compound Sar suparilla, and intend to supply such a remedy as shall resene the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the disenses it is intended to curv. In order to secure their complete eradication from the system, the remedy should be indiciously taken according to directions on the bottle. **Brenared bs**

TEREATENED DETENTION OF ANOTHER SHIP AT LIVERPOOL .- Intimation having been given that it is intended to export two of Blakeler's large guns on board the steamship Gib-ralter, bound for Callao, notice, we believe, has beef served on the owners of the vessel by the Custom House authorities at Liverpool, to the effect that if the guns are put on hoard, the effect that if the guns are put on heard, the ship will be detained on suspicion that they are destined for a Southern Confederate American This proceeding is deemed extraordina port. ry, as the guns, from their vast size, each weighing about twenty-one tons, and being capable of carrying seven hundred pound shot, it is con-sidered perfectly clear that they cannot be used in the armament of ships. It is further deem-ed singular, from the fact that arms are shipped and the ships cleared almost daily for northfederal ports. It is alleged that the interfer-ence in the case of the Gibralter and Captain Blakeley's guns has been made in consequence of the representations of the United States Minister in London.—London Times. June 27.

REBEL DESERTERS .- We have had reports that the rebel soldiers in Mississippi were de-serting the army in large numbers. This is confirmed by the following, which we find in the Richmond Dispatch : "SHAMEFUL.-General Jackson advertises

"SHAMEFCL.-General Jackson advertises in the Mississippian two hendred and forty-one members of the Fourth Mississippi gavalry as "Having disgraced themselves by basely and cowardly deserting their posts at a time and down of the section of t when their services were most needed.' Among them are nineteen non-commissioned officers and two Lieutenants."
