

INCIDENTS OF THE DRAFT. (From the New York Evening Post, Aug. 4th.) Soldiers on Duty in Wisconsin.

Guarding Substitutes. In Hartford, the substitutes for drafted men are kept in a large room in Marble Block, on the second story, and are strongly guarded.

New Bedford. The whole number of conscripts examined at New Bedford thus far is 816, of whom 285 have passed.

The Worcester Spy says: Up to this date 1,094 men have reported to the Board of Enrollment.

Abundant Reasons for Exemption. The Providence Journal records the following: "A drafted Irishman called upon one of our lawyers on Saturday and desired to have papers prepared claiming exemption from military service for the several reasons which he named: First—That he was the only son of a widow dependent upon him for support.

Second—That his father was in such infirm health as to be unable to get his own living. Third—That he had two brothers already in the service; all of which facts Patrick desired then and there to verify by affidavit.

The lawyer who had traveled in Illinois and learned the knack of introducing apropos anecdotes, reminded the drafted man of a little story of the maple sugar man in Vermont, who was sued for returning a borrowed sap-kettle in a damaged condition, and pleaded, in defense, first, that the kettle was sound when he returned it; second, that it was cracked when he borrowed it; and, thirdly, that he never had the sap-kettle. Patrick grinned a ghastly smile, such as sometimes illumines the countenance of a man before the Board of Enrollment when the doctor blandly assures him he has not got the liver complaint or the kidney disease, and withdrew his papers.

A Skeddadle. One of the substitutes in Providence barracks, Friday night, by some means procured a pair of Captain's shoulder straps, secured them upon his uniform, then, summoning the guard, gave them renewed instructions to be watchful as the fellows were getting uneasy, and walked out of the door with official dignity so handsomely simulated that the guard did not venture to question the genuineness of his character.

Patriotic Germans. The Chicago Workmen's Association, composed of Germans, has passed emphatic resolutions that they will help crush any mob which may attempt to prevent the execution of the Conscription Law. The association numbers over one thousand men.

Conscripts Reporting. The Corning (N. Y.) Journal says: "The cars are filled with conscripts on their way to or from Elmira to report themselves. On Tuesday the train cars had four cars filled with conscripts from Allegany county, and they were nearly all jolly as volunteers, shouting, singing and boasting of being the especial pets of 'Father Abraham.'"

DEFATIGATION IN VIRGINIA. (Correspondence New York Tribune.) HEADQUARTERS ARMY POTOMAC, August 2, 1862.

Unimproved land in meadow and wood, in this section, was valued before the war at \$10 an acre, and ranged to \$40, according to the nature of the improvements. Farms consist of from 500 to 2,000 acres, and are used chiefly for grazing.

When hired, the rent is \$1 a year. The State tax was 40 cents on the \$100, and the average assessed value \$20 an acre. A frequent mode of operation was to purchase cattle each Autumn driven from Western Virginia, fatten it during the Winter and Spring, and sell it the following August at 100 per cent in advance. This was more common than keeping herds for an increase.

The principal landholder of the neighborhood is named Beal, who owns three thousand acres, and also a fully equipped mill, which takes its name from him. The two hundred negroes which he owned upon his property have all departed, excepting a few women and children, who linger round his dwelling and find little work to do for their food. The neglect of the land heretofore has been very great. The fields and meadows do not appear to have been seeded for half a century, and are overgrown with weeds, which often entirely exclude the grass. Cavalry soldiers who wish to cut fresh feed for their horses have to travel long distances for chance spots where grass preponderates. The whole region needs plowing up and reseeded.

A similar large landholder to Beal, we found recently in John Delany, near Upperville, an old gentleman who also owns thousands of acres of far finer quality, and who during the war has been benefitted by hundreds of cattle and slaves, and thousands of sheep. Of these latter, he possessed imported descriptions costing in some instances \$700 a head, and of cattle in proportion. His feelings toward our army are therefore not amiable. He is a blue, dogged old fellow, and has the courage to refuse night quarters to officers and soldiers who apply for them. He tells officers they may sleep in his stable, and to private he refuses any accommodation whatever. A traveling New York-

er applying to him for a lodging one rainy night, was also recently denied, but had taken the usual method of procuring a letter at Baltimore from the Commanding General of the Maryland Department in favor of his having the document, and told the old gentleman that his refusal of food and shelter would subject him to the withdrawal of that protection if his conduct was mentioned to the Provost Marshal of the army. The old gentleman winced and invited him. The protection of the United States had not saved him an animal from his entire stock or a rail from his fences. Possibly, he feared the further abstraction of his house or himself. His son being in the rebel army, he lived with a daughter and several grandchildren in the almost Robinson Crusoe loneliness of those portions of Virginia overrun by the contending armies. No means of locomotion and no visiting. Horses all stolen or seized. The young men have all departed to the war. Passes not to be had for Washington by those living near railways, or newspapers, or books, no possibility of purchasing. The only variety is the chance notice from Richmond of a near relative killed or wounded. Can a life more dreary be imagined?

FACTS ABOUT THE ARMY. D. Van Nostrand, No 192 Broadway, New York, has published a little volume entitled "Army Pay Digest and Ready Calculator," which furnishes much valuable information as to the pay, emoluments, duties, privileges and rights of troops in the field. We gather from it the following facts of interest to the public at large:

The pay of a Major General is \$2,640 a year, and he is entitled to fifteen rations a day, which, commuted at thirty cents each, net the sum of \$1,435—making his aggregate annual emoluments \$4,075. A Major General is also entitled to four servants, whose rations, (one each) he can also commute, and to five horses, for which he can draw forty cents each a day. When Commander-in-Chief, or commander of a separate army in the field, or of a department, he is entitled to double rations amounting to \$1,638 a year.

The pay of a Brigadier General is \$1,438, with twelve rations, four horses and three servants, the rations of which, commuted, amount to \$2,220 a year.

The pay of Assistant Adjutant General, Quartermaster, Commissars of Subsistence, and Assistant Quartermaster General, in corps organization (each with rank of Lieutenant Colonel), is \$95 a month, with five rations, two horses and two servants. Aids-de-camp, with rank of Major, receive \$80, and with rank of Captain, \$70 a month, each with four rations and four horses. A Chief of Artillery corps organizations receives \$70, and Judge Advocate \$80 a month, each with four rations and two servants. In a division organization (brigade) an aid-de-camp receives \$24 in addition to pay of Lieutenant of infantry. In brigade organizations the pay is as follows: Aid-de-camp with rank of Lieutenant, \$20 a month, in addition to Lieutenant's pay; Assistant Adjutant General, \$70; Assistant Adjutant General, \$70; Commissary of Subsistence, \$70; each with four rations, two horses and one servant.

Chaplains receive \$100 a month, and are entitled to two rations, one horse, but no servants. A Colonel of infantry receives, with rations, \$196 40 a month (of 31 days); a Lieutenant Colonel \$172 10; a Major \$152 80; a Captain \$130, with \$10 additional for responsibility of clothing and arms; an Adjutant and Quartermaster \$120; a First Lieutenant \$110, and Second Lieutenant \$105. Upon this a Colonel pays \$1 39 tax; a Lieutenant Colonel \$3 77; Major \$3 88; Captain \$2 40; Adjutant and Quartermaster \$2 10; First Lieutenant \$1 80; Second Lieutenant \$1 65.

The pay of cavalry officers is more than that of infantry officers. A Colonel receives for a month of thirty-one days, \$218 40—tax, \$1 90; a Lieutenant Colonel, \$189 10—tax, \$1 17; a Major, \$161 80—tax, \$1 44; Adjutant and Quartermaster, \$134 13—tax, \$2 23; Captain, \$111—tax, \$2 73, except where there is no responsibility for clothing and arms, when the pay is \$131; Lieutenants, \$114—tax, \$1 33; Chaplain, \$118 60—tax, \$2 06. Officers of light artillery are paid the same as cavalry officers of the same rank. Engineers and Signals officers receive similar pay; Surgeons are paid as Majors of cavalry, and Assistant Surgeons as Lieutenants of cavalry.

Privates in cavalry, artillery and infantry, second class privates in sappers, miners and potomiers, corporals of heavy artillery and infantry, and buglers in cavalry, receive each \$13 per month. Privates, musicians, artificers and non-commissioned officers in the volunteer service are allowed \$3 50 a month for clothing; servants of officers are allowed for the same \$2 50.

The pay of sergeants in engineer companies is \$31 a month; of sergeant major, quartermaster sergeants and commissary sergeants, \$21; of artificers in engineer companies, \$17; of cavalry and artillery artificers, ferris and blacksmiths, \$15; of cavalry and light artillery corporals and wagoners, \$14; of engineer and infantry musicians, \$12.

THE IMPOSSIBILITY OF RAISING ANOTHER REBEL ARMY.—The rebels staked their all upon the invasion of the North, and in losing the battle of Gettysburg they have lost all. It will be impossible for them to raise another army. In the West they are so thoroughly exhausted that, after getting together twenty-five thousand men under Johnston for the relief of Vicksburg, they could not count upon more than ten thousand uncommitted troops in the whole confederacy. Colonel Grierson who explored that region from Baton Rouge with his cavalry, declared that the rebellion was a mere shell, and that no able-bodied men were left outside the rebel armies. In the East the facts are the same. Stoneman and Kilpatrick found no rebels fit to serve as soldiers behind the lines of Lee's army, and could have taken Richmond if they had only known it was undefended. When Lee invaded Pennsylvania he took with him all the available forces in the rebel service, except a few thousand men scattered on garrison duty from Charleston to Richmond. Bragg's army was the only one left of any consid-

erable force, and that is now reported demoralized and driven across the Tennessee. If Lee's army be annihilated we shall have no more trouble in suppressing the rebellion. A few skirmishes and guerrilla fights will end the war, and our armies, as they advance, will occupy all the rebel cities without opposition.—N. Y. Herald.

A distinguished California divine was asked, after a trip to silver land, "what he thought of the country?" He replied: "There are but three things at Washoe, sir—big mines, little mines and whisky shops; in other words, Ophir holes, gopher holes and loafer holes."

A GOOD AND BEAUTIFUL IDEA.—We perceive that Governor Curtin of Pennsylvania has hit upon the happy thought of buying some ten or twenty acres of the great and glorious battle field of Gettysburg as a cemetery for the heroes who there laid down their lives that the nation might live. This beautiful idea we hope will be fully carried out, including a special division of the field to the soldiers of each State connected with the army of the Union, and a national obelisk on Cemetery Hill, with the names engraved on it of every regiment, and with a book inside containing the name, State, regiment and company of every soldier in those three days' battles, and in the outside incidental operations. We are glad to be assured at the same time that the Union soldiers of this war, who have died on other fields will not be forgotten, but that in some suitable way the government will preserve their names for the remembrance of a grateful posterity.—N. Y. Herald.

A foolish fellow, when addressed by a man of rank, used the answer: "Thank God and your lordship."

"How many children have you, honest man?" asked Lord Nelson one day.

"Four, thank God and your Lordship."

Why are assessors of taxes the only class of men in the world who are not in the habit of disparaging their neighbors? Because they never under-rate anybody.
