

INDIAN FIGHT—We learn from Mr. J. Allen that returned from Fort Klamath, that W. G. Allen had just arrived at the Fort, stating that on the 22d and 23d of June the Snake Indians attacked John Richardson's train, consisting of fifty men and three pack animals, and killed the head waters of the Des Chutes. One horse was shot from under one of the soldiers from Fort Crook, and Bartel, a volunteer from Sacramento valley, was shot through the arm and hand, the ball grazing his breast.

Richardson was compelled to throw away 3,500 pounds of flour, and lost 7 head of oxen. It was supposed to be a small party of not more than 10 or 15 Indians. The attack was made in the morning, and about 75 miles northeast from Fort Klamath. The train consisted of 6 wagons, 15 men, 5 women and several children. Two wagons, two men, with one of the wounded men and two of the women arrived at Ft. Klamath—Intelligencer.

HEAVY STORM—The severest wind, hail and rain storm ever experienced in the country, passed over the Boise mining region on the 27th ult. at Idaho City, the large hotel which has been in process of erection there, all summer, was blown down and almost entirely ruined. Trees were blown up by the roots or twisted off by the wind, from ten to twenty feet from the ground.—Washington Statesman.

STATE LANDS—Gov. Gibbs has located 350,000 acres for the State, a little more than one-half the State is entitled to. It is thought it will be difficult to find enough of even second rate land to make up the complement.

We noticed quite a number of packages of different articles in the "grab" line at Moore's store the past week, directed to Quartzville, Santiam mines. Quite a number of men are now at work in that region, and our city is their base of supplies.

JULY 30.—The Portland correspondent of the San Francisco Bulletin, in speaking of the location of the capital at Salem, says: "What pretensions to commerce belongs to Portland, but it is better for the public that the Government House be kept in the par, and among the plain people of the one counties."

The State Teachers Institute will meet in Albany on the 23d of August. Miss Belt of Salem and Mrs. Godley of Albany have been engaged to provide music for the occasion. The citizens of Albany will provide the entertainment of those who attend free of charge.

The foundation of the Woolen Company's new four mill is laid, and the frame is now being raised. It will be a large and substantial building, four stories high, and probably the best building of the kind in the State. It will supply a want that our city has long felt, and will doubtless be a new source of profit to the company.

We omitted last week to notice the fireworks displayed on the 4th of July. It was the best exhibition of the kind ever witnessed in Salem, and followed the usual order.
